DEPARTMENT OF INDIAN AFFAIRS

Memorandum of an inquiry into the cause and circumstances of the death of
Mabel Kiyawaseew....., Pupil No. 0168
of the Sturgeon Lake Ab. Indian Residential School at Calais,
who died at (place) on Dec 8th 1941.

INSTRUCTIONS

When a pupil of an Indian Residential School dies, the Principal is required to inform the Indian Agent at once.

On receipt of the Principal's notice the Indian Agent shall convene a Board of Inquiry, consisting of himself as Chairman, the Principal of the Residential School, and the Medical Officer who attended the deceased pupil. These members of the Board shall, in each other's presence, complete this memorandum, which shall then be forwarded to the Department of Indian Affairs, Ottawa, in one copy.

The Board of Inquiry shall, if at all practicable assemble within 48 hours of the pupil's death.

The parents or guardians of the deceased pupil shall be given notice of this inquiry and be permitted to attend it or to send a representative. They or their representative shall be asked if they wish to make a statement. In the event of their so wishing, their statement shall be attached to the report. The inquiry, however, shall not be delayed more than 72 hours after the time at which it would otherwise be held, to enable them to attend it.

If the Indian Agent is located at such a distance from the school as to make it impracticable for him to attend the Board, he shall request a responsible local resident to act for him. A suitable person for this duty would be a Justice of the Peace or a member of the Royal Canadian Mounted or Provincial Police. A more or less permanent arrangement of this kind might be necessary in some cases. The Department is prepared to pay a reasonable fee for this duty, on the Agent's recommendation. The report of the Board, in any case, must reach the Department through the Indian Agent's office.

This inquiry is not designed to take the place of, or prevent, any other inquiry, including an inquest, which may be required by law.

If the pupil died as the result of an accident, the Indian Agent is required to take the statements of the witnesses of the accident, and attach them to this memorandum.

Mr. Philip Phelan,
Chief, Training Division,
Dept. of Mines and Resources,
Indian Affairs Branch,
O T T A W A, O N T.

Dear Mr. Phelan:-

Replying to your letter of February 27th, file 131-13-3 (E.1) in regard to December quarter return of the Fort Vermilion Indian Residential School, which has not yet reached you, the Principal advises that this quarterly return was handed to the Indian Agent at Fort Vermilion on January 2nd, but apparently same was misplaced. Consequently, I requested the Principal to send me a copy of this return which I am forwarding to you by air mail.

I note, however, that the report has not been signed by the Indian Agent, but in order to avoid further delay, I am sending it on to you without this signature.

Trusting that this will be satisfactory, I remain,

Yours very truly,

ENCLS.

Dear Sir.

On the 16th of
March last, we had the mis-
fortune to see our boarding
School at Fort Vermilion, Alberta
burn down. Teachers and children
saved nothing except what they
were wearing at the time of the
fire. So we lost the best school

MEMORANDUM.

Mr. Scott.-

Rev. Father Falher, provincial vicar of Athabaska, writes the Department stating that everything in the Fort Vermillion Boarding School was destroyed by fire on the 16th of March, last, and asking for a grant to enable him to provide a number of articles mentioned in the list he encloses to replace those destroyed. Father Falher is correct in stating that the Department came to the relief of the Qu'Appelle school after a fire, as it practically refurnished the school.

As Mr. Inspector Conroy is familiar with the district I would suggest that he be asked for a report on this application. The cost of the articles enumerated would be in the neighbourhood of \$500.00, exclusive of freight.

Memo. to the Deputy Minister:-

Sir:-

OK
Rev. Father Fahler called on me a short time ago and stated that fire had totally destroyed the Indian Boarding school at Fort Vermilion.

He wished to know if the Department would see it's way clear to give some assistance towards the cost of re-furnishing the school, and submitted a list of articles required for this purpose, (said list herewith turned out).

I would recommend that these articles be provided as shown on list with the addition of $\frac{1}{2}$ doz. pails making one doz. in all, because in my opinion it is very necessary in this instance where there is no up-to-date fire protective service, that there should be filled water-pails distributed throughout the building as a protection against a sudden out-break of fire.

Sir,-

The Department having decided to come to the relief of the Fort Vermilion Boarding School, which was destroyed by fire a year ago this month, I have to request that you will be good enough to purchase the following articles and have them forwarded to the Principal of the school at the earliest opportunity:-

- 15 bed stands and blankets
- 15 desks
- 1½ dozen chairs.
- 1 clock.
- 1 large table
- 1 cooking range (large) and utensils
- 2 large heating stoves
- 1 dozen pails.

It might be well, if possible, for you to get in touch with the Principal or Rev. G. Falher, provincial vicar of Athabasca, Edmonton, and get directions as to how these supplies should be sent. The cost of these articles should be within the neighbourhood of \$500.00 and you will be enough to forward to the Department detailed vouchers, duplicate, for the purchases.

Referring to your letter of the 4th of November, last, I beg to say that the Department has decided to come to the relief of the Fort Vermilion Boarding School and Mr. Gerald Card, 740 Seventh Ave., N.W., Edmonton South, has been authorized to purchase the articles asked for in the list forwarded with your letter above referred to and have them forwarded to the Principal at the earliest opportunity. One dozen pails are being ordered, instead of the half dozen as asked for. Dear Sirs,-

Replying to your letter of September 21st,
File No..427,014-34, re freight charges on goods

In connection with this would say that the
total freight charge should have been \$127.86 to cover
Invoices A98341, D28290 and CH49207. This amount
should have been charged you on A98431, but instead we
made an error in our figures and charged only \$58.97.

We herewith attach a copy of our Freight
charge for the balance of \$68.89 and also the receipted
expense bill to cover the item of 95¢ for a shipment of
one (1) Pump and Fittings for M.G. Card, which went for-

THE PLATE STEEL DESK

Single Desk for each Pupil
The Simplest and Strongest Single Desk made.

The standard is made of one piece of open hearth sheet metal of drawing quality. It is formed, pressed and drawn into rectangular shape with flanged edges which are welded at intervals. This produces a four-wall (or four-angle) formation of the entire standard giving enormous strength and rigidity.

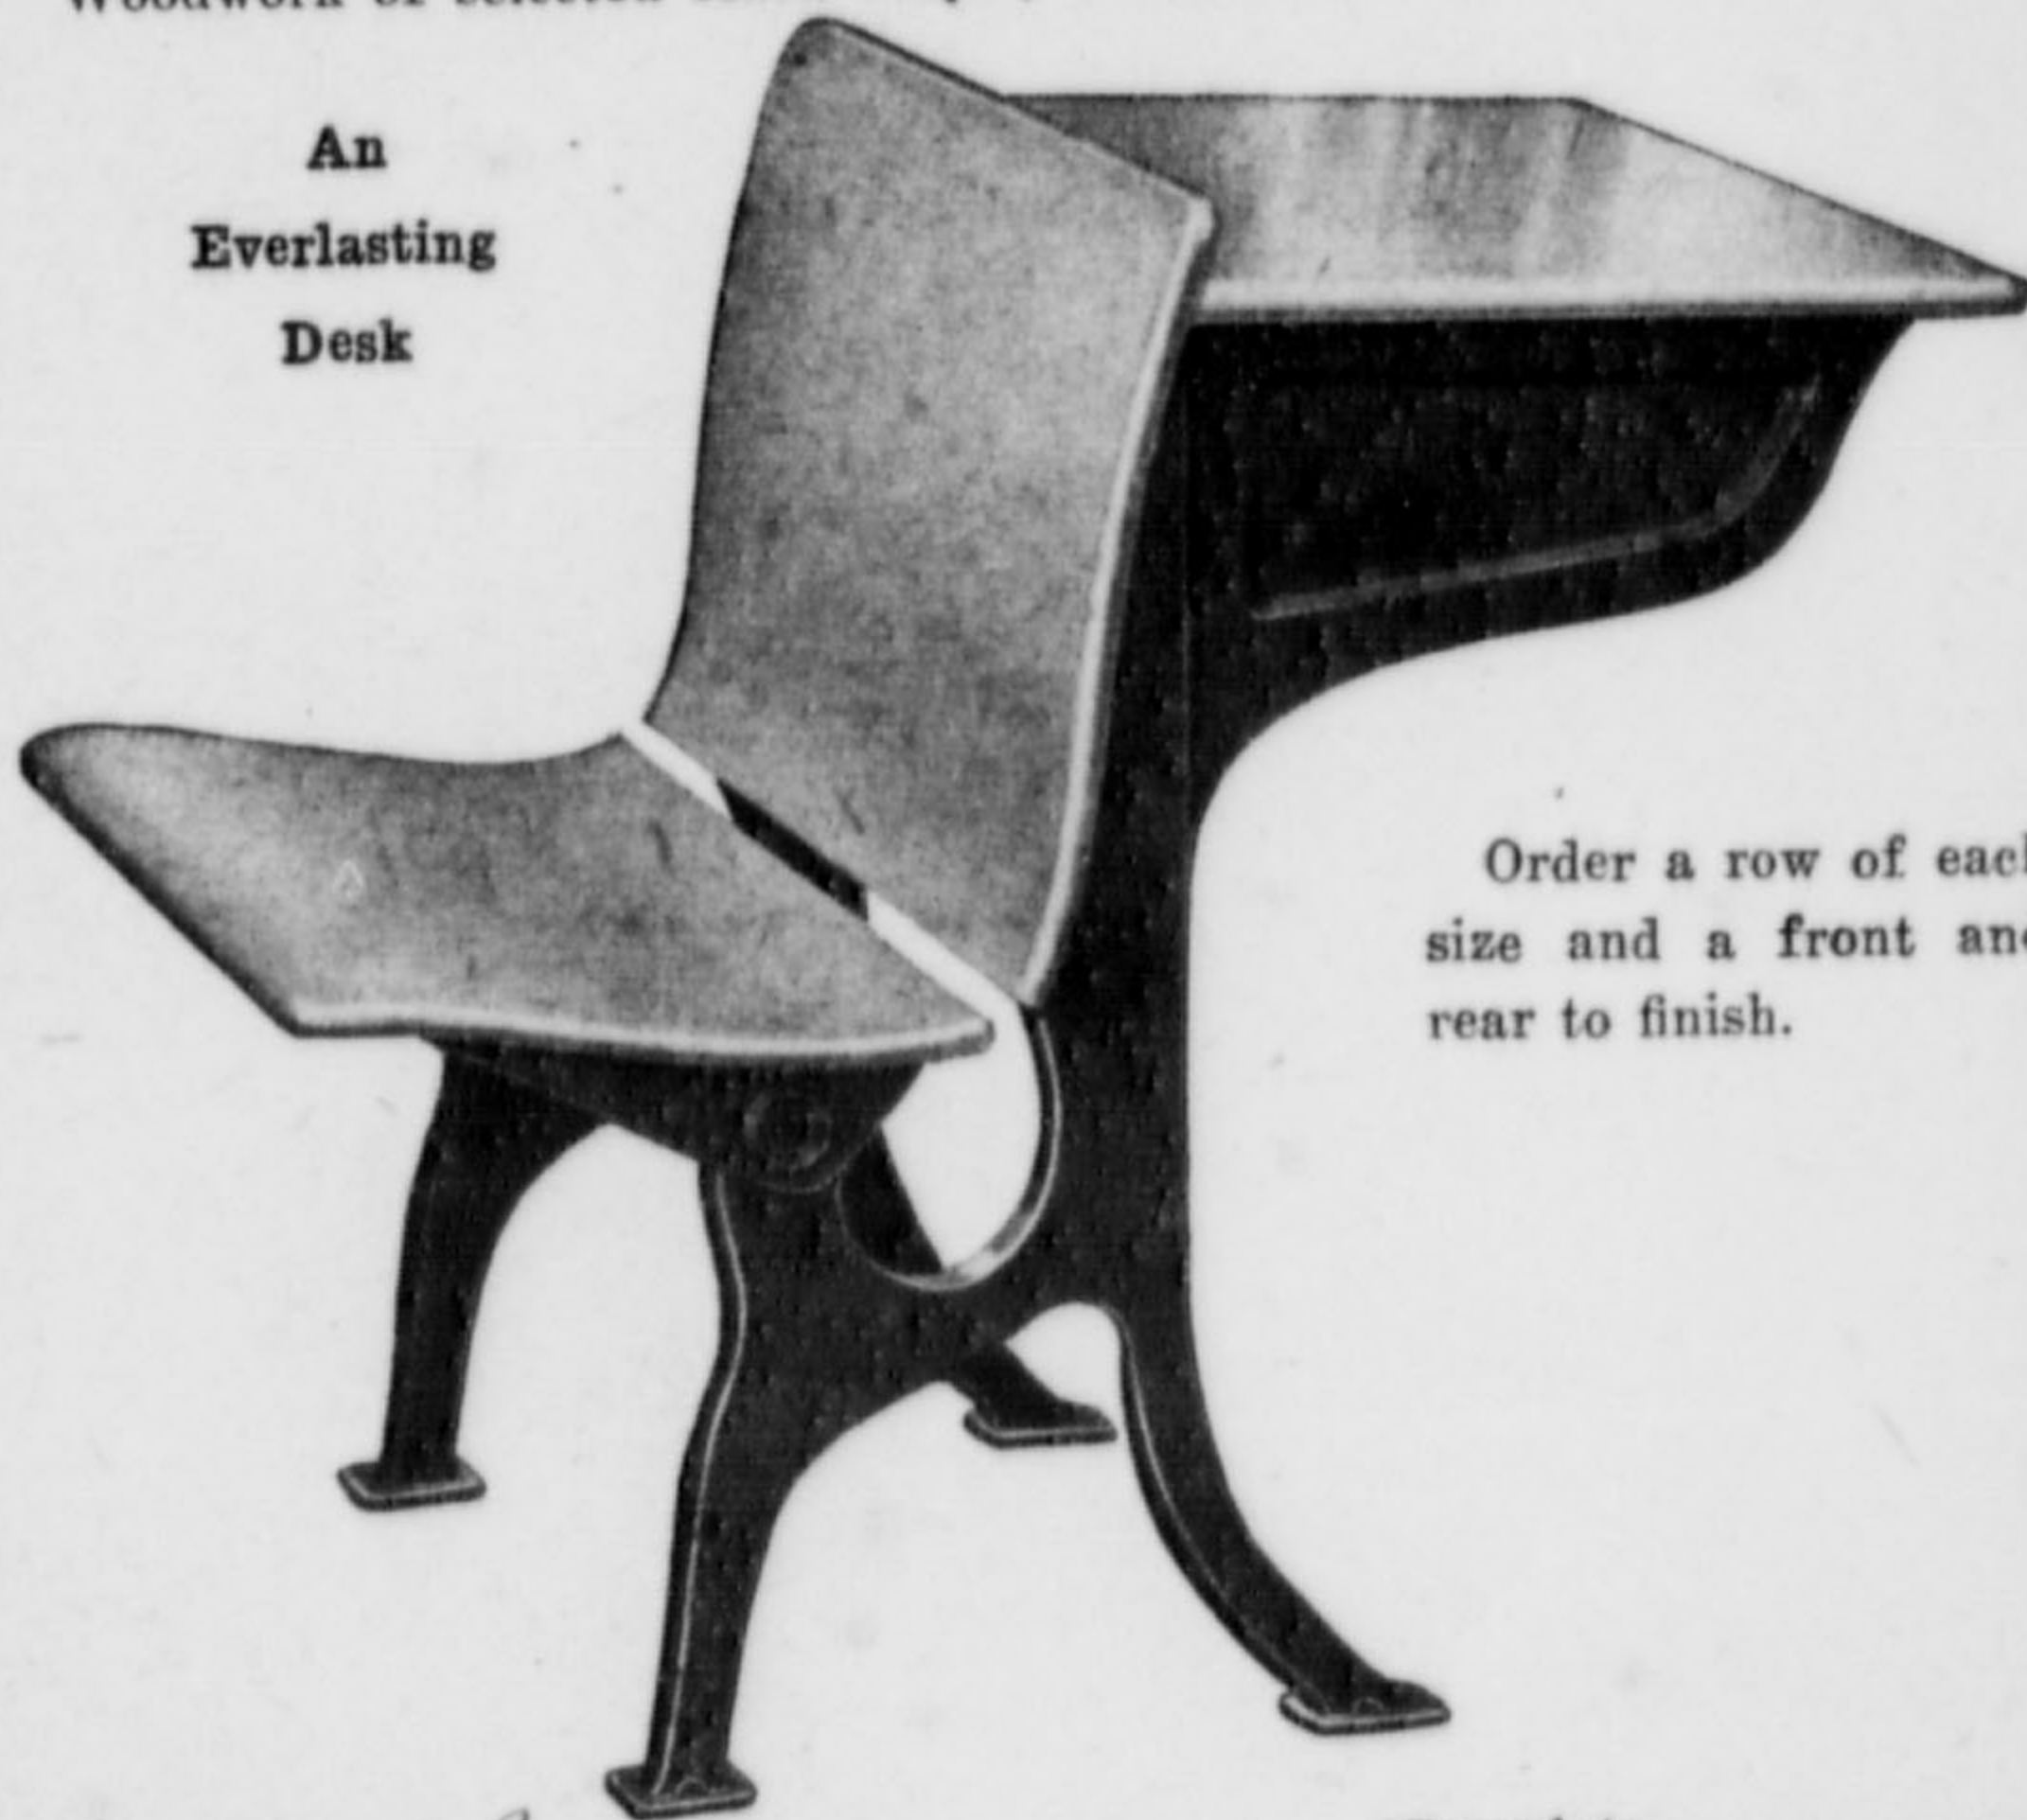

While the purchase price of steel desks is a trifle more, the difference between steel and iron service is so great that the small additional cost is amply justified. It is an investment which will produce dividends—it's insurance—it's a guarantee of permanent satisfaction.

We know that steel instead of iron is used in the construction of buildings, bridges, ships, railroad coaches and hundreds of other things where iron could not possibly serve the purpose. We know that iron is brittle and easily broken when subjected to sudden shock. We know that rolled steel cannot be broken, not even with the use of a hammer.

For any kind of structural purposes, steel, without question, is superior to iron in every point of comparison. As applied to school desks its advantages over iron are as great as when applied to bridges.

Sir:

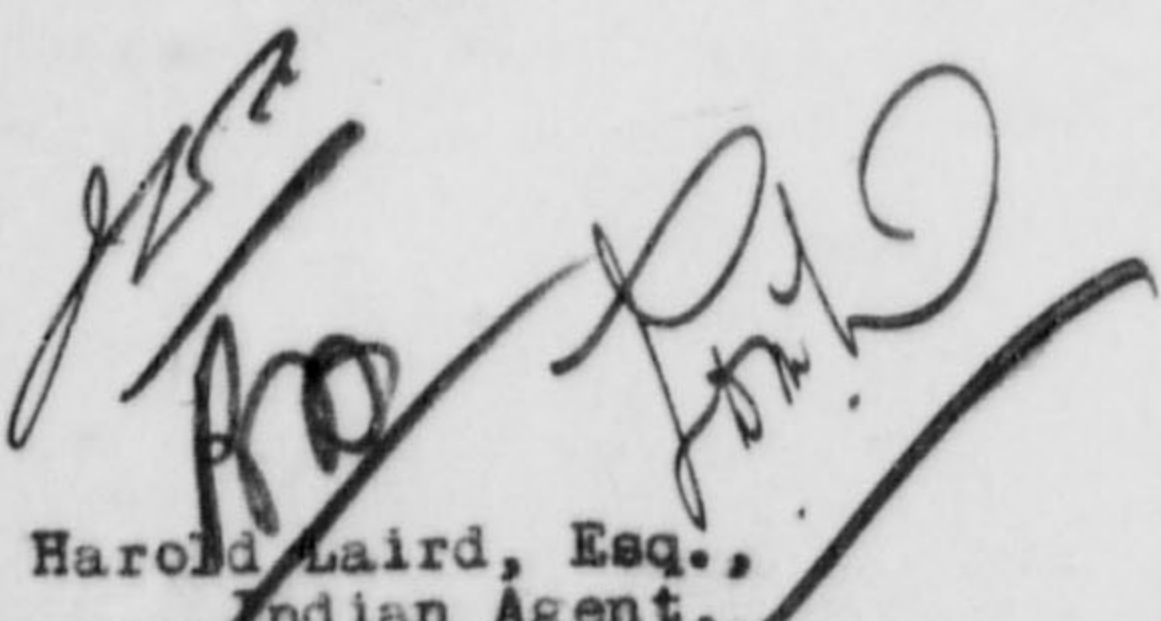

Referring further to your letter of the 11th instant, enclosing a requisition for school supplies for the use of the Fort Vermilion Indian Residential School, it is noted that the Principal requests that 12 single desks and 2 front and 2 rear seats be supplied. Before considering this request, further particulars will have to be furnished as to the need for this number of desks. Fifteen desks were supplied this school in 1915 and 12 were supplied in 1919. The grant allowed is for 30 pupils only, and, if the desks which have been supplied are in good condition, it is not understood why the extra number now asked for is required. Please state the condition of the desks at present in use, and whether you would recommend that the number now asked for be supplied. As the funds at our disposal are limited, we are not prepared to supply more desks than are absolutely required to provide seating accommodation for the number of grant earning pupils allowed.

Your early reply giving the information asked for will oblige,

Dec. 14th, 1927.

Dear Sir:

In reply to your circular, No. 87, with reference to the question of fire protection in our school, I beg to advise that the main residential building is adequately provided with easily accessible fire escapes. The school building (60 x 25ft.) in which the second story is used for the boys' dormitory, has only one outside stair easy of access. If in your opinion this be not sufficient, we shall have another stair constructed at the other end of the building.

Fire fighting apparatus; such as extinguishers, ladders, buckets etc. are kept in evidence in case of emergency. We have six Grath Fire Extinguishers. We believe it would be prudent to possess more extinguishers, but as these are expensive we must be content with a limited number in our poor northern mission. If the Department can be of assistance to us in this matter, the service shall be greatly appreciated.

Yours truly,

I beg to attach hereto copy of a letter that I received from the Principal of the Fort Vermilion Residential School, Fort Vermilion, Alta., in reply to a circular sent to him in connection with the question of fire protection at his school.

I am of the opinion that it is unnecessary to have a stair constructed at the other end of the building, as the school is a small one, but if you will advise me of the Department's decision in the matter I shall advise the Principal accordingly.

I think it might be well to send this man a couple of small Fyr-Fyter type Extinguishers, as these do not require re-loading, and will not depreciate with age.

St. Henry Residential School,
Fort Vermilion, Alberta.

July 25 1929.

Dear Sir:

We are greatly in need of a supply of bedding for the Indian children. The blankets and mattresses are so worn out that they are now useless and must be renewed. We have tried to manage without making any requisition to the Department except for school material. The financial condition at the present time will not enable us to purchase the supply needed to give the Indian children the necessary comfort. We feel confident that this request will not remain unheeded as the Department has so liberally assisted other Indian Residential schools.

Yours sincerely

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,

W. REGINA, SASK., 26th August, 1929.

Sir:-

I enclose an unsigned report on what is described as St. Henry's Indian Residential School for the month of July.

Under the impression that this was a report on the school at Delmas, Sask., I sent it to Mr. S. E. Macdonald, requesting him to sign it and explain the remarks under the heading of "Suggestions" at the foot of the report. He has just returned it stating that it was not sent from or through his office, and that the sister superior at the Delmas school is Sister St. Simon-superior and not sister Chas. Elise-superior.

It has occurred to me that it is a report on the R. C. School at Fort Vermillion, in regard to which I have not much information, and I do not know what action the Department wishes to take in supplying the equipment that appears to have been asked for.

I wish however to make the suggestion that when a further supply of form No. 217 is printed, it should be provided with space at the bottom for the signature of the Indian Agent who submits it and the date on which it is actually forwarded. As no such provision is made on the present form, it does not apparently occur to Indian Agents that it would be a proper thing to sign a document which emanates from them and contains official data and sometimes suggestions.

Mr Duncan C. Scott,

My Dear Doctor Scott:

Mr R.T. Ferrier will probably bring before you a few items which I have mentioned to him in a few letters which I have sent yesterday by the boat. This time, I wish to entertain you personally about the school of Fort Vermilion where I am presently and which I have thoroughly visited yesterday.

40 *Acc.*
Some time ago, the Principal of this institution had requested me to present before you his urgent demand for the construction of a boys' wing and for other repairs. Being aware of financial circumstances and moreover not being totally conversant with the situation here I did not acquiesce to the Reverend Principal's demand. I believe I was wrong. I therefore come today to ask you if you would allow us to build a wing to provide extra accommodation for our boys. The sleeping, dining and recreation quarters would be sensibly enlarged and the girls' recreation room would also profit by the change. The Department has limited the capacity of the school to 35 children whilst we could easily find perhaps double that number.

A hot air furnace, paint, a couple of sewing machines, two or three washing machines, etc would also be required for the present building, the hot air furnace to replace the worn out one in the class room building and dormitory.

If the Department was not in a position to help us financially this year would you consider letting me borrow from the Bank an amount set by you and payable at a date also set by you. I insist in the matter because it is urgent and serious. I will leave here on the 22nd and expect to reach Grouard on the 27th inst.

Hoping to be favored with a good answer, I remain

Yours very truly,

+ *J. E. J.*

Dear Bishop Guy:

I have Your Lordship's letter of the 16th ultimo, with reference to the urgent need for a boys' wing at the Vermilion Indian Residential School. There are no funds at the present time to satisfy this request, and, as I am very uncertain when such could be provided, I regret that the Department is not in a position to advise you.

I understand that the dormitories provide proper accommodation for a few more pupils and Mr. Ferrier tells me that he has arranged for a pupilage of 40 as from April first, last. This will relieve the situation somewhat.

I have reviewed the proposed expenditure and the appropriation to complete the St. Bruno's Indian Residential School improvements, and I believe there will be very little remaining after the accounts are paid, the present water supply system completed and the electric plant properly installed. I find, however, that, in all probability, we can supply the hot air furnace required for the classroom and dormitory building at Vermilion and, in addition, two sewing machines and two washing machines. In a few days, I will write to the Indian Agent, concerning where he should purchase the hot air furnace. Your Lordship may purchase two inexpensive washing machines and forward a certified account, in duplicate, direct to Ottawa. Two sewing machines will be ordered by the Department.

With warm personal regards,
Yours very truly,

I suppose that in the Department in spite of Mr Ferrier's disappearance it is "business as usual" in the Department. I suppose however that there is a certain cast of gloom in the office. You do not realize how often I think of the dear man for whom I had a real liking. Of course I must say that I have the same sentiments towards you and Mr Sutherland, that said to prevent any jealousy.

Now to the point. Sr Mary Stella of Fort Vermilion or rather Rev. Fr Habay has written me about the desks that were refused to the school as per your letter of July 6th, 1932. I feel more than sorry in the matter as they are in absolute need of said desks in that school where we have spent so much last year in erecting a two-storey building (annex of 50'x30' to the boy's building). Of course \$1,200.00 are on the list of amounts voted but for the painting, heating and supplying bedding to the school. Could not the desks be included in the amount? The heating system costs around \$400.00, the painting about the same, the beds (24) should, I presume, cost between \$200.00 and \$250.00. You could cramp in the desks asked for. Don't you think?

If you are to take action wire order to Moyer's Edmonton with request to pay freight to Peace River and ship in time to catch the boat of Sept. 3rd.

Regarding the beds the Department has been dealing with the Parkhill Bedding Edmonton whose manager is aware of the kind already supplied and you could also wire them in the matter for 24 beds and mattresses in order that same may be shipped on the boat of Sept. 3rd.

The typewriter has also been refused for above school. I am sorry I was not in Ottawa when such request was turned down. On account of the very special work done by the sister with her school publication I had prevailed upon Mr Ferrier to practically assure a typewriter and he had told me to write the sister in order to know the particular type she wanted. Can you reconsider your letter of July 6th?

Finally, I would ask you to add games and the books needed for supplementary reading. You

would do us a favor by having same mailed in time to reach Vermilion by the boat leaving Peace River on Sept 3rd.

I am writing to you but I suppose Mr Sutherland is acting Superintendent. So, simply pass him my letter and tell him that the good words I have for you apply to him as well-he knows that-and the requests also.

Best regards to the office staff.
I will be around by the beginning of October with receipts for reimbursements for Grouard and other schools and of course with my list of requests for the coming year.

Sir:

Mr. Inspector Christianson has forwarded a copy of your letter to him of the 12th instant, regarding the burning of the convent and hospital at Fort Vermilion.

No particulars as to the actual loss incurred have yet been received, other than the information in your letter referred to. It is noted that the boys' part of the school was saved and that there was no loss of life.

I shall be pleased to have a full report from you, as early as possible, stating the loss incurred as it affects the school. You should also state what arrangements were made by the Reverend Sisters in charge for the carrying on of the school work. Please advise the Department if it was necessary to send any of the pupils to their homes or if they have accommodation for the girls. If any pupils were sent home, their names and register numbers should be given.

It is noted that you have forwarded supplies of blankets, clothing, drugs, etc. Please report what further supplies are required and state the best arrangements that could be made to have them forwarded to the school. It is understood that the boats have now ceased running and it might be difficult to have freight forwarded.

In reporting on the fire, you should state how same occurred and give as full information as you can regarding the matter. The Department understands that mail facilities are uncertain at this time of the year, but we will await your report, giving the information requested at as early a date as it can be supplied.

Your obedient servant,

T. R. L. MacInnes,

Sir:

I am attaching hereto copy of a letter which I have just received from Mr. L'Heureux, the Agent at Driftpile, being a report on the recent fire at Fort Vermillion.

The requisition for medicine which he refers to was forwarded to the National Drug Company with instructions to fill immediately and ship by express to Peace River Landing on yesterday's train. I also instructed the Agent to see that the shipment was placed on the boat which leaves Peace River Landing tomorrow for Fort Vermillion, it being the last boat of theseason.

Office of Indian Agent,

M. Christianson, Esq.,
Inspector of Indian Agencies,
CALGARY, Alberta.

Dear Sir:

In reply to your letter of the 8th inst., No. 405-12:

The Convent and the Hospital were burnt at 6 o'clock A. M. on October 7th. The School was saved (boy's part). Dr. Hammon and the nursing Sister managed to save their patients while the Sisters and the Father saved the children, some of them being still in bed. Everything was lost by the fire: furniture, clothes, blankets, stoves, &c.

As soon as I received the wire, Friday morning, I got two trucks and mustered up all the medical supplies, blankets, clothing, &c., I could get from the Agency and the St. Bruno's and St. Bernard's Missions. Three small cases of the most needed medicines were sent, one from Dr. McIntyre, and two from the Mission. No list was kept as we had to rush to pack and get these supplies to Peace River the same night as the boat was leaving the next morning. I sent 25 blankets, 1 bale of underwear, drawers and shirts, 25 white shirts, 1 box hospital shoes, 1 bale kit bags and 30 brushes. The Missions have also sent blankets, clothing, 1 stove and various other supplies. All was loaded on time to leave Peace River on the 8th of October.

With reference to my wire of the 11th instant, the medicine supplies referred to by Dr. Hammon in his message to me were those sent by us since the fire, as the supplies received from Ottawa recently have been burnt.

I am today sending a Drug Requisition for the St. Theresa's Hospital, to the National Drug Company, Edmonton, as per your instructions. I am enclosing a copy of same for your information.

Your obedient servant,

Sir:

I beg to inform you that I have received a wire from Mr. L'Heureux yesterday morning, stating that he was in receipt of a wire from Father Habey of Fort Vermillion informing him that the Convent and Hospital had been burned down, and asking that blankets and medical supplies be sent on the boat that was waiting at Peace River Landing. Mr. L'Heureux stated in his telegram that he was sending blankets from his stock there.

As medical supplies were asked for, I instructed Mr. L'Heureux to have Dr. McIntyre make out a list of medical supplies that he thought would be absolutely necessary for the present time, the Agent to fill the order from his own stock kept at the Agency, and to purchase any additional medicine that was required and get it on the boat last night. This was the only means of providing the medicine as the Agent could motor to Peace River Landing, and get them on the boat there.

In the Department's telegram received this morning I note that this hospital has only been supplied with medicine by the Department. I presume that the only means of getting the blankets was to wire the Agency as it would be impossible to purchase them at Fort Vermillion. This, of course, can be adjusted later on. I do not know the number of blankets shipped.

I shall ascertain immediately what method of winter transportation there is from Peace River to Fort Vermillion. There might possibly be boats still making the trip this fall

Dear Sir:

We wish to thank you for the prompt assistance you gave us in the recent disaster which has befallen us. The cases of medicine, clothing, blankets and other useful articles arrived here on October 19th in good condition and were put to immediate use.

The residence for the Sisters and girls with hospital adjoining were ruined entirely. The building containing Boys' Hall, Refectory, dormitory and two classrooms is serving now for all. The daily routine has been resumed and we have already begun work on a new hospital which will serve as a temporary residence for the Sisters and girls until next spring when a suitable building may be built for them.

As all the Fire Extinguishers for the Hospital are lost and we have none to spare from the Boys' Residence will you kindly

We have noticed in the papers that recently the Hospital and Mission at Fort Vermilion, were destroyed by fire.

In the event of their being rebuilt, may we have the privilege of quoting on LISTER Lighting Plants?

We have supplied quite a few of your Missions with Lighting Plants, and we hope that when the specifications are issued, we may have the privilege of submitting prices.

Yours very truly,

With reference to your letter NO. 131-13-5 dated Oct. 20th, 1932, in connection with the burning of the Convent and Hospital at Fort Vermilion,

I beg to forward Rev. Father Habay's report which was received on the 14th. of December, but the Rev. Principal has not given any particulars as to the total loss, and he has not stated either what supplies are still needed. As the mail service is very slow, especially in Winter time I do not expect to be able to get a satisfactory report before next Spring.

Fire Report.

Date of Fire, October 7th, 1932.

School, St. Henry Indian Residential.

Location, Fort Vermilion, Alberta.

Agency, Lesser Slave.

Reserve, Peace River.

The true origin of the fire will never be known. The flames were seen first in the kitchen. The only fire in that section of the house at the time was in the kitchen range. Whether the big fire actually originated there and then spread elsewhere, we do not know. The flames had made such headway when discovered, it was impossible to ascertain just how and where the fire had begun.

All patients in the hospital and some small children in the girls' dormitory were removed at once.

The opening of doors caused the flames to spread and mount upward at terrific speed. Fire extinguishers were used, but to no avail. In a few minutes the entire building containing the apartments for the Sisters, the Indian girls, the Chapel, the bakery, and the kitchen, together with the St. Theresa Hospital which adjoined it were a mass of flames and all hope of saving anything had to be abandoned.

The building in which are the two classrooms, the Boys' Hall, refectory and dormitory was in great danger. The side exposed to the fire was badly scorched and the roof began to burn. With extreme effort and the assistance of a bucket brigade, axes and several hand pumps, the building was saved.

It is in this building that the Sisters and all the pupils are living at present. The Boys' section is 30 feet by 50 feet. The Girls' section is 25 feet by 50 feet. The second floor of this building is used for the dormitory.

All pupils enrolled were not present when the fire occurred, but of those who were, not one was sent home. Three pupils have returned to school since the fire and two new ones were admitted.

The pupils are all enjoying good health. Thomas Adekadeb, Beaver Indian of ten years died on December 7th. He had been ill since last spring.

The classwork is carried on as usual. The pupils seem happy and contented and manifest lively interest in their work.

A temporary building of 34 by 46 feet is underway. It will be occupied by the Indian girls as soon as possible.

Mr H. McGill, M.D.,

Department of Indian Affairs,
OTTAWA, Ont.

My Dear Doctor McGill:-

Following our conversation of last Saturday during which I asked for a few items for our Fort Vermilion Indian Residential School destroyed by fire on October 6th, 1932, I wish to point out the following:

I had already advised Mr W. Anderson of the Canada Products of Edmonton to have a carload of cement (500 sacks at least) ready to leave Edmonton in order to take the Fort Vermilion boat leaving Peace River on May 20th. Could you kindly-if in order-confirm said order by wire to Mr Anderson? You will note that Mr Anderson is on the patronage list.

160 Range
400 B. 0. 0. 0.

I have also asked for a range-8' long with two fires and two ovens-and a bake oven. Regarding the latter The Department used to buy from Daoust Limited St Boniface, Man. The architect of the Department as well as the officers of the School Branch are conversant with the type of Bake oven sold by the above firm. If the latter was chosen I would mention a No. 3 Bake oven. As to the range I have not communicated with any firm but I could do so and submit prices. I may say the same of the hand washing machines that I mentioned to you.

I leave the whole matter to your kind consideration with the hope that you will find your way to help us in our present distress.

Yours very truly,

Dear Sir,

R

On the request of Rt. Reverend Bishop Guy of Grouard, Alberta, we beg to enclose herewith three new Catalogue sheets covering our new models of Economy Ovens as supplied to your Department for the past ten years. You will find also, new price list covering same models.

We are given to understand that the Reverend has written to the Deputy Minister in request for a No. 3 to be used in Fort Vermillion. We therefore beg to confirm a quotation we have given him -- \$325.00 covering a No. 3, F. O. B. St. Boniface, including Government tax, crated ready to ship. We have furthermore recommended that he would use solid doors, being given the distance the Oven will be from the manufacturer in the case of replacement of the glasses.

Generally, these glasses crack slightly, although it has no effect on the baking for the glass used is a wired cast and held fast together. Yet an unexpected instant may happen that one of the glasses would be broken right through, and if we consider the lengthy travelling there is to reach Fort Vermillion, we do not recommend him to use these doors.

On the advise of several users of Economy Ovens, we have started investigations covering the performance of these Ovens, and we are glad to report that 95% have been found very satisfactory and that the majority of these reports come from Indian Residential Schools. On the strength of this, we are glad to offer you for your Schools, our Oven as the most economical and most satisfactory that can be purchased for such Institutions.

Hoping to be gratified with your very valuable business and patronage, we are

Right Rev. Sir:

I have to inform Your Lordship that Messrs. Jean J. Sir:-

I beg to acknowledge receipt of your letter number 131-13-5, of the 2nd., inst., in connection with the teachers desk and classroom desks for the School at Vermilion, and I note the Department have no funds for the present fiscal year.

I would ask the Department if possible, to reconsider this matter and supply the teachers desk. I am sure this would give the teacher there a little encouragement. They can get along without the desks. They were using benches while I was there and they can still use them. The teacher had a little rickety old table that they had manufactured themselves, and I am sure they would appreciate getting the desk.

This does not cost very much, and if possible I would like to see it supplied.

Dear Doctor McGill:

I have the honour to report on an inspection of St. Henry's Roman Catholic Boarding School at Fort Vermilion. As the Department are aware, the school and hospital were burned down last fall, but a new school is under construction at the present time, and I am attaching hereto a snap of the building.

I found there were 66 children on the register, but only 56 were present at that time. The grades taught there are from I to V. Besides the above number there are also quite a few Halfbreeds attending the school.

After the fire last fall some of the outbuildings were converted into living quarters and the school authorities certainly did well to bring the children through the winter as they did. The new school is being partly used at the present time, but they expect to have it completed before fall.

My visit to this institution was on Sunday afternoon and I could not examine the classroom work, but I am sure from the children's work that I saw that good work is being done. The two

classrooms were well maintained and I am quite confident that the teachers in charge are very capable. The staff consists of the Rev. Principal, Jos. Habay; Asst. Principal, Father Deman, two lay brother and 10 Sisters of Providence.

BUILDINGS:

The new school building is a three story building, 34 X 46. The top is 30 feet from the ground. Besides this they have an old building 100 X 30 that is used as a dormitory and classroom. The laundry is a separate building: This is a terrible place, - an old dilapidated building and in very poor state of repair. The sister informed me that it was a very difficult matter to work there in the winter and I quite see that this is the case.

*This is a church

J.D.*

The grounds surrounding the buildings are excellent as it is situated right on the banks of the Peace River, which is one mile across at that point. This mission was started first in 1863, but has been permanently maintained since 1878. The first school was build in 1899: a frame building was erected in 1908 and was burned to the ground in 1914; rebuilt in 1917 and burned to the ground in 1932. The

The school owns 280 acres of land. At present they have under crop 15 acres of wheat, 35 acres of oats and 25 acres of barley as well as 20 acres of rye and about 3 acres in garden. They own 32 cattle, 22 horses, 25 pigs and 60 chickens. At the time I was there they were milking 8 cows, therefore the children received all the milk they required. The children all

Sir,-

I am in receipt of a communication received from the Rev. Sister Superior of St. Henry Indian Residential School of Fort Vermilion, asking whether the Indian Department would be kind enough to supply them with 100 pillows which are required for the Hospital, and boys' and girls' dormitories as they have lost all their bedding furniture and clothes through the fire they had last Fall. They have managed to re-build, but much smaller and their finances have permitted them to provide only the very strictest necessities. They would appreciate very much if the Department could help them on that matter.

Memorandum:

Dr. McGILL.

RE: Grant to reimburse Church Authorities for erection of building for girls, Fort Vermilion Indian Residential School.

The girls' building was destroyed by fire on October 7, 1932. The church authorities, under the direction of His Lordship Bishop Guy, erected a new building for the girls during the past summer. This is a three-story frame building, 34' x 46'. The only contribution made by the Department was payment for 500 sacks of cement used in the foundation of the building. Bishop Guy authorized this undertaking. We have received no particulars regarding the cost of materials and labour in carrying out the work. During his recent visit, Bishop Guy made a request to be reimbursed to the extent of \$5,000.00 towards the expenditure incurred by the church authorities.

Materials and equipment for the new building have been supplied as follows:-

500 sacks of cement	-	-	-	\$475.00
Bake oven	-	-	-	325.00
Sewing machines	-	-	-	119.22
Fire extinguishers and freight on same	-	-	-	193.60
Blankets and sheeting	-	-	-	285.00
Beds and mattresses	-	-	-	602.00
Hotel range	-	-	-	366.33
Teacher's desk	-	-	-	28.00
Total	-	-	-	\$2,394.15

The mission at Fort Vermilion was started in 1863. The first school was built in 1899; a frame building was erected in 1908 and burned in 1914, rebuilt by the church in 1917 and burned on October 7, 1932. This is the building that has been erected, towards the cost of which Bishop Guy requests reimbursement to the amount stated above. His Lordship undertook the erection of the new girls' building without reference to the Department, and no promise was made him that a grant would be provided towards the cost. Grant is provided for 65 pupils at \$180 per capita, less 15% during the present fiscal year. There is an enrolment of 33 boys and 33 girls.

Gentlemen:

I have your letter of the 17th instant, with reference to a balance due your firm on the cost of a John Bull range, supplied for use at the St. Henry's Indian Residential School, Fort Vermilion, Alberta.

The Department understands that the order for this equipment was placed with you by His Lordship Bishop Guy, and, in August, last, he forwarded an account for payment to the amount of \$366.33. This included the supplying of one 222 John Bull hotel range - \$352.33, and one straight water front for end firebox - 14.00. A cheque in payment was sent you.

The Department agreed to assist Bishop Guy in the furnishing of the school and paid a number of accounts. However, we can accept no responsibility for payment of the balance which you claim due for supplying the wood firebox and transportation charges, to the amount of \$79.40. Payment of this amount is a matter which rests with Bishop Guy or the authorities of la Corporation Episcopale C. R. de Grouard.

Sir:

I beg to inform you that a few days ago I received a letter from the Ref. Jos. Habay, O.M.I., Principal of St. Henry Mission at Fort Vermilion and he has requested that he be furnished with a copy of the school regulations and also a flag to replace the one that was burned in the fire. I would recommend that these articles be sent.

I am also sending you a snapshot which I received from him, and you will see that the buildings were all surrounded by water in the recent flood. The square building in the centre, between the church and the long building, is the school that was being erected when I was there last summer. The long building is where the children were being housed while the main school was being built.

Sir:

I wish to again bring to your attention previous requests made by me for reimbursement in connection with expenditures already made by the Diocese of Grouard for certain Indian residential schools. I refer in this regard to Vermilion. I have already expended \$5,000 in the erection of a new building at this point. Of this amount, \$1,500 has previously been paid to me. I trust that the Department will not lose sight of the remaining \$3,500 which, I consider, is due me.

Referred to Mr. [unclear] [unclear]

Loqued

The Committee of the Privy Council have had before them a report, dated 8th August, 1935, from the Superintendent General of Indian Affairs, stating that, on October 7th, 1932, the girls' building at the Vermilion Indian Residential School was totally destroyed by fire;

That His Lordship the Bishop of Grouard, during the summer of 1933, undertook the erection of a new building, and he has requested that he be reimbursed to the amount of \$10,000 towards the cost;

That an amount of \$10,000 has been included in the Main Estimates for Indian Education for the current fiscal year, 1935-36, as a grant towards the cost of construction of the building.

The Minister, therefore, recommends that authority be granted for the expenditure of the said sum of \$10,000 for the purpose above mentioned.

The Committee concur in the foregoing recommendation and submit the same for approval.

E. J. [unclear]
Clerk of the Privy Council.

The Honourable

The Superintendent General of Indian Affairs.

Sir,

W. H. H. H.

During my visit of The St Henry's Indian Residential School at Fort Vermilion, on the 11th instant, I have found that their No. 3 Classroom is not furnished with proper pupils' seats. They use some very crude seats made locally; out of proportion as to height of seat and table and without provision for a proper back-rest. I would judge that such seats impose on the children a severe physical strain.

Will you kindly consider remedying to this defect by supplying the reverend Principal with the quantity of pupils desks and seats as listed in the enclosed requisition.

Yours faithfully,

Dear Phil:-

May I remind you of requests for beds intended for our different schools. As the school year is at hand and in the case of Fort Vermilion navigation will soon come to an end I take the liberty of writing again in the matter. Kindly attend to the matter. I would suggest you take Parkhill Bedding Co. of Edmonton (the Company is on the privileged list at least in Winnipeg where are the Headquarters) in order to have uniformity and secure repairs when necessary. Almost all our beds are from that firm.

The Fort Vermilion School needs 6 Fire Extinguishers of 2½ gallons Each (Loose Stopple Type). We have built an addition 34'x 30', three stories high, and as there were not enough fire extinguishers beforehand I would appreciate your sending the above.

Here in Grouard, we have built a school 40'x50' two stories high (four class rooms) and full concrete basement. We have built a three story addition to the girls house, 24'x28' with bakery and dairy in the basement and a 100'x36' cow stable. We need fire extinguishers for all these additions as also for the laundry which is now being installed (20'x40') in the basement of the boys' house. Could you kindly attend to the matter and oblige me thereby.

Kindly send us here time sheets (quite a number as I also need some for Joussard school) and a good number to Wabasca R.C. School (DESMARAIS P.O.).

The June quarter grants did not show as yet and whilst you are at it could you think of the advances on the September one.

Excuse my begging ways and present best regards to Mrs Phelan and family.

Yours very truly,

John J. Grouard
Bishop of Grouard.

Ottawa, November 25, 1936.

Gentlemen,-

When your representative, Mr. Schnarr, visited the Department, I understood him to quote the 2 qt. pressure type Pyrene extinguisher complete at \$27.79, F. O. B., Toronto; this price to include sales tax. Eight (8) of these extinguishers were ordered for the Grouard Indian Residential School (your invoice No. E916-10) and five (5) of the same type for the Vermilion Indian Residential School (your invoice No. E914-9). In each case, you charged \$35.63, plus increase in sales tax 1.89%.

In view of the information I understood Mr. Schnarr gave me regarding the price of this type of fire extinguisher, I would appreciate your advising why there was a charge of \$35.63, plus increase in sales tax, for each of them.

Yours truly,

J. D. Sutherland.

CERTIFIED TO BE A TRUE COPY OF A MINUTE OF A MEETING OF THE
COMMITTEE OF THE PRIVY COUNCIL, APPROVED BY THE DEPUTY OF
HIS EXCELLENCY THE GOVERNOR GENERAL ON THE 31st March, 1937.

file
The Committee of the Privy Council have had
before them a report, dated 22nd March, 1937, from the
Minister of Mines and Resources, stating that the repairs,
equipment and labour enumerated hereunder have been
authorized at each of the Grouard (St. Bernard's); Jousard
(St. Bruno's); Sturgeon Lake and Vermilion Roman Catholic
Indian Residential Schools, located in the Lesser Slave
Lake Agency, northern Alberta:

Grouard (St. Bernard's).....	\$2,283.49
Jousard (St. Bruno's).....	1,434.97
Sturgeon Lake.....	211.27
Vermilion.....	417.64
	<u>\$4,347.37</u>

The Minister further states that as these
schools are in an isolated locality, it has been found that
the most economical method of arranging for the purchase of
equipment and in carrying out repairs is to place the work
in charge of the Oblate Order, under whose auspices these
schools are conducted;

That all purchases of equipment and the labour
in connection with repairs were approved by the Department
and carried out under the direct supervision of His
Lordship Right Reverend Joseph Guy, O.M.I., Bishop of
Grouard; and

That funds to cover the cost of the above
mentioned equipment and labour are available in the
Appropriation for Indian Education for the current fiscal
year, 1936-37.

The Minister recommends that authority be
granted for the expenditure of the said sum of \$4,347.37
in payment of the cost of supplying the equipment and in
carrying out the labour at the above mentioned schools.

The Committee concur in the foregoing recommend-
ation and submit the same for approval.

E. J. Lemaire.

Clerk of the Privy Council.

The Honourable
the Minister of Mines & Resources.

Mr. Ph. Phelan,
Department of Indian Affairs,
Ottawa, Ont.

Dear Mr. Phelan,

Please find enclosed a statement covering the work and some material for the installation of electricity at Fort Vermillion. The plant is in operation since quite a while now and everybody is enjoying the improvement.

I take the liberty of enclosing the bill of Bruce Robinson Electric Ltd for the Engine and the batteries requesting the Department to pay directly this bill. The obligations are so heavy at this time of the year that could hardly advance the money to cover. If there is no possibility to meet my request, well send me this bill back. I hope it will not be so.

Allow me to inquire about the forwarding of the beds and furniture for the boys new school. I have not heard since the beginning of December. I hope this will come soon.

Have you not received specifications for the Laundry at Grouard?.... It was understood that His Excellency Mgr Joseph Guy was to take up the question with the Department. The Sisters are inquiring daily if they can expect to have soon a suitable equipment for Laundry.

Let me profit by this opportunity to thank you and the Department for the interest you pay to our questions. Renewing the expression of my best wishes for the new year,

I remain,

Dear Mr. Phelan,

Yours very truly,

Dear Sir:

I am in receipt of your letter of the 15th instant enclosing requisition from the principal of the Vermilion Indian Residential School requesting new desks.

A certain amount was provided in the current year's appropriation for repairs, improvements, and new equipment for this school. As a result of correspondence with Reverend S. Lagoie, O.M.I., we have decided in what manner the funds should be expended.

Under these circumstances, it will not be possible to supply new desks for the Vermilion School this year.

Dear Sir,

The enclosed requisition for pupils' seats, desks and other materials has been handed to me by the Principal when visiting the Fort Vermilion Indian Residential School some two days ago.

I would recommend that these desks and seats be supplied. Following the fire which destroyed that school in 1934, the school authorities refurnished the classroom with desks built by local labor with native lumber; they are heavy, cumbersome and afford no rest to the pupils.

As this requisition has now been repeated three times I would appreciate if a special effort was made to complete the refurnishing of this classroom in a near future.

Yours faithfully,

I am in receipt of your letter of the 14th instant with reference to repairs at the Vermilion Indian Residential School. In my letter of June 14 you were authorized to purchase locally cement, lumber, corrugated iron, dip starter, also nails and material for the roof. In other words you may purchase locally whatever supplies you need for the repairs at this school, keeping in mind that the total expenditure cannot exceed \$1000.00.

Dear Sir,

Re: Chicken-House at Fort Vermilion
Indian Resid. School.

I had just forwarded my letter of yesterday when I received from the carpenter of Fort Vermilion the precise figures and specifications for the chicken-house. Please consider this as correct requisitions.

The Principal of the School called on me and after discussion we have found that, due to the time the material will be at hand, it will be possible to build in logs ~~and~~ ⁱⁿ expected. It is possible to get rough lumber at about the same price logs would cost. As the money allotted for this building, ~~we will~~ ^{is not sufficient} provide ourselves the rough lumber requested.

Let me point out that there is two boats going down the river twice a month. The next trip will be on the 25 th and the 28th of June.

I may seem rather bothersome with all these details, but please remember that the money allotted will not cover all the expenses. If we could save on transportation and by buying locally, it would be so much.

Yours truly,

Reverend Sir:

I desire to refer to that portion of your letter of June 6 which covers the repairs required at the Vermilion Indian Residential School. I presume that you have already ordered the 70 sacks of cement and you may purchase the lumber required locally. In this case too when forwarding the account you should attach an explanation setting forth that the lumber was obtained at a very reasonable cost.

In order not to delay the work for the current year you may also purchase the 8½ squares of corrugated iron, 80 feet dip starter, 40 feet roof top and the nails.

The total amount expended for material and labour at this school must not exceed \$1000.00.

EX'D.

R

Dear Mr. Phelan,

I am enclosing under same cover return
of work done at Fort Vermilion during the last season.

*Alvord
supplied
[initials]*

I am reporting only on the Chicken House
~~as the~~ as the appropriation has been exhausted and surpassed
by this construction. I have not charged the cement used,
neither the transportation of the material not to make too
high a bill. After keen consideration, we have decided to
build a larger chicken-house than first contemplated. The house
measures 60' x 20'. It is impossible to buy eggs at Fort Ver-
milion. Our intention was to have room enough to keep a herd of
hens ~~xxx~~ sufficient to supply the School with eggs.

Most of the lumber has been bought locally
as authorized by your letter of the 14 th of June and at the
price prevailing at Fort Vermilion where lumber is rather dear.
The roofing consisting in corrugated iron had to be bought in
Edmonton. The transportation from Peace River to Fort Vermilion
has not been charged. In fact, all transportation expenses have
been absorbed by us.

Hoping that everything will be found accor-
ding to the regulations of the Department, I remain,

Dear Sir,

Yours very truly,

Memorandum:

Mr. WardleRe: Water Supply for Ft. Vermilion
Indian Residential School.

As instructed in your memorandum of January 20th last, arrangements were made for an inspection of the water supply at the above School, and report received is attached in duplicate.

Encls.

The present methods of obtaining water at this School are apparently most primitive. Also, there is no interior plumbing in the building and toilets are dry and outside. Possibility of improvement in the future, in the way of interior sanitary plumbing, has therefore to be kept in mind when considering action in connection with the water supply.

From his investigations our Engineer's opinion is that water must be obtained either from wells or from the Peace River. He favours, as the most suitable and economical solution, endeavouring to get water from wells in close proximity to the buildings.

We therefore recommend the work estimated at \$1,650.00 by our Engineer, and detailed on page 3 of his report. This covers the digging of a well, construction near well of a pumphouse to house a 3,000 gallon tank and pump, and the laying of a capacity pipe line from pumphouse to two 600 gallon tanks now in basement of convent as well as to a new 600 gallon tank to be installed in the basement of the boys' dormitory.

The water will then be distributed through the buildings by hand as has been done in the past, or if the Indian Affairs Department wish to start on improved interior plumbing two shallow well electric pumps at \$125.00 each might be purchased for interior distribution of the water. This would increase the total estimate to \$1,900.00 as given on page 3 of our Engineer's report. The power available is a 9 H.P. engine with a Lister, 110 volt, D.C. generator.

In the above estimate, expenditures for labour are based on prevailing rates in the district as referred to by our Engineer in the second last paragraph of his report.

Respectfully submitted,

J. M. Wardle, Esq.,
Director,

Banff, Alberta,
February 17th, 1939.

REPORT on Water Supply Situation at
Fort Vermilion Mission, Alta.

February 9th, 1939.

The mission buildings are situated on the right bank of the Peace River and on a flat bench about six or seven feet above the usual high-water mark. During the spring of 1934 an ice-jam in the river caused the flow to back up and flood this bench to a depth of from one to two feet of water.

Behind the mission buildings a range of low hills parallels the river bank with the base of the hills being about 1500 feet back from the river bank. Along the base of the hills runs an old backwater channel which would be about three feet lower than the ground upon which the mission buildings are sited. This depression is now thickly wooded with poplar and spruce trees and is wet during the spring and early summer. This depression acts as a collecting basin for the spring run-off from the hills and also for water coming from weak springs and seepages along the base of the hill.

The mission buildings have no plumbing or baths and the toilets are all dry and outside. The water, which to a person used to modern city water supply facilities is at present used most sparingly, is obtained from two wells and collected rainwater, while the drinking water is obtained by melting ice obtained from the Peace River. One well is situated near the barn and supplies the stock. This well is 23 feet deep with 5 x 5 foot bottom and has about 4 feet of water standing in it and a fairly strong flow. The other well is under the kitchen of the convent and is 23 feet deep, 5 x 5 foot bottom, and has about 3'-6" of water in it, but not a strong flow. This well water is fairly hard for washing and laundry purposes and the Sisters prefer to use rainwater or water hauled from the river for these purposes.

I was informed by the mission authorities that seepages of water occur along the river bank in the vicinity of the mission. These did not show at the time of my inspection, February 9th. This fact, combined with that of the present wells,

ARCHIVES PUBLIQUES

leads me to believe that sufficient water for the mission could be found in a well or wells, if proper water storage facilities are provided. At present there are two 600-gallon tanks in the basement of the convent used for storing rainwater collected from the roof.

The mission principal, Rev. Father Quemeneur, was hopeful that some means could be found to pipe water to the mission from the springs and seepages along the base of the hills behind the mission. I was taken to the site of the strongest spring, a distance of over 2000 feet from the convent building, and found it to be absolutely dry with no flow on the 9th February, 1939. There was an area of a few square yards of ice around the site but no sign of any flow of water. In view of the absence of water on that date, I do not think it worth while to give the proposition of piping water from these springs and seepages any further consideration; which means that any additional supply of water for the mission must be obtained from wells or the Peace River - the most suitable and economical solution being that of getting it from wells in close proximity to the buildings.

In drawing up any plans for a water supply system, probable early developments and improvements in facilities should be taken into consideration. At present the water facilities are not much advanced beyond the pioneer stage - outside dry toilets, no inside plumbing whatever and no fire protection. I believe that when funds are available the Indian Affairs Branch would like to install inside plumbing with baths, toilets and septic tanks, and provide fire hydrants, and I was given to understand that it is probable a hospital will be built at this mission in the near future. With this in mind, I beg to make the following recommendations for providing an increased supply of water. These recommendations will cover only digging a well, providing increased storage facilities and taking the water from the well to the storage tanks. They will not cover the cost of distributing the water throughout the interior of the buildings.

I would suggest that first of all a well be found containing a suitable quantity of water. I suggested a site about 200 feet behind the convent where it is believed a well 23 to 25 feet deep will be sufficient. If this is made with a 6 x 6 foot bottom, a flow of from 1200 to 1500 gallons a day will probably be found. If this flow, or better, is found on this site, an electric deep well pump should be installed and a lumber tank to hold 3000 gallons of water built over the well,--both pump and tank to be housed in a warmly built pumphouse with a small heater. The water can then flow by gravity through 1-1/2" mains buried at least 7 feet underground to the present storage tanks in the basement of the convent and to a new 600-gallon tank which should be installed in the

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

basement of the boys' dormitory. The water can then be distributed from the basements throughout the buildings by automatic shallow well type electric pumps.

The purpose of the 3000-gallon storage tank is to provide a reservoir where a reserve supply of water may be built up for washdays and for fire protection purposes. The well should be sited so as to minimise the possibility of contamination from surface water and, consequently, should be well away from the barns and dry privies and away from the disposal field of any probable septic tank system.

ESTIMATE OF COST

Digging and cribbing well	\$ 120.00
Constructing 3000-gal. storage tank(lumber), including materials.	\$ 100.00
Constructing pumphouse (frame construction) including materials	\$ 450.00
450 lineal feet 1-1/2" galvanised iron pipe with fittings, delivered to Ft. Vermilion	\$ 130.00
One, deep well type electric pump, installed with 2" casing	\$ 200.00
Two, shallow well electric pumps @ 125.00	\$ 250.00
Excavating trench for pipe and backfilling	\$ 275.00
Laying pipe	\$ 25.00
One, 600-gal. galvanized iron water tank (not pressure tank)	\$ 200.00
Contingencies and Engineering expenses	\$ 150.00
	<u>\$ 1,900.00</u>

Should this project be approved, I would recommend that the work be done by the local mission authorities under the Indian Affairs Branch. The prevailing rates for labour paid by the mission are little more than half those of the Western Fair Wage Scale set by the Dept. of Labour and for our Branch to go in there and pay the higher rates of pay would make things decidedly awkward for the local authorities. Consequently, I believe that best interests of the department will be served if the Engineering Service remains in an advisory capacity only.

The work can be undertaken at any season of the year, although winter work would put the cost of labour up. Probably, the best time to do this work would be the late summer time or fall of the year.

Memorandum:

Dr. McGill.

Re: Ft. Vermilion School Water Supply.

Our Engineer, Mr. C. K. LeCapelain, visited the above school and made a thorough inspection of the water supply. He has now submitted a report, a copy of which is attached, as is also a copy of a covering memorandum from our Chief Engineer.

It will be noted that Mr. LeCapelain recommends that a new well be dug, a new pump house to house a 3000 gallon tank and pump be constructed, and a new pipe line laid to tanks in the basements of the convent and the boys' dormitory. The cost of this work is estimated at \$1,650. It is also noted that, if your Branch wish to have a water pump for distribution, two shallow well electric pumps might be purchased at \$125 each, bringing the total cost up to \$1,900.

Blue prints are attached showing the location of the various buildings, and also a number of photographs.

DIRECTORSurveys & Engineering Branch

Re: Water supply Fort Vermilion
Indian Residential School.

I desire to refer to your memorandum of March 10 in connection with the above in which you enclosed a report from your engineer Mr. LeCapelain making the following recommendation:

That a new well be dug, a new pump house to house a 3000 gallon tank and pump be constructed, and a new pipe line laid to tanks in the basements of the convent and the boys' dormitory. He estimated the cost of this work at \$1650.00.

As your engineer suggested that any work done be accomplished by the school authorities under the control of this Branch and that your engineering service remain entirely in an advisory capacity, I am arranging to forward an amount of \$1650.00 to the Principal of the Fort Vermilion Indian residential school. I am informing him that he is not to proceed with the work until he receives definite instructions from your engineer with regard to the manner in which the work is to be carried out.

If your engineer considers it necessary to purchase two shallow well electric pumps at a cost of \$125.00 each he may do so and if he certifies the accounts covering their cost and forwards them to this Branch payment will be made.

Reverend Sir:

Re: Water Supply Fort Vermilion
Indian Residential School.

The engineer sent by the Department reported in connection with the above as follows:

That a new well be dug, a new pump house to house a 3000 gallon tank and pump be constructed, and a new pipe line laid to tanks in the basements of the convent and the boys' dormitory. He estimated the cost of this work at \$1650.00.

The engineer suggested that any work done be undertaken by the school authorities under the control of one of our engineers. I am today informed by the Surveys & Engineering Branch that an engineer will visit your school at as early a date as possible and give you the necessary instructions in connection with the work.

Early next week an accountable cheque for \$1650.00 will be forwarded to you. As soon as the work is completed you should forward a voucher in triplicate to which should be attached receipts giving detailed information regarding the manner in which the money was expended. If there is any balance remaining it should be returned to the Department. This is the only manner in which we can properly handle the work from an accounting standpoint.

Re: Water supply for Indian schools at Grouard, Fort
Vermilion, Sturgeon Lake and Jousard.

We have practically no information about the
ground water occurrences near the above mentioned schools,
but judging from the geology it seems advisable to limit
the depth of drilling in some cases.

The chances of getting a water supply near the
Sturgeon Lake School are probably good. The district is
underlain by the Wapiti formation which contains several
sand horizons that carry a good water supply in the Peace
River district. I cannot tell to what depth you will
have to drill here but it should be no deeper than the top
of the black shale which underlies the Wapiti formation.

The chances are probably poor of getting a
supply of good water from the bedrock of all the other schools
and drilling should be confined to the surface deposits. The
bedrock in these places is a black or dark grey shale.

It is impossible to tell exactly where you
should drill, without having seen the ground. Usually in
searching for water in the surface deposits, gravel ridges
and stream valleys are good places to prospect.

We will be very glad to co-operate with you in
any way we can, and if you wish to consult us please do
so at any time.

If you drill please let us know what results
you get in order that we may have the information on file.

For your further information in regard to the above, I am forwarding a copy of a memorandum to Mr. Mills from the Acting Chief of the Ground Water and Boring Section of the Geological Survey in regard to the possibility of obtaining water for the above schools.

It is noted that the chances for securing water near Sturgeon Lake school are good but that in the other cases Mr. Wickenden considers it unlikely that a supply of good water can be obtained from bedrock. You will note that the Ground Water and Boring Section will be pleased to give any further advice or information that may be required.

Sir:

I beg to advise that I am this day in receipt of a letter from Rev. P. S. Lajoie, O.M.I., Administrator of the Vicariate of Grouard, Alta., stating that a watchman's clock -- which he advises was requisitioned for for St. Henry's Indian Residential School, Fort Vermilion, has not yet been received. I take that this requisition was sent to the Department, direct. Father Lajoie states that at Grouard Residential School they have a watchman's clock put out by the Davis-Paradis Watchman's Clock Corpn., New York, and I presume that is what he requires for Fort Vermilion School.

I beg to ask that you look into this matter, please, and that a watchman's clock be sent to St. Henry's School at Fort Vermilion as soon as possible as the children will soon be returning to school from their summer holidays.

(1) Excavate a trench 7 foot deep from the well to the corner of the girls' dormitory and from thence to Boys' dormitory. The 720 gallon pressure tank should be installed horizontally under the boys' dormitory. Excavate a trench 7 foot deep from the corner of the girls' dormitory to a convenient point for taking water into the kitchen.

Excavate a place for the pressure tank in the basement of the boys' dormitory. Excavate a trench from the well to the water's edge to depth shown on accompanying plan and dynamite a trench from the water's edge to a point where the water will be about 5 to 7 feet deep in winter, according to instructions for doing this kind of work that will be sent you by the C.I.L.

(2) As soon as approval of location is received from the Provincial Government dig and crib well 6' x 6' inside on the site shown on the plan and staked on the ground. Crib with 2" plank with 4"x4" or 2"x6" corner pieces. This well should be dug about 50' deep if possible below level of road or to 10' below the level of the surface of the river water in winter. The flow which will likely be encountered at a depth of from 20 to 25 feet will likely be hard surface water and should be prevented from entering the well if possible by a clay coating outside the cribbing at the point where it enters. The aim in digging this well is two-fold; (1) to endeavour to get a flow of soft water from the river and to form a reservoir for storing or clarifying water that could be pumped into it from the river.

(3) As soon as pipe arrives, lay it in the trench and cover with straw and then earth. Be sure all the branch fittings or offtakes have been placed where desired or shown on the plan before covering pipe.

(4) Build a moveable platform in the well, hung by cables or chains from the roof, on which the pump will set and connect chains and chain block.

Connect pump to pump hoses and connect hoses to pipe, intake and offtake, as near as shown on plan as possible.

(5) Connect wire from Power House line to conduit and connect conduit to wall switch in well and thence to pump.

It would be well to have a starting switch in the Power House so that well pump may be started and stopped from there.

(6) Run wires under road in $\frac{1}{2}$ " conduit.

(7) Pump will work most efficiently if kept from 5 to 10 feet above the level of the water in the well.

(8) Set pressure tank on wooden saddles made out of 6" x 12" timbers.

(9) Set and adjust air control valve in accordance with instructions enclosed.

The enclosed sketch plans will serve as a guide for the installation of this system.

Communicate with this office for any further instructions or information desired.

Reverend Sir:

The Department is in receipt of a copy of a letter dated August 16, 1939, which was forwarded to you by Mr. C. M. Walker, Supervising Engineer, in connection with the water system at the Vermilion Indian residential school.

I understand from this letter that Mr. Walker has arranged for the purchase of the materials required and no doubt they have reached you by this time.

The estimated cost of the labour was as follows:

To dig and crib well 6 x 6 to 50 ft. depth	\$ 120.00
Excavating trench for pipe and back-filling	200.00
Miscellaneous: freight and incidentals	305.26

Total \$625.26

An accountable cheque for \$500.00 was forwarded the latter part of June to Rev. J. Huguerre, O.M.I., Principal of the Vermilion residential school. If you require the balance estimated for the labour please let me know.

It is most important that the cost of the new water system should not exceed the amount estimated by Mr. Walker in his letter of August 16.

Dear Sir,

I was just starting to write you in connection with the credit allotted for the water system at Fort Vermilion Indian School when your letter reached me this morning.

According to the estimates made by the Engineers, the expense there will amount to ~~\$1,650.00~~ \$1,650.00. Having received but \$500.00, the Principal complains of shortage of money to have the work properly done and the material paid. It would surely relieve the Father if the balance ~~xxxxxx~~ of the money allotted for the installation of the water was forwarded to him without delay. I understand that you awaiting a request to do so. Please forward money, I mean the balance, as soon as possible.

I have not received yet any details as to the cost of the work. I hope it will not run over the estimates. We should know before long.

Here, at Grouard, it is not easy to find suitable water. Water was encountered at 330 feet, rather soft water, but it was so dirty that it was out of question to use such water. We have to go deeper. By the rest, the laying of the pipes is over. If we could get water, the installation would be completed in a few days.

Thanking you for the interest you pay to our problems,

I remain,

Dear Sir,

Sir:

Reference your #131-13-5 of the 11th September last, re purchase of a Night Watchman's clock for the Vermilion Residential School, I beg to enclose herewith copies of quotations received from firms in Edmonton and Calgary, the last of which was received this day.

J. H. Ashdown, Edmonton, Alberta.
Davis Paradis, Clock, Six Stations \$110.75

Marshall Wells, Edmonton, Alberta.
Davis Paradis, Clock, Six Stations \$125.00
Detex Newman, Six Stations 101.00

Bell & Morris, Calgary
Detex Alert, Clock, Ten Stations 113.00

As will be noted the cost is double that mentioned in your letter.

My recommendation would be to purchase Davis & Paradis clock from J. H. Ashdown Co. of Edmonton. We would then have all our schools equipped with the same style of clock. I would suggest buying one for 10 stations because we have two separate buildings at this school, each with two stories and basement, and there are five furnaces and stoves.

Dear Sir:

I am in receipt of your letter of the 13th instant in connection with the request for a night watchman's clock for the Vermilion Indian residential school.

As this is a Church-owned school present regulations only permit us to expend the amount specifically provided in the appropriation. We have already expended, in connection with the water system at Vermilion, the amount provided in the current year's appropriation for the Vermilion residential school. Under these circumstances it is regretted that purchase of the watchman's clock cannot be made this year.

Re: Grouard Indian Residential School

EXD.
A.

This week Right Reverend U. Langlois, O.M.I., Bishop of Grouard, visited this Branch and discussed with us the work that is in progress in connection with the water supply system at each of the above-mentioned schools.

As you have previously been informed funds were provided in the current year's appropriation for the improvements suggested by your engineers. However, it appears from the information received from Bishop Langlois that the work has not yet been completed.

No provision is being made in our appropriation for the fiscal year 1940-41 for money required in connection with the water systems at these schools and moreover the Principal of each of the schools is anxious to secure a considerable amount of new equipment if funds available in the current year's appropriation are not being used in connection with the water systems.

The season is advancing and I am extremely anxious to know at the earliest possible date what progress has been made at each of the four schools mentioned above, also when the water systems at these schools will be completed.

Dear Sir,

Re: Watchman's Clock at St-Henry's Mission,
Fort Vermilion.

Over a year ago, on May 30 th, 1938, I applied
for a Watchman Clock to be supplied to St-Henry's Mission,
Fort Vermilion. It seems that this has not gone ~~through~~
through since I have been advised lately that the clock
asked for had not been received yet.

I would appreciate you giving personal atten-
tion to this matter. You understand how important it is
to ascertain if the night watchman pays regular visits to
buildings.

The address I find on one of these clocks is:
Davis Paradis Watchmen's Clock Corporation, New-York, U.S.

Thanking you in advance for the attention
you will give to this question,

Calgary, November 27th, 1939.

Sir:

Reference your letter No. 131-13-5 of the 17th instant in connection with the request for a night watchman's clock for Fort Vermilion Indian Residential School, I beg to advise that I passed the information contained therein on to Rev. S. Lajoie, O.M.I., Administrator of the Vicariate of Grouard, who has now written as follows:

" Grouard, Alta., Nov. 24, 1939.

"Dear Mr. Schmidt:

" Let me thank you for the attention given to the Watchman's Clock for Fort Vermilion.

" I fully agree that the appropriation for Fort Vermilion for the year will be used entirely for the water system. Nevertheless, as it is important to have a Watchman's Clock, let me suggest that the Department give the authority of buying this clock right now refund to be made from the credits of next year on presentation of the bill. I could order the clock right away so that it would be at hand within a few weeks at the most. If this is acceptable, please let me know at your earliest convenience.

" As suggested by your letter to the Department, it would be better to have a ten stations clock than a smaller one.

Yours very truly,

(Sgd.) "S. LAJOIE," O.M.I.

Grouard, Alta. "

I recommend that the suggestion made by Rev. Father Lajoie be approved, and that I be advised as soon as possible of the Department's decision.

Dear Sir:

I have your letter of the 27th ultimo with further reference to the request for a night watchman's clock for the Vermilion residential school.

With regard to the Principal's suggestion that he purchase the clock and that refund be made to him next year I may say that while the Department has no particular objection to this method of securing the clock at the same time it is difficult for us to state definitely that refund will be made.

Present regulations require that all such purchases be submitted to the Purchasing Agent before payment can be made. Provided he does not take any exception to the amount paid for the clock the Department will favourably consider refunding the money to the school management from the appropriation for the fiscal year 1940-41.

Fort Vermilion Water System:

It is noted, in connection with this water
supply, that distribution mains have been installed in 7 foot

and connected. Some additional work is required and the
total estimated cost is placed at \$2,000. the original
allotment being \$1,650.

In connection with these water supply systems
I have your memorandum of the 11th instant quoting from a
letter received from the Rt. Rev. U. Langlois, in which he
recommends the employment of Mr. J.L. Gervais, of Montreal,
to locate the exact spot where a well should be drilled.
This matter will be referred to our Engineers and given
full consideration, although it is doubtful if Mr. Gervais
would be able to locate water by his method at depths to
which the wells are being dug.

Dear Sir,

Re: Watchman's Clock,
Fort Vermilion Ind. Resid. School.

As you are aware by previous correspondence, there was no Watchman's Clock at the Fort Vermilion Indian Residential School. Notwithstanding the fact that there was no provision in the estimates of the year for this item, I have taken on me to order a 10 hour Clock for this School. I couldn't any longer know that ~~there~~ was no way of control ~~of control~~ on the regularity of the night runs. Too many lives are concerned.

I take the liberty of presenting the bill to the Department with the hope that it will be found possible to make a refund. The sharp advance on nearly all the commodities create a very delicate financial problem. Every dollar has to be weighed.

With the anticipate assurance that you will do your utmost to pass this small bill,

I remain,

Dear Sir,

Yours truly,

Dear Father Lajoie:

The attached requisition has just been received through the Indian Agent from the Principal of the Vermilion Indian Residential School. No order is being placed for the goods at the present time because I thought that before ordering any supplies it would be advisable to write to you.

There has been a considerable reduction in our appropriation and consequently the under-mentioned amounts will be available for repairs, improvements and purchase of new equipment at the five schools in the Grouard Diocese during the current fiscal year:

	<u>Repairs</u>	<u>New Equipment</u>	
GROUARD	\$ 600.00	\$ 1,000.00	
JOUSSARD	700.00	1,000.00	
STURGEON LAKE	2,000.00		
VERMILION	350.00	300.00	
WABASCA	1,100.00		
	\$4,750.00	\$ 2,300.00	Total \$ 7,050.00

The above is the total amount that we can expend on the five schools in the Grouard Diocese during the current fiscal year and before making any purchases I thought it advisable to write to you and suggest that you have your five Principals submit their requests to you so that you can decide what is the most necessary expenditure.

In talking to Father Beuglet recently he pointed out that something will have to be done in connection with the water supply at Wabasca. Possibly additional expenditures will have to be made at some of the other schools in connection with the water supply work done during the fiscal year just closed. All of these necessary expenditures should receive your consideration.

Consequently if we receive any requests for disbursements from any Principal direct we will return it to you for your recommendation before proceeding with either a purchase order or an authorization.

Dear Mr. Hoey,

*replied out

Answering yours of the 30 th of April
last re: Requisition of Tools and of some Sport Goods
for our Fort Vermilion Residential School, I beg to
state that I deem it would be a bad policy to refuse
equipment if we want to train children in most usual
work. The inability of most Indians due to unpreparedness
to provide for themselves has been deplored since too long.
The Department is anxious to remediate to the situation
by having the young generation taught in the most usual
trades. The Principals of our Schools take a keen interest
in the matter. I think it would be unfair to them to re-
fuse the equipment absolutely needed to obtain results.

Should I understand that this expense will
be charged against the appropriation allotted to our
Schools for repairs and equipment for the year 1940-41?
I hope not. Should not at least the tools for the work
shop and the garden be paid by the Department from an
other source? These tools come for Indian Schools in the
school material as manual Training is a part of the
course the children receive. If you cant do so, I mean
avoid to charge these tools against the coming allotment
for our Schools, please let me know.

As to the Gymnasium Equipment, I would
be pleased to hear that the Department will take care of
it too. If it is found impossible, please postpone filling
the requisition. I will see what we can do to remediate
the present situation.

Your letter brings me bad news. The appro-
priation for repairs and equipment in our schools is
reduced to \$7,050.00. It is not much for five schools.

I hope that this curtailment will not be followed by a reduction of the grants re: pupilage. If the price of life commodities keeps on going up, the situation will become serious if not critical before long. We are doing our best to get revenue from farm and garden, but there is no remedy to draught. It looks better this spring. Sufficient moisture for the season. We need warm weather.

I appreciate that you will submit to me any request presented by any of our schools. It will help keeping the money for most necessary expenditure.

While in Ottawa, I applied to Mr. Phelan for two sewing machines (not Tailor's) for Wabasca. It does not seem that they have been shipped at date. As there is a lot of tailor's work to be done in summer time, I would appreciate these two machines being shipped as soon as possible. Address: R.C. Indian Residential School, Wabasca, via Slave Lake, Alta.

Let me profit by this opportunity to thank you for the interest you have paid to the refund of monies advanced for the water system. I was surely pleased to hear that Sturgeon Lake School had received the \$500.00 recommended by the Engineers.

May I point out that there should be a balance of \$111.60 coming for Fort Vermilion. I presume this will not delay.

Reverend Sir:

I have your letter of the 11th instant with reference to the amounts provided in the current year's appropriation for the schools in the Grouard Diocese. Since writing to you on April 30 the estimates have been reconsidered and it is now definitely decided that the following amounts will be available:

SCHOOL	REPAIRS AND IMPROVEMENTS	PURCHASE OF NEW EQUIPMENT
Grouard	\$ 900.00	\$ 1,500.00
Joussard	900.00	1,500.00
Sturgeon Lake	2,400.00	
Vermilion	500.00	600.00
Wabasca	1,500.00	

I note what you say regarding the requisition for tools for the vocational training work at the Vermilion Residential School. Present regulations require us to charge the cost of these to the amount provided for the Vermilion School. The Purchasing Agent will be requested to secure them but, as mentioned in your letter, the gymnasium equipment will not be ordered.

Two sewing machines for Wabasca will also be ordered at once. It has been decided to allow \$50.00 toward the cost of the watchman's clock. Both of these items, of course, will be charged against the amount appropriated for the respective schools.

Dear Mr. Hoey,

Excuse if I have delayed so long acknowledging receipt of yours of Ma7 28 th. Being alone at Grouard, I am called out of Town quite often.

I am surely pleased to know that it has been possible to raise credit for Repairs and Improvements and for Purchase of New Equipment to \$9,800.00. It les than last year, but yet better than announced previously. We surely need this to face the situation. The reduction on per capita grant will reflect heavily on our finances. We do our best to cut expenses.

I take notice of what you say about the purchasing of two sewing machines for Wabasca and of tools for Fort Vermilion as well as of the charging of \$50.00 for the Watchman's Clock for this school. For this item, let me point out that is has been paid and vouchers forwarded. May I expect refund before long.

As to the balance I was expecting as refund for the expenses incurred for the Water System at Fort Vermilion, it is not easy for me to give full details as I have not in hands copy of all the vouchers sent by Rev. F. Huguerre. Neither do I get a detailed report of the items covered by Department's cheque 33812, \$266.60. According to F. Huguerre's statement, it has been expended \$2,378.85. Of this, \$2,307.42 were paid or refund by the Department leaving a balance of \$71.43. It was impossible to secure vouchers for an item of \$11.00. There would be a balance of \$60.43. If I had details of the amount of \$226.60 referred to above, it could be possible for me to trace this balance.

As soon as the Bishop will be back, we will decide on the use of the credit and let you know.

Dear Mr. Phelan,

Re: Beds and Desks for Fort Vermilion
Indian Resid. School.

On August 7 th, I was requesting you to have some equipment, beds and desks, shipped to our Fort Vermilion Resd. School. On the 17 th of the same month, you were kind enough to notify me that arrangements were being made with the Purchasing Branch the articles mentioned in my letter.

Having not heard of since, I take the liberty of inquiring if this equipment has been ordered. The last boat will leave Peace River for Fort Vermilion Oct. 19 th. If shipment has not been done yet, I would appreciate you hurrying the matter.

In order to save time tracing the matter, I am enclosing a copy of the requisition.

It is raining this morning, the first time since three months. It releives me a lot as bush fire had been running in the country since over a month. No more green stuff in the bush neither in the fields. A strong wind could have spread the fire all over the country. The danger should be passed now. Shorter days and cooler weather will keep the fire down event if it does not rain much. Thanks God....

Thanking you in advance for the attention you will give to this matter, I remain, Dear Mr. Phelan,

Yours truly,

F. S. Lajoie, O.M.I.,

Dear Sirs,-

With reference to the delivery of school desks covered by Purchase Order No. 3607 of the 9th ultimo, will you kindly check up with the railway company to see if these desks arrived at Peace River before September 18th, as specified on the order. In your wire of September 7th, which did not reach this office until Monday morning, Sept. 9th, you stated that you could ship the desks immediately in a pool car leaving Waterloo September 9th. We therefore wired you on the 9th ultimo to ship the desks to Peace River and sent our covering order in confirmation of this wire.

We have received a communication from the Indian Affairs Branch indicating that there was some doubt as to whether the desks had arrived at Peace River in time to catch the last boat for Fort Vermilion. Please therefore ask the railway company handling the shipment to advise as to the date on which the shipment actually reached Peace River and advise this office immediately.

I may add that if the shipment failed to catch the last boat leaving Peace River for Fort Vermilion, considerable inconvenience will result to this Department.

Yours very truly,

Mr. Philip Phelan, Chief, Training Division,
Department of Indian Affairs,

Ottawa, Ont.

Dear Mr. Phelan,

Please find enclosed report of wages paid at our Fort Vermilion Indian Residential School for the completion of the Water System.

Last year, it had been impossible to finish the work due to cold weather in fall as well as to the raising of the water in the river. They have profited by the nice weather this fall to complete the work.

They have been fortunate enough to get an abundant supply of fairly soft water. It is a big improvement on what they had in the past. Let us hope that the water problem is solved at the Fort Vermilion Indian School for many years if not for ever.

Thanking you for the help you have given us in the solution of this problem,

I remain,

Dear Mr. Phelan,

Yours truly,

Dear Father Lajoie:

I have your letter of the 23rd ultimo enclosing voucher amounting to \$339.00 covering wages in connection with the water system at the Vermilion Indian Residential School.

On November 30, 1940, the following amounts were unexpended in connection with the schools in the Grouard Diocese:

Grouard.....	\$ 2,048.57
Joussard	1,519.76
Sturgeon Lake	1,579.86
Vermilion	182.68
Wabasca	786.69

The purchase of washing machinery and other items already requested will reduce the above amounts and it is quite possible that you have other accounts for wages which you have not yet forwarded.

You will note, however, that the credit balance at the Vermilion School is only \$182.68 and consequently the amount of \$339.00 cannot be paid at the present time. We will have to transfer money from some one of the other schools in your Diocese to the Vermilion School to enable us to pay the \$339.00 account and this will require an Order-in-Council. Before securing this I thought it advisable to wait until we had the whole picture before us as it may be necessary to make other transfers.

Yours truly,

Rev. S. Lajoie, O.M.I.,

Dear Mr. Hoey,

I ~~am~~ just notified by Rev. Father Huguerre, Principal at the Indian School at Fort Vermilion, that the roof of flour-mill has to be renewed this year. The heavy rains of this summer have disclosed that the old roof is not safe especially on a flour-mill.

As the last ^{four} scheduled for Fort Vermilion will leave Peace River in the last week of September, I take the liberty of requesting the authorization of ordering myself the material needed. Besides, it is not easy to give by letter the precise specifications of the material needed. We want a galvanized Iron Roof, undulated. According to the traveller of The Western Steel Products who called on me this morning, the material will cost \$150.00 around.

You are surely aware that it is not easy to get prompt delivery of material just now. It is why I would appreciate an answer within a short future. We cant take any chance on the flour and we have just a month or so to have the material shipped this fall. This is going by Air Mail.

Thanking you in advance for the attention you will giveto this matter, I remain, Dear Mr. Hoey,

Yours truly,

April 28th 1945

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs' Branch,
Ottawa, Canada.

Dear Mr. Phelan,

Enclosed herewith application to the Wartime Prices and Trade Board to purchase new farm equipment for the Fort Vermilion Indian Residential School and Hospital. Specific information regarding the farm machinery that is required and reasons why this equipment is urgently needed are given on the application form.

Now, I quite understand that it is impossible to obtain this equipment for shipment this Spring, but it would be satisfactory if the equipment could be forwarded to Fort Vermilion during the navigation period, that is, from June to August inclusively, so the equipment could reach Fort Vermilion this year, so it could be available for use next Spring. If the equipment did not reach Fort Vermilion this year, this would mean that it could be used before the Spring of 1947. not

As explained to you in my letter of March 28th, the Fort Vermilion Residential School is purchasing this equipment from their own funds and would therefore reimburse the Department the cost of this farm machinery.

I trust that the Purchasing Agent of the Department will do all he possibly can to secure this equipment and forward same this Summer. Spring is very late here this year and ice is still very solid on the Peace River, although navigation usually opens at the end of April. It usually closes on September 20th; this explains why the order should reach Peace River no later than the end of August to make sure that delivery can be made in time.

There you have in a short story how merchandise is delivered to the Fort Vermilion Residential School; it is only from May to September that supplies can be shipped to Fort Vermilion; They can not shop all year round, as you or I can do so.

Yours sincerely,

L. Bengt. omf.

Dear Father Beuglet:

I have your letter of the 28th ultimo, with reference to securing farming implements for the Vermilion Residential School through our Purchasing Branch.

I have taken up this matter with the Purchasing Agent, and I understand from him that many items of farm machinery are extremely difficult, if not impossible, to secure this year. However, you might let me have specific information regarding the farm machinery that you require, and the Purchasing Branch will see what they can do. It should be understood, of course, that very definite information will be supplied regarding each item, and, if possible, a catalogue number of some firm should be quoted, so that we can either secure this or equipment of a similar kind.

Dear Mr. Phelan:

During my recent visit to the Department, you explained that there was an amount of approximately \$896.34 unspent in the amount provided in the current year's appropriation for repairs and improvements at our residential schools, made up as follows:

Grouard	-	\$300.00
Joussard	-	297.20
<u>Ft. Vermilion</u>		<u>40.62</u>
Wabasca		258.52

As the Department has placed an order for cement for the amount unspent at the Wabasca Indian Residential School, I am not forwarding you any vouchers for this school. With reference to your requisition of the 31st
instant, for one Peasey Model 84 electric washer for the
Variation Indian Residential School, I may say that the
requisite of funds indicates that there is no possibility
of supplying this washer before the close of navigation.

The manufacturer states that there are no
motor washers for many months. The Peasey Branch
have advised that they cannot supply this washer
as to delivery but believe it on their experience during
the past year, it will be shipped with delay. They also

AIR MAIL

Reverend Sir:

The Department has been endeavouring to secure a Beatty Model 6 A Electric Washer for the Vermilion School. Owing to present conditions it will not be possible to secure this for several months and that will mean that the washer would not go forward to you this fall. In order that purchase may be made from funds available at the present time we intend to order the washer and will ship it to the Bishop's residence at McLellan, where it can remain for the winter and go forward to Vermilion in the spring. Before finally placing the order we desire to know if the washer should be fitted with a 32 volt or 115 volt direct current motor. Please let me have this information by air mail.

Gentlemen:

Re Your Purchase Order #3418, dated
May 29th, 1945. File #58542-15-20 Alberta.

This covers a tractor and a tiller combine and a power binder shipped to the Rev. B. Rainville, Principal, Industrial Residential School at Fort Vermilion, Alberta, and shipment was made on July 12th. Four copies of the invoices were mailed to Rev. B. Rainville, and we wish to call your attention to the fact that we have not yet received settlement covering this shipment. The time is getting close to the end of our fiscal year, and we are most anxious to have this cleared off our books.

We would thank you to kindly check into this matter and advise us if there is any reason or slip-up on our part which is delaying payment of this.

We are sending the Rev. B. Rainville a copy of this letter in case he has overlooked sending the invoices to you.

Thanking you for an early reply.

Yours truly,

Dear Father Plourde:

I have your letter of the 23rd instant, requesting desks, also beds and mattresses for the Fort Vermilion Residential School.

As you know, this is a church-owned school and consequently we can expend only the amount specifically provided in the current year's appropriation. This year, we have provided an amount of \$650.00 for repairs, improvements and the purchase of new equipment at this school. We have already paid this amount to cover the cost of labour in repairing the septic tank and sewers at the school. Under these circumstances, I regret that the desks, beds and mattresses cannot be purchased at the present time.

It has been against the law to make Washing Machines of any thing but wood since the start of the war.

And although the government has eased up on it some since the war has been over it is still impossible to get Monel or any other type of metal.

But we can supply you with wooden Washers and we can supply you with Steel Extractors.

Please see attached printed matter of the type of Laundry Machinery as made by this firm.

Dear Mr. Phelan;

With further reference to washer and extractor for the Fort Vermilion Residential School for which you advised that direct current electric motors could not be secured, this was pointed out to the principal, Father Rainville, who called at the Bishop's House recently; in spite of your inability to secure motors for the above laundry equipment, the principal requested that the washer and extractor be shipped without motors at once before navigation closes early in October. Father Rainville explained that he will arrange to use the washer and extractor until such time as motors are available. He also stated that it is quite possible that he could find direct current motors locally.

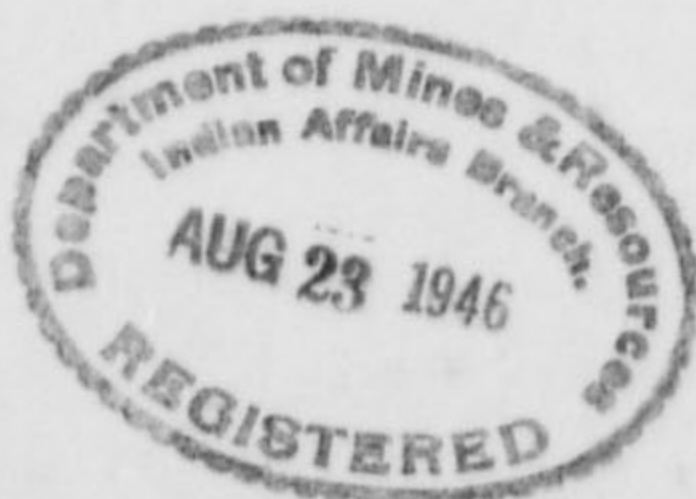

Would you please ask the Company that will supply this laundry equipment the size of motors that are required for both the washer and extractor, and advise me.

Reverend Sir:-

Enclosed are copies of Purchase Orders 13809 and 13810 with reference to the extractor and washer for the Vermilion Residential School.

When the order was placed, we were only able to obtain a promise from the manufacturers that the equipment would reach Peace River by May 1st. However, we have communicated with both the firms in an endeavour to have the equipment reach Peace River by March 31st. The accounts covering their cost will be sent when the equipment is shipped and you should arrange to have someone accept delivery at Peace River and have the accounts certified and returned to us by airmail so that we can pay our share from the appropriation for the current fiscal year.

Yours truly,

Order No. 13810.

Gentlemen:

With further reference to our letter of October 26th regarding the arrival of the equipment on the above order at Peace River by March 31st instead of May 1st which was the date given us when the order was placed.

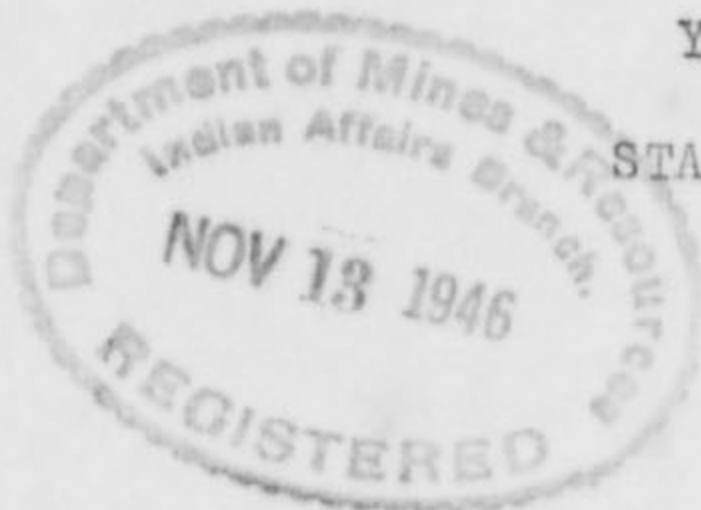

We are very pleased to advise you that we have received advice from our principals, the Canadian Laundry Machinery Company, that they can, and will, make shipment of the above order before May 1st, 1947, as per your request.

Trusting that this is the information that you require and also that nothing unforeseen will develop to delay shipment of this Washer for the Fort Vermillion Indian Res. School, Peace River.

Yours very truly,

Re: File 131-13-5 (W.T. 1)
Order No. 13810.

Gentlemen:

We have your communication of October 21st for acknowledgment.

You advise that if at all possible you would appreciate the arrival of this equipment at Peace River by March 31st, 1947, rather than May 1st, which was the date given us when the order was placed.

We are placing your new request before the factory for their attention and have asked them to do everything possible to meet the earlier delivery date.

We should point out that as a D.C. Motor is required for this Washer, and as these are extremely difficult to get at the present time (in fact all electrical equipment even of a standard nature requires delivery of from fifty-two to seventy-five weeks) it will be somewhat of a miracle if the Factory can secure a Motor within the required time.

However, I am sure that they will do everything possible to meet the delivery date.

Yours very truly,

STANLEY BROCK LIMITED.

Dear Father Beuglet:-

With reference to your telegram of the 11th instant, please let me know if you want the same type of tractor that we purchased for you in May, 1945, for the Vermilion Residential School.

I presume that you will pay for it when you know its cost. As you are aware, it has not been our practice to supply such equipment from Parliamentary appropriation.

You might also let me know at what point you are using it and give complete shipping instructions. As soon as your reply is received the matter will have further consideration.

Dear Mr. Phelan,

Re washer and extractor for Fort Vermilion School, I have phoned to the Station Agent at Peace River to find out if these had reached Peace River and he told me that neither the washer nor the extractor had reached their town. I then wired J.H.Connor & Sons, Ottawa to let me know whether they had shipped extractor or not and the following is their reply which was just handed to me:

" Re tel. Have not received motor for extractor from manufacturer stop Investigating and will advise you next week."

Have also wired Stanley Brock Ltd.Calgary to find out if the washer had left the factory. Have received no reply so far.

Apparently the slow delivery of electric motors explains the delay of the shipment of this laundry equipment; I understand that both the washer and the extractor are ready for shipment as soon as the motors are available. It is unfortunate that the motors are not obtainable so this matter could be settled before the closing of the fiscal year.

In the current year's appropriation the following amounts were provided:

(a) Repairs	\$5,000.00	
(b) Dough Mixer	<u>350.00</u>	\$5,350.00

Due to the fact that the washer was not supplied until recently, the cost of it will have to be taken from the appropriation for the fiscal year 1947-48.

The expenditures, therefore, under consideration at the present time and which include the cost of the washer, are as follows:

(a) Washer	\$ 953.00	
(b) Lumber	275.43	
(c) Galvanized Iron	<u>1,066.85</u>	\$2,295.28.

Yours sincerely,

OTTAWA, August 22nd, 1947.

Memorandum: Mr. R.A. Hoey,
Director, Indian Affairs Branch.

Attention: Mr. P. Phelan.

Reference is made to your requisition dated July 21st, 1947, file 131-13-5, respecting barn equipment required for Rev. B. Rainville, O.M.I., Principal, Indian Residential School, Vermilion, Alberta, and attached thereto quotation from The Jutras Co., Ltd., Victoriaville, P.Q.

Tenders were ~~also~~ called from six ^{firms} in Calgary and Edmonton areas with no result to date. However, a representative of Pedlar People called and requested more complete information in order that he could tender on the equipment desired. It is, therefore, requested that if possible a blue print of materials required or measurements by a sketch of the layout of stalls and pens could be furnished, this would help materially in the firm quoting more intelligently on the list of goods.

It is also requested that a more complete explanation be furnished in regard to item reading "3 only combined loges 46'6" enclosure, 20' enclosure, 3 gates, 1-5'galvanized manger". Please advise if manger mentioned is for horse. If the above information could be furnished for the Pedlar People, I have no doubt we would receive a good quotation.

Another matter is date of delivery shown as September 10th. I am advised that delivery could not be made under something like sixty days at least.

Kindly let me have the above information and further direction respecting delivery date to this point.

Dear Mr. Neary,

As you are aware, funds have been provided in the current year's appropriation for the purchase of a dough mixer for the following five Schools in the Vicariate of Grouard,

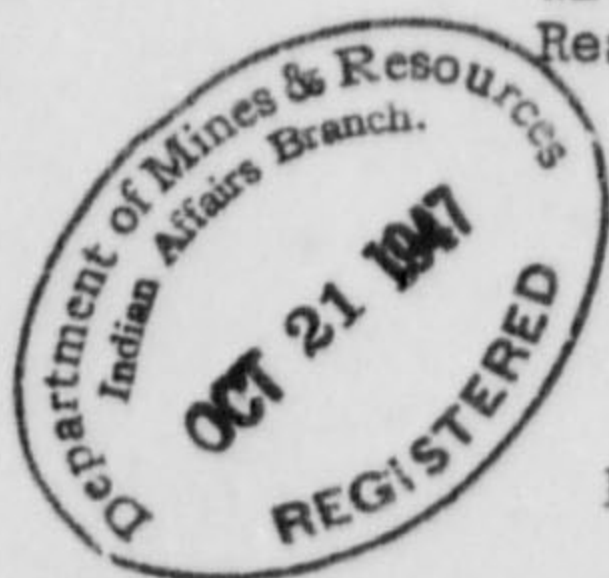

✓Wabasca R.C.
✓Fort Vermilion, 766
✓Sturgeon Lake,
Joussard,
Grouard.

A one-bag machine is the capacity required for each of the above Residential Schools. This mixer should be equipped with 110 volts D.C. electric motor. From present indications, should it be impossible to secure a D C Motor, the mixer can be bought without motor and it is quite possible that I will be able to pick up used motors in Edmonton or Calgary.

Trusting that your Departmental Purchasing Agent will be able to find a one-bag Bread Mixer, equipped with 110 volts D.C. electric motor for each of the above Residential Schools.

Yours truly,

L. Beuglet

Dear Mr. Neary,

With reference to my letter of September 10th in reply to yours of August 26th, file 131-13-5 (W.T.I) in connection with requisition for equipment for the new barn at the Fort Vermilion Residential School, it is hoped that by now you have been able to obtain a satisfactory tender on the equipment desired. Although navigation is now closed from Peace River to Fort Vermilion, this equipment can be shipped any time to Peace River where it will be picked up and freighted overland to Fort Vermilion. If the tenders which were called from firms in Calgary and Edmonton areas are not satisfactory, it may be advisable to deal with the Jutras Co. Ltd. at Victoriaville, P.Q. whose tender I forwarded to you. They are well acquainted with the equipment required, having the plan of the barn on hand; they are also the ones who made out the list of the material that would be required. Should you decide to buy this material from a firm in Eastern Canada, please advise me before shipping same. I will give them shipping instructions so this material can be shipped half rate, a privilege which is being granted to us by the Canadian Pacific Railway Company in Montreal. (confidential)

I attach a copy of a letter dated February 27th, 1948, from the Westeel Products, Limited, Edmonton, relative to goods ordered by Purchase Order No. 21323 dated July 17th, 1947, for delivery to Rev. B. Ranville, O.M.I., Fort Vermilion School, Fort Vermilion, Alberta.

You will note that the firm asks permission to supply Aluminum Corrugated Sheets instead of Galvanized and also other aluminum materials at an increased cost due to shortage of galvanized materials as ordered.

You might advise if it will be in order to instruct the firm to proceed to supply the aluminum sheets, etc., at the increased cost.

Gentlemen:

I acknowledge receipt of your letter of the 21st instant, regarding your tender of August 15, 1947, and subsequently covered by our Departmental Purchasing Order #24275 dated November 7, 1947 at a total cost of \$1298.55.

Your reference to error in extension of the 1st item, namely, 24 cow stalls at \$12.60 shown at \$151.20 instead of correct figure of \$302.40 has been noted. It will, therefore, be in order to add the \$100.00 to your invoice in this instance.

It is also noted that you are prepared to absorb the difference of \$51.20 on this item. Therefore, the grand total will be \$1,398.55 when rendering your invoice for payment to the Department.

Yours very truly,

W. M. Vincent

Dear Sirs:-

Attention: Mr. W. M. Vincent

We thank you for your letter of March 9th, replying to ours of February 27th, instructing us to supply your order No. 21323 in Aluminum Corrugated Sheets.

The writer has an apology to make to you relative to our letter of February 27th, which, while written on our Edmonton letterhead, the letter was sent to you while the writer was in Winnipeg, to which point the Aluminum shipment is being made, and it was from this stock arriving shortly in Winnipeg that we proposed to make shipment of your order. Our letter overlooked stating that the price quoted, namely, \$1,400.67 was Sales Tax Included, F.O.B. Winnipeg. The error was noted after our letter was mailed and requested our Winnipeg office to write to you advising that the price quoted in letter of February 27th should have read as F.O.B. Winnipeg, this request due to the writer then leaving Winnipeg for the East. Apparently our correcting letter was overlooked.

May we, therefore, request your acceptance that the shipment be made as requested upon the understanding that the quotation made be F.O.B. Winnipeg, and not Edmonton as our letter would imply.

May we suggest that you wire us your acceptance at our expense.

Yours very truly,

Dear Sirs:-

Attention: Mr. W.M. Vincent

Please refer to our letter of March 11th replying to your letter of March 9th, relative to Aluminum Corrugated Sheets to be supplied to Rev. B. Rainville, O.M.I., Fort Vermilion, Alberta. In our letter we requested your confirmation to the effect that prices submitted in our letter of February 27th were F.O.B. Winnipeg, and not F.O.B. Edmonton, as our letter of February 27th would imply. To date we have not received your reply.

On February 15th we received a letter from Mr. Neary, Supt. of Education, requesting immediate shipment as it was the intention to have this account in the appropriation for the current fiscal year ending March 31st.

Order No. 24275

Gentlemen:

We acknowledge with thanks your letter of March 9th, permitting us to correct the **error** in the extension of the figures on item No. 1 of our quotation of August 15th, covering shipment of goods to Fort Vermilion, your order No. 24275 of November 7th, 1947.

As outlined in our letter and sanctioned in your letter of March 9th, we are adding \$100.00 to the total figure of our quotation, making it \$1,398.55 and will absorb the difference of \$51.20.

You will be pleased to learn shipment was made on March 20th, with the exception of the rope hitch and hay fork, which we hope to have added to the shipment at Peace River from goods in our Edmonton Branch.

Father Beuglet called at our Edmonton Branch office recently, enquiring about the shipment, and at that time, spoke about the gable door hardware referred to in our letter of March 3rd. May we have your authority to ship from our Edmonton Branch, one of the gable door hardware sets covered in our March 3rd letter. Thank you once again for your kindness in permitting the error in extension to be corrected.

Your letter of Mar. 12th is before us enquiring as to shipment of P.O. 24275 for the Indian Residential School at Fort Vermilion, Alta.

We are pleased to advise that shipment went forward on March 18th via C.P.R. The slight delay in shipping was brought about in that we held up the bulk of the order awaiting some smaller items which were in short supply. The only shortages in final shipment were a hay fork and swivel rope hitch. We have written our Edmonton Branch and providing they have these items in stock, they will complete the shipment from there. The invoices have already gone forward.

We appreciate the privilege of supplying stable equipment to this northerly outpost and thank you for the order.

Re: Purchase Order 24275

The attached account amounting to \$1,398.55 has just been received from Beatty Bros. Limited. If the items mentioned on the invoice have been received, you should certify the account and return by airmail as we wish to pay the account from the appropriation for the fiscal year 1947-48.

We have also received the attached accounts numbered Invoice 7418 and Invoice 7419. These accounts have been certified by you but we are unable to locate any purchase order for them. Are we to understand that you placed the order for the items covered on these two invoices without referring the matter to the Department? If so, it will not be possible for us to consider payment from the 1947-48 appropriation.

Please let me hear from you regarding these.

Attention: Mr. A. M. Vincent, Manager.

Gentlemen:

I acknowledge receipt of your letter of the 11th instant, respecting supply of Aluminum Corrugated Sheets from Winnipeg instead of originally quoted as Edmonton and covered by our Purchase Order 21323 dated July 17th, 1947.

While we quite readily agreed to accept the delivery of the Aluminum Sheets instead of the Galvanized Corrugated Iron, this was done to assist you and under the impression that the F.O.B. point would remain unchanged especially due to the considerable increase in price over the original order. Under the circumstances, it would seem fair that you assume at least half the cost of the transportation charges between Winnipeg and Edmonton instead of requesting us to assume the full cost. You might give this matter your consideration as the full cost of freight would make the total cost higher than your competitor's price.

I trust the matter of freight charges will not unduly delay shipment because we are anxious to pay the account by the end of our fiscal year which closes March 31st, 1948.

Mr. Philip Phelan,
Chief, Training Division,
Dept. of Mines & Resources,
Indian Affairs' Branch,
Ottawa, Ont.

Dear Mr. Phelan,

Replying to your letter of April 5th, File 147-0-5 (E.1) with regard to Beatty Bros. accounts invoice no. 7418 and invoice 7419, I wish to inform you that, when calling at Beatty Bros, Edmonton during the month of March with our contractor to obtain information pertaining to the installation of the equipment for the barn at Fort Vermilion, Mr. L.E. Liddle, Branch Manager, pointed out to me that some necessary items for the installation of this equipment had been inadvertently omitted in the original requisition. Although I was fully aware that the purchase of these additional goods should have been referred to the Department, in order to press matters, as the fiscal year was drawing to a close, I took it for granted that the Department would approve my steps and I confirmed the order; I feel assured that the Department will understand my embarrassing situation. However, after considering the explanation given, the Departmental Officials still think that the matter should have been referred to them before placing the order and refuse to pay the above invoices from the 1947-48 appropriation, it is hoped that they can be paid from the 1948-49 appropriation.

Yours very truly,

L. Beuglet

Mr. B. F. Neary,
Superintendent of Education,
Department of Mines and Resources,
Indian Affairs' Branch,
Ottawa, Ont.

Dear Mr. Neary:

In reply to your letter of the 7th instant, I beg to submit the following requisition for each of the residential schools in the Grouard Diocese.

Re: Fort Vermilion

a.k.
Father Rainville reported again and again this year that a new set of batteries was urgently required for his lighting plant. He explained that the set that he has on hand is over ten years old and the batteries are worn out. If you could arrange to secure a new set type W 21 Globalite Batteries 21 plate per cell, 56 cells for 110 volts, you would greatly relieve him. Navigation closes on the Peace River about October 1st. These batteries would therefore have to reach Peace River by then and ordered immediately. I understand that Bruce-Robinson Electric Co., Edmonton, have these batteries on hand. It would expedite matters if they were ordered from them.

At present, Father Rainville is building a horse and cow barn 124 x 36 for which the Department has defrayed the cost of equipment and corrugated aluminum for the roof. If an additional sum of \$3000.00 was available to pay part of the lumber and labour, I feel assured that this amount would lessen the burden of the Principal who is to be commended for the fine building that he has undertaken which will be to the credit of the Department.

Re: Grouard

EXTRACT 131-1-5
When in Ottawa last January, I informed the Department that the lighting plant was destroyed by fire at Grouard on December 31st, 1947. As the school was without light and power and the matter of replacing this plant was urgent, I was asked to take the necessary steps to buy a new engine, generator and batteries upon my arrival at Edmonton. This plant was bought and is now installed.

It was explained to me that there was at that time a credit balance of some \$1700. in favour of the residential schools in the Grouard Diocese from the amount provided in the estimate for 1947-48, and it was agreed that this amount would be applied to cover part of the cost of a new lighting plant for Grouard Residential School and that the balance would be paid from the estimates for 1948-49. On March 24th, 1948, I forwarded to the Department receipted invoices from Bruce Robinson Electric Limited, Edmonton, in the amount of \$4687.00 for this purchase but the account has not been paid as yet. I would

Mr. Neary:

appreciate this amount being reimbursed. Should you not have received the invoices, kindly let me know and I shall have additional copies made and forwarded to you.

Re: Jousard

The amount of \$1500.00 is required for general repairs at Jousard. Years ago buildings were constructed on wooden blocks and cement foundations should be made under these buildings in order to prevent their deterioration. If the Department is prepared to pay labour for the amount of \$1500.00, the school will defray the cost of lumber, cement, nails and the balance of the labour required.

Re: Sturgeon Lake

At Sturgeon Lake, a new cow and horse barn is required to replace the old dilapidated log one which threatens to cave in. It is the intention of the Principal to build this new barn in 1949. If \$2000.00 were available immediately from the 1948-49 appropriation, the lumber could be bought this fall so that construction of the building may begin early in the spring of 1949, and a further amount made available from the estimates of 1948-49 to carry out the project.

Re: Wabasca

Father Guimont called at the Bishop's House last night and explained that the floor of some of the rooms were in very bad condition and worn out, and required to be replaced. I believe that the sum of \$1500.00 would cover the cost of replacing these floors and covering them with linoleum. I shall get in touch with the Principal and ask him to let me know the amount of flooring and the number of yards of linoleum required for the job, and shall give you this information as soon as it is available. If you will arrange to have the sum of \$1500.00 available for these repairs, I believe that it would cover this expenditure. I understand that the flooring could be obtained locally at Wabasca but the linoleum would have to be secured by your purchasing branch.

I believe, Mr. Neary, that the above requisitions are legitimate and trust that you will give them your very careful consideration.

Yours very truly,

L. Beuglet

Gentlemen:

On August 10 we made a shipment to Mr. Neil Walker, Superintendent of the Indian Agency at Fort Vermilion, Alberta, as covered by our invoice 12953 in the amount of \$21.63. On August 16 we put through a charge to cover the prepaid freight in the amount of \$1.40 as covered by our invoice 13135. To date payment has not been received for either of these invoices and since they have been outstanding for such a lengthy time we are inclined to believe that they have been over-looked.

May we expect payment not later than November 15.

With regard to the material mentioned in your letter of November 6th, this was used for the construction of a barn for the Indian Residential School.

As I did not receive the goods myself, I turned the invoices over to the principal of the School and have no further information regarding them.

Re: Your file No. 766-5 (E.1)

Reference your letter dated November 19th, re my voucher No. 132 attached, the charges of \$8.81 from O'Sullivan and Stigsen River Transport Service covers freight charges, cartage, etc., on material shipped by Beatty Brothers, Edmonton, for the construction of a barn for the Indian Residential School.

This waybill was handed to me by the principal of the school and he asked me to voucher it as he received the material. I know nothing further about who authorized the construction of the barn and as a matter of fact, I am not very much interested in building barns, as schools in this Agency are needed badly.

I trust this is the information required.

Mr. Neil Walker,

Fort Vermilion, Alta.

We now find it necessary to return your voucher No. 132 as the funds provided in the current year's appropriation are completely exhausted.

As you will note from the attached copy of a letter being sent to Father Beuglet, the balance to the credit of the Vermilion Residential School, namely \$911.87, is being allotted for the batteries. Therefore, when Bruce Robinson's account is paid, there will be no more money left to be spent on this school during the current fiscal year.

The enclosed account should, therefore, be paid by the school management.

Dear Father Beuglet:

You will recall that in September of this year you requested us to order 1 set of Globelite Batteries and advised us that Bruce Robinson Electric could supply same for \$1,537.20.

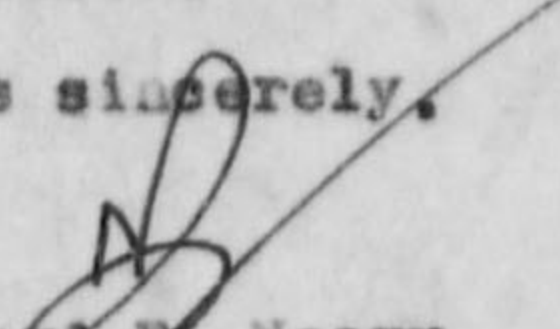

In our letter of September 24th you were advised that the total amount to the credit of this school was \$911.87. In your telegram of September 24th you guaranteed the difference of \$625.33. We, therefore, submitted a requisition to the Departmental Purchasing Agent for the batteries.

We have now received a voucher from Superintendent Walker requesting payment of \$1,588.72 to Bruce Robinson.

Batteries	\$1,514.52	
Freight	74.20	<u>\$1,588.72</u>

The total amount that we can provide towards the cost of the batteries is \$911.87. Therefore, it will be necessary for you to forward to us a cheque in the amount of \$676.85 instead of \$625.33.

Yours sincerely,

Bernard P. Neary

Dear Sirs:

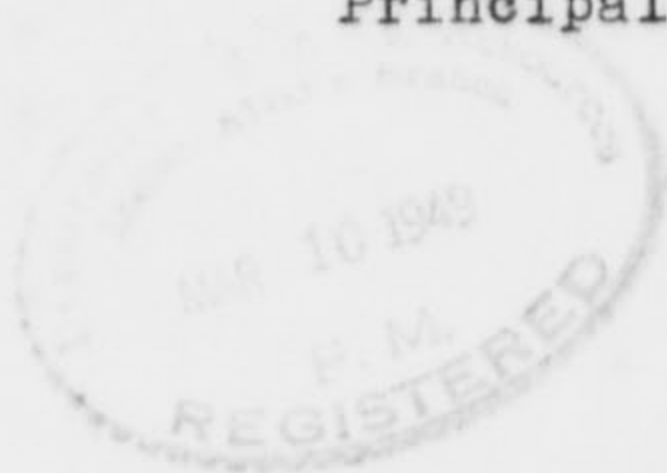

Looking over my records, I find out that the salary of the Night Watchman has not been paid to our school for a long period of time. Apparently the last cheque has been received the 17th of April, 1947, \$120.00 for Jan-March 1947.

I wrote to you some times ago about that matter but did not receive any answer as yet.

Kindly advise as soon as possible what is the cause of the delay.

Yours truly,

Principal,

Dear Father Rainville:

With reference to your letter of the 1st instant regarding allowance towards the salary of the night watchman at the Vermilion Residential School, I regret that no back payment can be made to you previous to 1st April, 1948, as funds in the 1947-48 appropriation have lapsed. Naturally, we expect the Principal of the school at which an allowance for a night watchman has been authorized to forward a Voucher regularly. If he does not do so, it is presumed that he is not engaging a night watchman.

If you employed a night watchman for the month of April, 1948, and also for the months of October, November, December, 1948, and January and February, 1949, you may forward a Voucher through the office of Superintendent Lapp for six months at \$60.00 per month. The Voucher should read:

"Allowance towards the salary of night watchman for the months of April, October, November, December, 1948, and January and February, 1949, six months at \$60.00 per month - \$360.00."

If you continue to employ a night watchman for the months of March and April, 1949, you may forward a Voucher at the end of each month for the same monthly amount as stated above. A copy of this letter is being forwarded to Indian Superintendent Lapp so that he will

Fort Vermilion, Alberta,
June 8th, 1949.

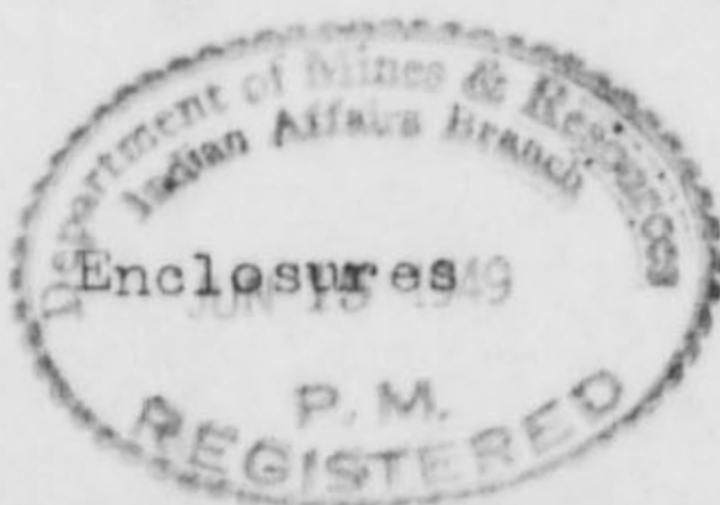

Superintendent of Welfare,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

I am in receipt of your letter of May 11th,
your file 74-147 (W.1), regarding our Vouchers Nos.
98 and 100, which you returned.

Arsene Freeman, Kinoswayo Band No. 19, is
a resident of Hay Lake. He was a patient in the
local hospital here. He was destitute and could
not provide forage for his team of horses during the
time he was at Fort Vermilion. We found it would be
cheaper to have the animals cared for by the R.C.
Mission at the Indian Residential School stables
than to have them looked after by any of the local
farmers.

The Indians noted on our Voucher No. 100
were also sick and destitute and could not look
after their horses themselves. The explanation
given in paragraph two, regarding having them
cared for by the Indian Residential School, applies
to this case as well.

I am therefore returning herewith our
Vouchers Nos. 98 and 100.

Re: Sports Equipment - Fort Vermilion
Indian Residential School

Attached hereto is a self-explanatory letter
from Father G. Tetreault of the Fort Vermilion
Indian Residential School.

I understand from Father Tetreault that this
school got a grant of \$4,200.00. They have just
received a new lighting plant and paint for the
school. Any remaining funds from this grant will
be used for some very essential and much needed
kitchen equipment.

There is no question that the school here has
practically no recreational equipment. If there
is a special fund available for such items as sports
equipment, anything you can do for us in this matter
will be appreciated very much. I feel that the re-
quest made by Father Tetreault is very just.

Fort Vermilion Indian Residential School,
FORT VERMILION, Alberta,
November 22nd, 1949.

Mr. S. C. Knapp, Superintendent,
Fort Vermilion Indian Agency,
FORT VERMILION, Alta.

Dear Mr. Knapp:

I come today to see if you could not interest or persuade your Department to accord immediately a special grant for the purchase of skates for the Indian Pupils attending our school. It seems to me that sporting activities are essential for the good health and character formation of the children; and as regards sporting equipment I believe sincerely that our school has been much less favored than numerous Indian Schools which I know of in the Province which have received substantial grants for sporting equipment and even for the erection of gymnasiums and halls.

As you no doubt remarked, I have begun a skating rink in the boys' yard this winter -- the first time a constructed rink has been undertaken in this school. However, and here is the hook, I have but twelve pairs of skates belonging to the Indian Pupils and you must admit that these are not very numerous for our enrolment. Moreover in view of our precarious financial situation at the moment I do not find the additional expense of purchasing a sufficient number of skates justifiable (a very good thing, but not essential) when the school as a whole is short of so many absolutely necessary things.

I ask for very little.....some ten or twelve additional pairs of skates will prove satisfactory for this winter. The children can amuse themselves and learn how to skate well this winter -- next winter will be soon enough to think of hockey equipment and organized games.

Hoping you will find my request reasonable and do your utmost to have it accepted by your Department, I remain,

Very sincerely yours,
Fort Vermilion Indian Residential School,

Dear Sir:

May we be permitted to retain the two Indian girls mentioned below on the Report. They are both over 16 years of age.

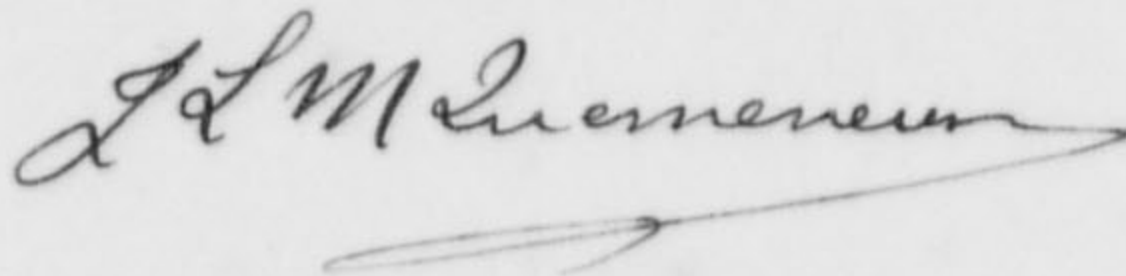

0143.....Marie Providence.....Slave.....Hay River,
0154.....Madeleine Baasa.....Slave.....Hay River.

These are both orphan girls with no one to care for them.

May we admit Maggie Noskiye ~~Noskiye~~, 0200 for this year. She is 16 years old. Her father Simon Noskiye No. 56 Red River Band, is ill most of the time now and his wife went trapping with him. The mother brought Maggie here while they are away for the winter.

There is great difficulty here in this part of the country to obtain the signature of the father on the entrance Forms. The Indians think it means they have to give up all right to the child and they do not want to sign.

Truly yours

Mr. N.P. L'Heureux, Agent,
Driftpile, Alberta,

Dear Sir:

Will you kindly advise me as to whether anything can be done by the Department for this child. Laurent Morvan, age 3 years, orphan son of Chipewyan mother, (dead), Louise Vermillon (treaty). The child was given by his father, (halfbreed), into the care of Jean Courtoreille, Treaty No. 31, Red River Band. Mr. Courtoreille has placed the child here at the school to be raised and educated. The boy should be entered under the name of Laurent Courtoreille.

May I ask you also concerning the three children of Samuel Hamelin, halfbreed, and Marian Courtoreille, Cree Indian, Red River. These children are: Elise age 14, Victor age 10, and Henry age 9. This family lives at Red River and are in no way different from their manner of living than the Treaty Indians.

I will be very thankful if you can possibly do anything for these poor children.

Truly yours

Dear Sir,

The Acting Principal of the St Henry's Indian Residential School, Fort Vermilion, applies as per letter herewith for the admission, as grant earning pupils, of the following halfbreed children:

was of present age

LAURENT MORVAN, aged 3, the son of a halfbreed father and of a Treaty Indian mother now dead. This child has been adopted by Headman Walter Jean Courtoreille, No. 31 Little Red River Band;

no

ELISE HAMELIN, aged 14)
VICTOR HAMELIN, aged 10)
HENRY HAMELIN, aged 9) the children of Samuel Hamelin, a halfbreed residing with his family at Little Red River, where there are no day schools under provincial or religious auspices.

Re Laurent Morvan. This child not being of school age I cannot, as much as I appreciate to see him in school, recommend the full grant. If the Department will make a small allowance to the Mission to help defray his maintenance this I think would be satisfactory to the Principal.

Re Elise, Victor and Henry Hamelin, halfbreeds from a family we may well consider destitute, living the Indian mode of life, I recommend their admission as grant earning pupils.

Yours faithfully,

N. P. L'Heureux

Dear Sir:-

I am in receipt of your letter of November 23rd with reference to the request that you have received for the admission of certain children to the Vermilion Indian Residential School.

With regard to Laurent Morvan, it is noted that he has been adopted by Headman Walter Jean Courtoreille. You did not state the date of his adoption and, as the boy is only three years of age, it would appear that the adoption must have taken place recently and possibly for the purpose of having the boy placed in an Indian Residential school. In view of his age, we are not prepared to approve his admission at the present time. However, if Courtoreille keeps the boy until he reaches the regular age for admission, the Department will be prepared to favorably consider placing him in a residential school at that time.

From the information contained in your letter, we are not prepared to approve the admission of Elise, Victor and Henry Hamelin as grant earning pupils to the Indian residential school. You should so inform the Principal.

It is considered that this school should have no difficulty in obtaining sufficient treaty Indian children to bring their enrolment to the number for which grant is provided.

Yours truly,

NON-ATTENDANCE OF TREATY INDIAN CHILDREN AT ST. HENRI'S

ON THE RIVER, and I consider it very fortunate that the children who were brought in arrived at Fort Vermilion without suffering some ill results.

7. I would respectfully request that instructions be obtained from the Indian Department as to whether or not they require further special patrols in connection with these children. If so, it will also be necessary to arrange, either with the Mission or some one else, to transport these children to the school, as it is certain their parents cannot do so. These Indians, particularly the Red River band, are becoming increasingly more dissatisfied and reluctant to allow their children to attend school at the Mission at Fort Vermilion. As before stated, they are all from fifty to one hundred miles from Fort Vermilion. Particularly are they dissatisfied with the compelling of the attendance of the boys. These Indians are, of necessity, bush Indians, and they claim, and rightly so, I believe, that when a boy is compelled to attend mission school until he is sixteen years of age, and then turned back into the bush, he is useless to himself or to his family, and is too old to learn bushcraft.

8. I believe that the only satisfactory way in which attendance of these children at school can be enforced is for the Indian Agent to take this matter up with them at Treaty time, and at that time make definite arrangements for their transportation to school prior to the commencement of the school term on September 1st. If left any later, the Indians go back into the bush for their fall hunt, and later for trapping, and it is an expensive and lengthy procedure to enforce attendance in accordance with the provisions of the Indian Act. Particularly is this so in this district as so few of the Indians reside on the Reservations. I therefore request definite instructions from the Indian Department as to what procedure is desired in this connection.

NON-ATTENDANCE OF TREATY INDIAN CHILDREN AT ST. HENRI'S
MISSION, FORT VERMILION, Alberta.

3.(Continued).

AND THEY sent no boat. I later learned that the Indians had waited at Little Red River for five days, with their children, and then, ~~none~~ no one arriving to bring them to Fort Vermilion, and hearing of the epidemic of measles at this point, took their children back into the bush.

4. As a result of the complaint of the Sister Superior, on December 1st I left Fort Vermilion via hired team and sleigh, and patrolled to Little Red River, accompanied by Spl/Cst. Bourassa, first making arrangements with the Mission to later send a team to bring back children. Arriving at Little Red River on December 3rd., I found that most of the Indians were off on traplines where it was impossible to get in touch with them without the expenditure of a great deal of time and money. In the Red River district I served notices on Rosalie TALLCREE, Widow TALLCREE, Joseph METSIKASUS, and Wm. MOBERLEY. On the 5th instant I continued the patrol to the 5th Meridian and to Garden Creek, within the boundaries of the Wood Buffalo Park, where I served notices on Paulis PEECHIMIEU, Michel GRANDJAMBE, and JINGLEBELLS. In all these cases only the women were home, the men being all absent in the bush hunting. Re-turning to Little Red River on the night of December 8th, Spl/Cst. Bourassa was taken ill with measles, and it was necessary to remain at that point until the morning of December 13th., when I left Little Red River and returned to Fort Vermilion, arriving at Fort Vermilion at 12.30 a.m. of December 15th.

5. In the meantime teams from the Mission made the trip and brought the following children to school at Fort Vermilion: William and Ambrose, sons of Rosalie TALLCREE; Eliza, granddaughter of Widow TALLCREE; the younger son of Wm. MOBERLEY; Margeret METSIKASUS, adopted daughter of Paulis PEECHIMIEU; Henri, grandson of Jinglebells; and James and Betsy, children of Michel GRANDJAMBE. Of the remainder, Pierre SIEUPEKAHAN, son of the Chief, is at Buffalo River, in the North West Territories; Edwin MOBERLEY, son of Wm. MOBERLEY, is ill with measles; Elzear NOSKIYE, with his family, are in the bush somewhere out from Moose Lake, exact location unknown; Narcisse DUMAS is trapping somewhere back from the Peace River, below the Waldo Creek; Antoine KASKAMAN, with his family, is trapping somewhere in the Cariboo Mountains, within the Wood Buffalo Park, as is Paul GRANDJAMBE and his family; Johnnie GRANDJAMBE is somewhere in the Stinking River district; and Old LOONSKIN (Makwayan) is somewhere along the 5th meridian, towards the southwest corner of the Wood Buffalo Park. To reach these families would require, I would estimate, patrols of from three weeks to a month, with two dog teams, as it would be necessary to break trail overland to most of their camps.

6. I would also respectfully point out that these Indians have no way of bringing their children to the Mission, many of them reside almost one hundred miles from Fort Vermilion. During my recent patrol the weather was exceptionally bad, with low temperatures, almost continual heavy snow-falls, and an unusual amount of overflow on the river,

Further to the above and with particular reference to paragraph 2 of my report of September 17th last, on November 24th, whilst on patrol in the district where HABITANT (APPITAH) lives, I called at his home and found that the whole family was suffering from measles. They appeared to be recovering and I warned HABITANT with regard to the placing of his children in the Mission as soon as he was recovered sufficiently to do so. HABITANT agreed to this, stating he would bring them in as soon as he, and the children, were fit to travel. These children not having been brought in, I made enquiries of John BOURASSA, mail courier, on the 16th instant, and he informed me that he had called at HABITANTS shack on his way to Fort Vermilion with the mail and had found the whole family very ill, and almost out of food. Rations were forwarded to this man with BOURASSA by Dr. H.A. Hamman, Indian Department representative here. It is now doubtful as to when these children will be brought into school as it is certain that the father will be in no condition to bring them for some time. 2. On November 28th the Sister Superior of St. Henri's Mission notified me that the following additional children were absent from school : William and Ambrose, sons of Rosalie Tallcree; Eliza Tallcree, granddaughter of Widow Tallcree; Jean Philip and Celina, children of Joseph Metsikasus; Margaret Metsikasus, adopted daughter of Paulis Peechimieu; Louis, son of Pierre Sieupekahan; Edwin Moberly and younger brother, sons of William Moberly; Larry, Pierre and Jane, children of Elzear Moskiye; Albina, daughter of Narcisse Duma; Christine, daughter of Antoine Kaskaman; Samuel, son of Johnnie Grandjambe; James and Betsy, children of Michel Grandjambe; Nancy, daughter of Paul Grandjambe; Henri, grandson of Jinglebells; Albert, grandson of Old Loonskin(Makwayan); all of Little Red River district, one son of Thomas Roberts on the Buffalo Prairie district, name unknown, and Jean, Gabriel and Marie, children of James Minim; Veronique, daughter of Paul Minim; and Sara and Gaspard, children of one Paulet, these latter three families being from the Loon River district. 3. With regard to the children from the Red River district, whilst at Little Red River on September 22nd and 23rd last, knowing that these children should be in school, I arranged with the Indians to have their children at the Upper Landing, Vermilion Chutes, on October 1st, and on return to Fort Vermilion arranged for the Mission to send a boat down for them, as they have no means of their own to come to Fort Vermilion. However, at that time there was an epidemic of measles at the Mission, with all the children and staff being ill, and they

1. On the 10th instant the Sister Superior of the above Mission complained to me that the following children from the Boyer River and Eliska Indian Reserves were not in school and their parents refused to bring them in: John and Alice Elias, children of Alexi Elias; David and Guillaume Fournier, children of Louison Fournier; Henry Francis, son of Margaret Francis; John Bulldog, son of Willie Bulldog; Francis Kipling, son of Jean Kipling; Thomas Kipling, stepson of Peter Atawlaw; Bella Atchoo, child of Alex Atchoo; Warren Fournier, son of Narcisse Fournier; Regina, Adekat and Madeline Fournier, children of Jean Fournier; and Bernadette, Lucy and Joseph Habitant, children of Joseph Habitant.

2. Some of these children are the same ones whose parents objected last year to sending them to school. Learning that these Indians intended leaving for the bush with their families, on a moose hunt, on the 12th instant I patrolled to Boyer River and Eliska reserves via hired car, accompanied by Spl/Cat. Bourassa. Enroute I met Louison FOURNIER with his own two children and the two children of Alexis Elias. Continuing to the reserve, I served written notice on Margaret Francis, Willie Bulldog, Alex Atchoo; Narcisse Fournier and Jean Fournier to have their children in school within three days. Francis Kipling and Thomas Kipling were both out of school on certificates issued by Dr. Hamman, I. D. Medical representative. Habitant was out in the bush, and I was unable to serve notice on him. I understand, however, that he is coming in very shortly, when action will be taken to see that his children are placed at school.

3. The Sister Superior of the Mission has today informed me that all the children, with the exception of HABITANT's, are now in from this reserve.

Reverend Sir:

The Department is in receipt of a lengthy report from the Royal Canadian Mounted Police with reference to action taken in returning pupils to the Vermilion Indian Residential School. This report reads in part as follows:

"These Indians, particularly the Red River Band, are becoming increasingly more dissatisfied and reluctant to allow their children to attend school at the Mission at Fort Vermilion. As before stated, they are all from fifty to one hundred miles from Fort Vermilion. Particularly are they dissatisfied with the compelling of the attendance of the boys. These Indians are, of necessity, bush Indians, and they claim, and rightly so, I believe, that when a boy is compelled to attend mission school until he is sixteen years of age, and then turned back into the bush, he is useless to himself or to his family, and is too old to learn bushcraft.

"I believe that the only satisfactory way in which attendance of these children at school can be enforced is for the Indian Agent to take this matter up with them at Treaty time, and at that time make definite arrangements for their transportation to school prior to the commencement of the school term on September 1st. If left any later, the Indians go back into the bush for their fall hunt, and later for trapping, and it is an expensive and lengthy procedure to enforce attendance in accordance with the provisions of the Indian Act. Particularly is this so in this district as so few of the Indians reside on the Reservations. I therefore request definite instructions from the Indian Department as to what procedure is desired in this connection."

The Royal Canadian Mounted Police are being informed that no further action toward returning children to the Vermilion School may be taken at the present time.

The statement of the Police that the parents are dissatisfied with the compulsion being used in keeping the boys in school until 16 years of age raises a question which has been discussed for some time, especially with the Right Reverend G. Breynat, O.M.I., in regard to the schools in the Northwest Territories. As the living conditions of the Little Red River Band of Indians are practically the same as those in the Northwest Territories it is felt that the same regulations should apply to them as apply to the Indians in the Northwest Territories. These are as follows:

1. The age limit for discharge of boys to be 14 years and girls 16 years.
2. Boys, upon reaching 12 years of age, if in good physical condition, may be granted leave of absence each year for the period during the hunting and trapping season and thereafter returned to school. This arrangement to be continued in their case until they reach the full age of 14 years, when they are to be discharged.
3. Girls, in special cases, if considered in their interests, may be permitted, upon request of the Principal of the School and the local Agent, or other departmental representative, to remain until they reach the age of 18 years. The reasons, in such cases, should be forwarded to the Department concerned and permission obtained for girls to remain a further period after reaching the age of 16 years, but not beyond the age of 18 years.
4. In the case of orphan and destitute children, Principals of schools and local departmental representatives should arrange to have them placed, upon their discharge, with families who will properly care for them and provide for their future welfare and also arrange, in the case of boys 12 to 14 years of age, to be placed with a family in order that they can acquire a knowledge of hunting and trapping.

It may be possible that the above conditions should also apply to other children attending the Vermilion Residential School or to the Indian Residential Schools in the Diocese of Grouard.

I feel certain that you will realize the reasonableness of these regulations and will co-operate with the Department in putting them into effect. A copy of this letter is being sent to the Principal of the Vermilion Residential School.

Dear Sir:

Answering yours of the 8th inst., I have to state that I will do my best to cooperate with the Department for the welfare of Indian children. As your letter touches many important problems, my intention is to have it carefully studied by the Board of Administration of the Vicariate of Grouard. The Residential Indian School of Fort Vermilion being especially concerned, I am requesting the observations the Principal may have to make.

Let me express you my first impression. While admitting the necessity of preparing the Indian boys to their future life, bush life as you say, I can't refrain from making a remark: What would be the use of training youngsters to trapping and fishing if there is to be no more fur or fish. Surely, you have been told that the situation for the Indians is becoming alarming. One has to see to understand what it means. The fact is this: wild life has nearly disappeared in the North due to the fact that white people have been allowed to enter the wilderness. White trappers and fishermen, having no lively interest in the preservation of fur, game or fish, kill and catch as much as they can. They use the airplane to invade the remotest sanctuaries where wild life is reproduced. They annihilate rats' and beavers' families; they empty lakes and rivers from any valuable fish and they go further when there is nothing left in their first fields of operation. The natives have to stay and make a living in the country.

There is a remedy, drastic but the only one effective. It would be to close the North Country to White trappers and fishermen. The small loss of revenue produced by the sale of licenses to white people would be largely compensated not only by the saving of relief but especially by keeping the Indians busy. Laziness is bad for white people; it is mortal for Indians.

The problem is serious enough that every man in responsibility should stick at and bring his share to find an adequate settlement. It is useless to work against nature. The Indians of the North are bush Indians as you say; let the bush be habitable for them and they will make a living.

The reports on trapping are discouraging. No fur at all; hardly a few moose. What will happen next summer? Most of the families will not have a nickel to buy clothes and food. And it will be worse in the coming years unless drastic measures are adopted to protect and reconstitute the source of wild life. This can be performed by reserving trapping and fishing to Indians.

Excuse me, Sir, if I have kept you so long on our main problem here.

The Superintendent of Indian Agencies is leaving for Alberta next week to confer with the Provincial Government authorities with a view to obtaining a large area of land on which the Indians only would have hunting privileges. If this can be arranged I feel you will agree that it would be of great benefit to the Indians. You will be informed later regarding the result of our negotiations.

Mr. R. A. Hoey,
Supt. of Welfare & Training,
Indian Affairs,
Ottawa.

Dear Sir:

I have received a copy of the letter concerning the Indians of Little Red River and their dissatisfaction at being compelled to send their children to the school at Fort Vermilion. This letter, File No. 131-13-10, was addressed to Rev. F. S. Lajoie, Administrator of Grouard, also the Regulations to be followed in future regarding the age limit for the discharge of the pupils of this school, for all of which I wish to thank you.

We have always had considerable difficulty with the school attendance in this district, due to the fact that there is no resident Agent near to the school. Mr. L'Heureux, our Agent resides some 400 miles from here, and partly too, because the school is so far from some of the Reserves from which our pupils come.

These Reserves are the Little Red River, 60 miles, and the Tall Cree Reserve 45 miles, for the Crees. The Slaves are not as yet constituted into reserves. They are at Hay River, 90 miles, and at Hay Lakes, 125 miles. The pupils from this district that we have are mostly orphan or destitute children. The two Beaver Reserves of Eleske, 24 miles, and Boyer River, 12 miles, present little difficulty as far as distance is concerned, the point to be gained with them is to have all the pupils of school age brought to school for the opening of classes, September 1st. The Beavers can and usually do bring in the children, but never for the first day.

It is the more distant pupils of Tall Cree and Red River who give us most trouble. It was for this reason that we appealed for assistance to Constable Grayson this year. Would it not be possible for some arrangement to be made, as he suggested in this report, through Mr. L'Heureux, at Treaty time, that the Indian Department do something about this matter? At Grouard and at Jousard the pupils are brought to the school by their parents, or if difficulty arises, by the Agent, or some one, authorized by him, I believe. Could not some such arrangement be made for us? If so, it will be greatly appreciated, and will do much to eliminate a good deal of the trouble we have each year in September.

It is true that the Red River Indians are not satisfied with the present arrangement of affairs. They say it is because the school is so far from them and they cannot see their children from September until June. And I believe too, they do not like to be urged too much to put the children in school. But since the boys are to be discharged at 14 years hereafter, that should encourage them to send in the younger children. That is the difficulty to get in the children at 7 years.

These Indians of Red River and the Slaves of the Hay Lakes and Hay River district have repeatedly asked at Treaty time that the Agent and the priest in charge speak to the proper authorities concerned in their favour, about having a school in or near their reserves, then assuring us that they would send in their children willing, as they would then be able to visit them from time to time, but they find the school at Fort Vermilion too far away from their homes. This is a very legitimate proposition, and worthy of consideration by the civil and religious authorities.

I will greatly appreciate any assistance you may be able to give us in these matters.

Truly yours,

Joseph Habay

Dear Sir,

I am requested to transmit to the Department a bill covering expenses incurred at Fort Vermilion for transportation of the children in July and in September. I don't delay the forwarding of this bill with the reports on repair work as I foresee to be in great need of money by the end of this month. The coming of the winter is imposing heavy buying.

The dry weather keeps on. No serious rain since a year. Besides the failure of the crop, we are facing fire hazard. Unless it rains this fall, we will have to spend quite a sum cleaning around here. Expense and anxiety.

Believe me, Dear Sir,

Yours truly,

Dear Sir:

In reply to your letter of October 5th,
File No. 5-121 we are forwarding you the information
we have at hand, and we regret that we have not more
to give you.

Frederick Hamelin, son of Alec Hamelin. Alec is the
son of Charles Hamelin originally of Grouard. He is
a trapper, but unable to support his children who are
destitute. His wife (Mary Chalifoux) is dead. She was
descended from a Non-Treaty Indian Kitotchigan.

Victor and Henry Hamelin sons of Samuel Hamelin and
Marian Courtoreille. The father Samuel is descended
from the same Charles Hamelin of Grouard. Marian his
wife has Indian blood being descended from Okiwekop.
His sister was Osimatas. Samuel is a trapper and the
family lives in real Indian fashion.

Nora Alice and Daniel Hodgson children of Nora H
Hodgson. Nora was herself of illegitimate birth.
She was later adopted by Adolph Hodgson. She has never
married and because of her evil living her two little
children were taken from her and given into the care
of the Mission Authorities at Fort Vermilion.

Dear Sir,

I beg to enclose herewith the applications referred to in my letter to you of the 5th instant with respect to the admission of non-treaty children in Fort Vermilion Residential School.

Re: Victor and Henry Hamelin. A previous application was made to the Department on October 23, 1937 which you refused per your 131-13-10 of December 16, 1937. Additional information now submitted indicates close relationship to full fledged non-treaty Indians. This family is from Little Red River.

Re: Frederick Hamelin. - This is a first application. His case is similar to the preceding one.

Re: Alice and Daniel Hodgson. - There is no indication that these children are Indians; informations given would rather tend to show that this is a case for the Officer of the Neglected Children Branch of the Provincial Department of Public Health to whom the Principal of the school should apply for grant.

I enclose herewith with the applications for the above the letter of the Principal covering same.

Will you kindly let me have your decision as to their admission.

Yours faithfully,

Dear Sir:

I am in receipt of your letter of the 12th ultimo enclosing applications and certificates of health for the admission of Victor and Henry Hamelin, Frederick Hamelin and Alice and Daniel Hodgson to the Vermilion Indian Residential School.

From the information contained in your letter the Department does not consider that these children are eligible for admission as grant earning pupils to an Indian Residential School. Consequently it will not be possible to allow per capita grant for them. In this case also I would again direct your attention to the ruling contained in official letter of December 10, 1937, copy of which is enclosed. What has been said regarding applications for admission of halfbreeds to the Sturgeon Lake School applies also in the case of the Vermilion and other Residential Schools in your Agency. The Department trusts that the Principals will carefully review circular letter of December 10, 1937, and confine their recruiting efforts to treaty Indian children.

Reverend Sir:

I received your letter of the 4th ultimo enclosing account covering the cost of transportation of children to and from the Fort Vermilion Residential School during the past summer.

The account amounted to \$169.00 but as the amount available for travelling expenses is very limited and as no special provision was made for the Vermilion Residential School due to the fact that you did not apply to the Department for authority to incur such expenses it was only found possible to allow an amount of \$100.00, a cheque for which amount is going forward to the Principal of the Vermilion Residential School.

I note that the account included charges of \$57.00 for transporting children from the school to Red River. Would it not have been possible to have the parents come for the children? It should not be necessary to transport children both ways as the parents should show sufficient interest in the children to either come for them at the beginning of the holidays or return them at the close.

Your letter 131-13-10 of July 25, 1939.

The above pupil has no relative able to support her if she is discharged from school now. Obviously this is one case where the pupil should stay in school until she is married or finds work in a reputable family.

I recommend that she be kept on the roll of the school for the current academic year. The letter from the principal of the school is attached.

Headquarters	1. The above named came to this office at noon of the 2-10-39, to notify that the following Treaty Indian children had been mission from the St. Henri Mission School since 9 AM of that morning: Ambrose TALL CREE, Gabriel MINIE, and Ernest AUGER. These boys, aged 12, 11 and 9 years, respectively, had failed to answer the Breakfast Roll-Call and had last been seen in the school yard just prior to 9 AM. TALL CREE and MINIE both come from the Tall Cree Reserve, 60 miles south of this point, and where their parents are residing. The AUGER boy's home is near Little Red River, which is 65 miles east of Fort Vermilion, on the Peace River. There was no immediate information as to where these boys may have gone	
Sub-Division		
Detachment	2. Investigation disclosed that the missing lads very probably had run away from School and would attempt to reach their homes. Since they are very young it was urgent that they be located as soon as possible, due to the danger of their becoming lost, or being drowned in the River. The road to the Tall Cree reserve is a bush trail for about 50 miles and then the road reaches the Tall Cree Prairie. This is a very isolated district, the road is seldom travelled and no one lives on or near it. At 5 PM of the same day was hired locally, and I sent S/Cst. Bourassa of the detachment along this trail to make an effort to locate one of these lads travelling on foot. He was instructed to make every effort to locate tracks and should any be found to follow and apprehend and return the boys.	
P. C. R.		
Ft. Ver. First.	3. Several years ago, several Treaty Indian boys attempted to escape from the school by stealing a canoe and floating down river to Little Red River. I then made a careful check of the settlement for any stolen canoes, boats or rafts, and also searched the surrounding district for these boys. Since S/Cst. Bourassa did not return late PM, I presumed that he had found signs along the Tall Cree Reserve road and was following. He returned the following day with TALL CREE, MINIE and AUGER, reporting that he had overtaken them about 33 miles from Fort Vermilion, they having covered this distance in 24 hours. He reported that the Loon River was in flood, and he had extreme difficulty in crossing. The boys were suffering from hunger and exposure, having become thoroughly soaked crossing the river. He built a fire and rested a few hours during the night. Bourassa stated that they were in some danger of becoming lost, as the trail has recently been burned over and the trail was not clearly marked.	
	4. On this date I interviewed the boys and gave them a thorough warning not to repeat this attempt.

Compl. of TRUANT INDIAN CHILDREN

4. Con't (I also) discussed with Father HUGERRE the question of preventing further attempts by any of the children to run away from the school. I suggested that a more careful watch be maintained during the recess periods, and if it was necessary, a more frequent Roll-Call when the children are gathered in large groups.

5. I wish to respectfully draw attention to the sense of responsibility and efficiency displayed by S/Cst. Bourassa on this case. His natural ability to follow tracks and the effort he made to overtake these boys before they reached the open prairie, did much to effect their safe return. On the return trip it was necessary for him to give them food as they had not eaten for 36 hours and were in an exhausted condition. Team was hired at a flat rate of \$3.00 per diem.

Schoff
Dear Sir,

I am submitting for payment voucher #344 herewith in favout of Rev. J. Huguerre, Principal of Fort Vermilion Residential school for \$180.50 covering expenses incurred for the transportation of Indian pupils to and from their homes.

It is the first time that an account for this purpose is submitted to me, I am therefore passing it on to you for your decisions.

OK
I am aware that you grant a small subsidy for this purpose to the Episcopal Corporation of Grouard, for last September when preparing the Estimates, I was approached by Rev. Father S. Lajoie for an increase of this subsidy. It is especially at Fort Vermilion, due to remoteness and breadth of the district, that the collection of Indian pupils is costly; for this reason I feel I can safely recommend the payment of the account.

Yours faithfully,

N. P. L'Heureux

EXCERPT from letter of Doctor H. A. Hamman, Fort Vermilion,
dated January 20th, 1940.

..... More and more children are being brought into the school (Fort Vermilion Residential) in accordance with your instructions that various adults will lose ration rights if their children or grandchildren are not placed therein. Accomodation is taxed to the utter limit and more are coming. Not a single cot is now available. But, more imprtant, the health of all is going to be seriously affected if more are entered as the cubic air space of dormitories and school rooms is already asked to do too much to keep up a steady amount of fresh air for all. The Mission will have to enlarge its premises if the school population grows very much more. The Mission authorities have not mentioned the matter to me in this strain. I do know any further influx should be stopped at once. There is however, one child, a girl, daughter of Julie Toby, now in hospital, that I would like to place in school as soon as she is well, as she was a pitifully wasted spectacle when she arrived - also her mother is a ne'er do well.

Yours truly,

(Sgd) H. A. Hamman.

DEPARTMENT

Sir:

The following letter has been received from Mr. N. P. L'Heureux, Indian Agent, Driftpile:

"File 5-121.

Driftpile, Alta.,
January 24th, 1940.

"Dear Sir:

" I beg to enclose herewith excerpt copy of a letter received this day from Dr. Hamman regarding the overcrowded conditions at the Fort Vermilion R.C. Residential School.

" I have communicated with Rev. Father Lajoie regarding same and have suggested to him the release of non-Indian pupils who are in residence and for whom no school grant is paid by our Department. Father Lajoie said that they are very few and will not suffice to meet the conditions complained of by Doctor Hamman.

" He has suggested, in addition, the removal to Grouard Residential School, of all Indian pupils who are orphans and without near relatives. There are six or seven pupils in that class.

" One class room will be freed for our Indian pupils next spring when the Fort Vermilion School District move to their own building.

" Additional dormitory space will be available when the hospital is constructed. It is a matter of time.

" For your information I will add that there are 88 pupils enrolled at that school on December 31st last. (Quota 65).

" Father Lajoie has requested to communicate to His Lordship Bishop Langlois, presently in Ottawa, 600 Cumberland Street, the excerpt of Doctor Hamman's letter. I am therefore forwarding same to him, together with a copy of this letter.

Yours very truly,

Dear Bishop Langlois:

I am in receipt of a letter from Inspector Schmidt in which he states that he has received a letter from Indian Agent L'Heureux regarding a report of Dr. H. A. Hamman. The latter states that there is very serious overcrowding at the Vermilion Indian Residential School and as a result there is not sufficient cubic air space in the dormitories and class rooms to accommodate the number of children in residence.

I know you realize the seriousness of overcrowding a residential school and consequently it is hoped that immediate arrangements will be made to discharge certain pupils in order that there may be sufficient air space for those that remain.

Yours truly,

Dear Mr. Hoey,

May I add a few words about that famous Vocational School at St-Augustine. I have received no help so far, but it will be impossible for me to keep it open for a very much longer period of time. I'll be very sorry if I have to close it, because it is doing good to the ten girls attending it, and it would be such a boon for all our girls to follow that post-graduate course.

I am asking you what you intend to do and what help you expect to be able to give me next Fall, because I'll have to come to some decision before the month of June.

With my best personal regards,

Mr. A. Hoey,
Supt. of Welfare & Training,
Indian Affairs, Ottawa, Ont.

Dear Mr. Hoey,

I acknowledge receipt of your letter of Feb. 6, 131-13-10.

The complaints made by Dr. Hamman caused me to write immediately the Rev. Father Principal at Fort Vermillion about the apparently serious situation developing at his School. Be sure Rev. Father Huguere will remedy that overcrowding condition as soon as possible. I cannot understand how this has happened, unless many children have come all at once from the Little Red River.

As you know, Mr. Hoey, the number of Indian children is increasing everywhere, and this should be considered as the most eloquent and irrefutable plea in favor of the excellent work done by the Residential Schools for the rehabilitation of the Indian tribes. At the same time, this increase in number creates new conditions in our schools; some of them have to be replaced without delay, because tottering and entirely lacking modern accommodations as it is the case at Sturgeon Lake, others have to be emptied of all other social services which until now had been sheltered therein, as it is the case at Fort Vermillion where a small hospital has occupied for years a good portion of floor-space.

I am perfectly aware that the entire possible floor-space of the School must be from this day consecrated to house our Indian children only. This will be done, I hope, in the near future, if the Department gives me a little helping hand.

First, in connection with the class rooms, the situation will be remedied next summer by the building of a separate school of 2 class rooms for Breed pupils, so that the existing class rooms will be exclusively used for our Indian children. A concrete foundation has been already put in this Fall and the new separate school should be finished early next Spring.

Second, the dormitories will certainly give ample cubic air per child in residence, when the space occupied by the Hospital is restored to the School children. I am working on a report I promised Mr. Jackson on the hospitalization problem at Fort Vermillion.

The need for a Hospital in that locality is evident and pressing. There is 1000 Indians in the District and the closest Hospital at hand is that of Peace River, 200 miles south by plane. We did our best, in the circumstances, to alleviate the situation and, as there was ample room at the time in the new Residential School building, a portion of the second floor was closed in which has been used since as a temporary Hospital, where two and often more nurses are on constant duty.

Now, the number of children having increased and the hospital accommodations having become inadequate, it is time something is done and a modern Hospital of about 15 beds is built.

With this end in view, I had a sketch prepared and I intend to ask the Hon. Minister, through his Secretary Mr. Jackson, for a grant of at least 40% of the total cost of the building. Dear Mr. Hoey, I know you can do much to assure the success of the steps I am about to take. This is why I have written you at such a length and end this letter praying you to intercede in favor of the immediate construction of this much needed Hospital at Fort Vermillion, so that the sick people of the District may receive the proper care to which they are entitled, and at the same time no School age children be deprived of education.

With my best personal regards,

Indian Affairs. (RG 10, Volume 6377, file 766-10, part 2)

I am in receipt of your letter of the 15th instant and have carefully noted its contents.

Owing to the dissolution of Parliament you will realize that it is impossible for me at the present time to state what funds will be available in our appropriation for the fiscal year 1940-41. Dear Sir:

An amount of \$135.00 was allowed last year for the transportation of children to and from the Vermilion Residential School. Owing to a drastic reduction in our appropriation for the current fiscal year it will not be possible to consider expending an amount of more than \$65.00 for the transportation of children to and from the school during the summer of 1940. You should, therefore, co-operate with the Principal in arranging to have Indian parents provide, free of charge to the Department, the transportation of their children to and from the school.

Yours truly,

Philip Phelan,

Dear Mr. Hoey,

I wish to thank you for the admission to the Domestic Training Department of our school of the four Indian girls from the school at Fort Vermilion.

OK
In connection with this, the Principal of the Fort Vermilion school has written me that one of the girls admitted for classes here next year is Annie Collin, an orphan girl with only one younger brother. This boy, Jimmie Collin, is a pupil of the Fort Vermilion school, but is very anxious to follow his sister to this school. The Principal there agrees with me that it would be an act of kindness to allow them to remain together, instead of parting them. For this reason, I am asking your authorization to proceed with the request for discharge of Jimmie from the Ft. Vermillion, and his admission to this school.

Hoping that this request will meet with your approval, I am

Yours truly,

Joseph Habay

Dear Sir:-

In reply to your letter of the 19th instant, in connection with a communication received from Mr. S.C. Dineen, copy of which you have supplied me with.

I am informed by the District Inspector of Provincial Schools that Mr. Dineen is a school teacher at a school located about 20 miles from the town of Fort Vermilion. He does not remember the name of the place nor of the school district but I presume it must be in the fairly well settled district north-west of Fort Vermilion where the Ukrainian element predominates.

As you have directed him to me, I am not communicating with him.

Dear Sir:

I submit herewith my voucher No. 445 in favour of the Fort Vermilion Indian Residential School for the transportation of pupils to and from the school during June and September last.

The content of your letter 131-13-10 of May 11, 1940 was brought to the attention of the Principal at the time it was received here and was again referred to when the account was submitted. In reply the Principal states that it has not been possible to keep the expenses within the limit of the amount of \$65.00 authorized as heavy rains throughout the season have made trails very heavy and slowed down considerably their means of transport.

I recommend therefore that if the whole amount is available that payment of the account at \$112.00 be paid.

Yours very truly,

Dear Sir:

In checking the June quarter return of the Vermilion Residential School it is noted that the name of Louise Freeman, No. 0229, is not shown, although her name appeared on the March quarter return and no application has been received in the meantime for her discharge. Please advise regarding this girl.

Pupils 213, 0169 and 0171 are 16 years of age or over. The Principal should either apply through your office for their discharge or should request permission to keep them for a longer period. In the latter event definite reasons should be stated for wishing to take such action.

The names of the pupils numbered as follows have appeared on the returns for the last three quarters but do not appear to have been in the school for any part of that time:

No. 174	No. 0178
" 181	" 0195
" 203	" 0196
" 208	" 0202
" 210	" 0203
" 215	" 0206
" 222	" 0207
" 0168	" 0213
	" 0218

Apparently these pupils are absent for various reasons and the Principal should apply for their discharge. If at any time in the future it is desired to re-admit them, application for such re-admission can be made.

Ottawa,

Dear Sir:

I am in receipt of your voucher No. 189 for \$164.50 covering the cost of transportation of children to the Fort Vermilion Residential School. This account is being paid. However, I would point out that we previously received from you voucher 108 for \$32.50. This makes a total amount of \$197.00 that we are allowing for transportation to and from the Vermilion School during the summer of 1942. In 1941 we paid your voucher No. 445 amounting to \$112.00. In 1940 we paid voucher 414 for \$118.00. You will, therefore, see that the expenditure in this particular regard is being allowed to increase and in no case has the Principal applied for authority before incurring the expenditure. You should advise him immediately that we will not be in a position to pay any further expenses for transportation of children during the current academic year at this school and, as far as the summer of 1943 is concerned, you should write to us early in June stating the probable expense that the Principal wishes to incur for transportation and it will then be decided what amount, if any, can be allowed.

Yours truly,

Philip Phelan,
Chief, Training Division.

The December quarter return of the Vermilion Residential School shows a large number of pupils absent without authority. Conditions at this school appear to be similar to Sturgeon Lake and Grouard about which I am writing you in concurrent letters. It is evident that a number of children were allowed home on holidays in June and have not yet returned. In such cases their return will only be obtained by full co-operation between the Principal of the school and our agency officials. I trust that you will co-operate with the Principal immediately in having the absentees returned.

An application should be forwarded for Charles Fournier, No. 235.

Dear Sir:

In reply to your letter here inclosed, dated November 30, 1942, here is a rough estimate of the expenses for the transportation of the children to and from the Fort Vermilion School.

I-For transportation TO Fort Vermilion School:
There are two groups of children we must pick up every fall: one from Reserve no. 162, the other from Reserve no. 173.

1-From Reserve 162, at Red River, there are 25 to 35 children coming to our school. This reserve is 75 milles down the Peace River; and to reach the Reserve we have to go over 12 milles portage at Fort Vermilion Chutes. Moreover in the early fall many families are out in the woods in quest of their living. In those circumstances the round trip will take seven days:

a-A freighter with his own boat will not make that trip for less than \$50.00. \$50.00

b-We estimate that the care and food for one child are at cost .50 per day; for 30 children with an average of 3 days care for each child: \$45.00. 45.00

c-A trip east of the same Reserve by Sping lake, Stinking River, Moose Lake; four days with a guide and his horse; at \$5.00 per day: \$20.00 20.00

2-From Reserve 173. This Reserve is 75 milles south of Fort Vermilion. The means of communication is a very bad summer trail.

a-The round trip will take at least 6 days at \$6.00 per day for the team and the driver: \$36.00 36.00

b-The care & food for 8 children at \$1.50 12.00

II-For transportation FROM Fort Vermilion School:
To return home the children it is much easier because their parents have some money on hand in the spring with the closing of the trapping season and they come often half way to meet us, generally at Fort Vermilion Chutes. In these circumstances, to return home the children the total expense should not exceed \$40.00 40.00

Total..... \$203.00

Indian Affairs. (RG 10, Volume 6377, file 766-10, part 2)

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

Then the total amount required for the transportation of the children to and from Fort Vermilion School would be about \$203.00.

If during the past years those expenses were lower it is only because the missionary, who was using his own boat, did not charge his time and the use of his boat; but when we travel with the Hudson Bay Company's boat or any body else's boat, we must pay the fare and this expense have to be figured out in the total estimate.

Hoping that the Department will take in favorable consideration our request,

I remain,

Sincerely yours,

B. Rainville, O.M.I.

Mr. N. P. L'Heureux, Indian Agent, Driftpile, Alberta.

I have your letter of the 25th ultimo, enclosing communication from the Principal of the Vermilion Residential School with reference to the cost of transporting children to and from the school.

The funds at our disposal will not permit our paying the total cost of transportation of children to and from residential schools throughout the Dominion. Consequently, at all schools we only allow a portion of the cost. In view of the size of the Vermilion Residential School, it is felt that an allowance of \$150.00 is reasonable. Consequently, you should inform the Principal that the Department will allow, for the year 1943, an amount of \$150.00 towards the cost of transportation of the children. Payment of this amount will be made upon receipt, from you, of the usual voucher, to which you should attach receipts showing expenditures made by the Principal, to an amount not exceeding that stated above.

Re: Truant Indian Children-
Fort Vermilion Residential School

Reference your letters January 23rd, and April 15th. The pupils showing as absentees on the School Quarterly Returns are all, with the exception of a few listed in this letter, from Little Red River Reserve and the parents absolutely refused to send them back to school last September, giving for reasons the long distance and the high cost to go and see their children at Fort Vermilion.

The Department is no doubt aware of the distance and particularly of the difficulties existing on the road between Fort Vermilion and Little Red River. From Ft. Vermilion to the Chutes the trip is being made by boat, then about 15 miles by horses and to reach the Indians homes several modes of transportation have to be used; horse back, canoe, etc... and the cost of a full trip is excessive. If you refer to accounts submitted by the Fort Vermilion Mission in connection with trips taken to recruit the Red River school children in the past years you will ~~have~~ be in a better position to understand the situation.

The mission made three trips last Fall but with very little success, even with the co-operation of the Chief who has a great deal of influence over his Band, but they have not be able to convince the Indians to release their children. When visiting this Reserve, at Treaty time I generally make it a point to emphasize the necessity of sending their children to school, knowing their attitude, but all this has very little bearing on them, and the only solution I can see to this problem is the law, and I will not take steps unless instructed by the Indian Department to do so.

The following are the few pupils who are absent for some valid reasons:

0222 M. Rose Auger - Ticket No. 70 Ft. Vermilion.
Family non-Indian.
0237 Henriette Nooskiye - Non-Treaty
0221 Madeleine Nooskiye - Non-Treaty.
221 Wm. Freeman - Ticket No. 227 Upper Hay River.
Too far to go back to Ft. Vermilion.
174 Ambroise Tall Cree - Ticket No. 41 Ft. Vermilion.
Family residing at Little Red River.
195 Julien Adekat - Ticket No. 79 Boyer River Reserve.
In High Prairie Hospital since last Summer.
202 Albert Dumas - Ticket No. 47, Ft. Vermilion.
Family residing at Little Red River.
203 Gabriel Minin - Ticket No. 45, Fort Vermilion.
Family at Little Red River.

Mr. N. P. L'Heureux, Indian Agent, Driftpile, Alberta.

In checking the June quarter return of the Vermilion Residential School, the ages shown on the return in regard to some pupils do not correspond with the information contained on the original application forms. I instance the following:-

No. 0188 is shown as 15 years of age. When she was admitted in 1935 it was stated that her age was 9 years. If this information was correct, this girl must be now nearly 17 years.

No. 0187 is shown on the return as 15 years of age. When she entered in 1935 it was stated that she was 8 years of age. Consequently, she must now be 16.

Pupil No. 178 is shown as 15. When he entered the school in 1935 he was stated to be 8. This would make him 16 years of age now.

No. 213 is shown as 16 years of age. When he entered the school in 1939 his age was stated to be 13. If that information was correct, the boy must now be 17 years of age.

It would be appreciated if you would check these ages and let me know which is correct.

You may inform the Principal that the Department approves the admission of the following:-

Wilbrod Russel Francis, Jimmy Bastan. and Marie Ann Bastan.

I refer to the letter of the Chief, Training Division of the 9-7-43 under the above file heading. Whilst at Fort Vermilion in August of this year I discussed this matter with the Principal of the School, Rev. Father Rainville. The facts are:

No. 0188 was born on 20-3-27. She was 16 in march of this year. The age at the date she entered school for the Fall term is carried on the records until the following June. She entered in Sept. 1942 and was 15 years old then and this age is still shown in June.

No. 0187. Was born in Feb. 1927. Same as No. 0188

No. 178 Was Born Mar. 1927 " " " "

✓ No. 213 Was born 17-3-26. The Principal wrote to the Department on 25-9-42 requesting special authority to keep this boy in school. He is an orphan.

In the above connection I wish to advise that the Treaty Lists show the above named children as being older than 16 years in the first three cases and No. 213 is shown as 18. However these census ages were supplied by the parents in many cases and cannot be considered accurate. I went into this matter very closely with Father Rainville.

We are making an exception in the case of Maggy Nanotch, as she is 16 years of age. It would appear in her case that it would have been preferable to send her to Grouard where she could take the special vocational course which they have been giving at that school for the past two or three years. I suggest that you discuss this possibility with the Principal of the Vermilion School.

Dear Sir:

Re: Nora Marie Moberley

The above mentioned child for which I enclose the Application for Admission, has been in our school for the past three years. The teacher thinking that the child was no more Treaty, did not make the Application for Admission, and then the girl did not appear on the quarterly report.

As our school in the past did not have its full authorized pupillage, would it not be possible for us to be refunded of the grant payable for this child.

yours truly

Ottawa, May 9, 1946.

Mr. Adrien Landry, Indian Agent,
Driftpile, Alberta.

It is noted, from the March Quarter return of the Vermilion Residential School, that pupils numbered 0244, 0251, 239 and 240 are day pupils only. We do not allow grant for day pupils and, consequently, the 59 days' grant requested for each of the four children whose numbers are given above is not being allowed.

On the return there are the names of several pupils who have been absent for three quarters. If they are not likely to return in the near future, I think the Principal should apply for their discharge, so that their names may be removed from the return. If they wish to re-enter the school at any time, application can be made for their re-admission.

This girl returned to school on the 1st day of January.

Re: Frank Chonkalay Reg. no. 259

These two pupils left school on the 23rd of March.

Regarding the quarterly Returns, kindly
let me know if the column "Date of Entrance to School"
calls for the date of the first entrance or for the
date of entrance for the present year. Also under
the column "Age" do you want the total of the "ages"
as to find an average of age in the school, or just
a total of the pupils as we always have done?

Yours truly,

Dear Father Rainville:-

With reference to your letter of the 7th inst., the exact date on which a pupil first enters a residential school should appear under the heading "Date of Entrance to School" and should be retained for the full period of residence. If during any quarters a pupil does not return to school on time, this information should be given under the heading "Remarks".

Under the column headed "Age"; we do not require this column to be totalled.

RE: Indian Department: School Attendance - Treaty Indian
Children, R.C. Mission School - Ft. Vermilion, Alta.

(1) On the 31-8-47, FR. RAINVILLE, I/C R.C. Mission 1st. Vermilion, reported to this detachment requesting Treaty Indians in the district be advised of the opening date of the Mission school for Indian Children.

S/D
28-36-47

(2) FR. RAINVILLE stated in the past it had been the practice of the RCMP to warn all Indians of the importance of sending their children to school, that it had been the experience of the school in the past that if no warning was given parents of these children they would not attend, or would drift in to school as late as three weeks after the opening date. It was learned the opening date for the Mission school was, 1-9-47, this for registration and placement, that school classes would begin, 2-9-47, therefore it was important that all children be on hand in time for classes.

Detch.
47V-62

(3) At 11-AM, 31-8-47, via hired car patrol was made to Stony Point district where A. LIZZORTE was hired as interpreter, and with him patrol continued to the Elsie (Child Lake) Indian Reserve where the chief, councillors and parents were warned of the school opening and advised to have their children report accordingly.

PCR
First

(4) Patrol also covered the Bulldog Reserve where the same warning was issued, returning to Ft. Vermilion where scattered families were contacted and warned of the opening date. Posters supplied by the Mission advising all children over the age of 7 years and under 16 years to attend were posted in strategic places for the information of all who could read and pass the word to others.

(5) Patrol returned to detachment at 7-30 PM, same date, advising the Mission of district covered.

(6) On the 1-9-47 FR. RAINVILLE called at this detachment stating he expected no further trouble with absentee's as they were arriving at the Mission as instructed, and requesting Indians reporting for rations from outlying points be checked as to the school attendance of their children. As it appears from reports the children are attending as desired it is considered no further action is required, consequently this file is being concluded.

The attached account from the Principal of
The Fort Vermilion Residential School, covering fares
of children being transferred to the Grouard School, is
being forwarded for a decision.

I consider there was no urgency in this matter
and the girls in question being only 14 years of age, and
in Grade V. any transfers could be made at the close of
the present term.

Please advise what you recommend, for future
guidance.

Dear Father Rainville:-

Indian Superintendent Walker has submitted to us an account covering the cost of transportation of two girls transferred from the Vermilion Residential School to the Grouard Residential School. It is noted that these girls were sent by air.

Our records indicate that these girls were only fourteen years of age and in Grade V. Why was it apparently considered necessary to send them in the middle of the term? Would it not have been possible to defer their transfer until the end of June?

I would like to point out that owing to its cost we want to avoid as far as possible, moving children by air. If the transfer had been delayed until the end of June, their transportation would not likely have been necessary.

I would appreciate hearing from you in the matter. In the meantime, payment of the account will be withheld.

Yours sincerely,

Bernard F. Neary
Superintendent of Education.

Mr. Bernard F. Neary
Superintendent of Education
Indian Affairs Branch
Ottawa, Ont.

Dear Sir:

YF: 131-13-10 (E.1)

In reply to your letter dated March the 23rd regarding the transportation of two girls to the Manual Training School at Grouard, I beg to advise as follows:

Albina Kidney is 16 years of age as she is born in November 1931. -- Albina Adekat will be 15 years of age, she is born in April 1933.

These two girls in my opinion were well prepared to profit by the special course given at Grouard's School. Both of them were glad to leave their relatives for the sake of a better education, but Albina Kidney would not have accepted to go alone; so for the sake of giving the older girl a better education, I thought I was justified to send with her a companion that was able to profit by the course.

It is true that I could have waited for the River Transportation and then cut in half the transportation costs.... At the end of December, Indian Superintendent Walker requested that I should take in the school the Beaulieu's family, Upper Hay River Band no. 226, orphans, the mother had died few days before. As I had not a bed vacant my only alternative was to discharge older pupils. Helen Attilon (16 years old) was discharged and returned home; and the two mentioned girls were immediately transferred to Grouard and I wrote immediately to the Department for approval.

Yours very truly,

B. Rainville

Attached hereto is our Voucher No. 8 of
January 10th, 1950.

Apparently the receipts for labor, etc., were
never taken at the time. Bringing in the school
children from the isolated camps in the Little Red
River district is a very difficult undertaking which
the Mission has done in the past. It will be
impossible for the St. Henri Mission to collect any
other receipts, to support the attached account, at
this time.

I would recommend that this account be paid as
it is if at all possible.

The above noted is the illegitimate child
of Albina Kidney, Slave Band No. 262, and is in very
poor health. The mother is unable to care for the
baby.

Can the child be placed under Mission care
under the usual per capita grant? This is the only
solution I can offer.

Re: Bernard Michel Kidney -
Your File 147-12-6

It is noted from your letter of February 6th that the mother is unable to care for this child, and although he is extremely young, we are prepared to approve his admission to the Vermilion Residential School if the Principal is willing to accept him.

His name should be placed on the quarterly return so that per capita allowance can be paid for him.

This is an exceptional case, and should not be taken as a precedent for the admission of other children under school age.

Reverend Paul Serrand,
Principal,
Fort Vermilion Indian Residential School,
Fort Vermilion, Alta.

Dear Father Serrand:

The June Quarterly Return for Fort Vermilion Indian Residential School is returned as it will not be possible for the Department to put it through Treasury for payment in the present form.

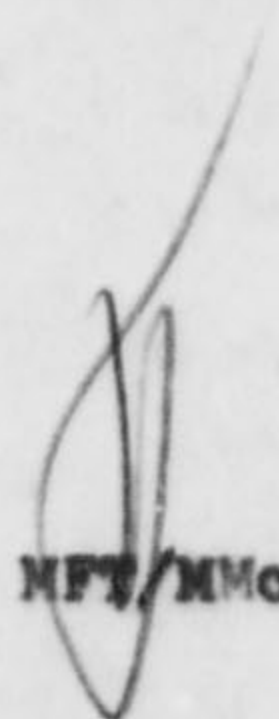

You have shown a number of pupils to be in residence for 84 days. It is presumed that these pupils have completed their academic work and left for home before the end of June.

The practice followed by the Department for cases of this nature is to claim full grant on the June Quarter and make the adjustment on the September Quarter, for it is probable that the pupils who left the residence early might return early and this would make it impossible to adjust on the return.

Please adjust the attached return accordingly and return. In the meantime we are forwarding you a part payment of \$4,000.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

Re: Voucher No. 247 - Billy Batt (July 29) \$40.00
" " 266 - John Ward (July 31) \$144.15

Attached hereto are duplicate copies of the
above noted vouchers. These were forwarded to the
Indian Affairs Branch at the end of July.

Both of the men in question have been into
the office and have stated that they have not received
their cheques in payment. We therefore wrote to the
Indian Affairs Branch on August 30th, 1950, concerning
this matter.

Today we are in receipt of a reply from
Colonel H. M. Jones, Superintendent - Welfare Service,
under date of September 13 (file 147/27-2 (W.2)). He
states that the above noted vouchers cannot be found.

When we wrote our letter of August 30th, we
did not list the vote and allotment numbers of the
vouchers. In the case of Voucher No. 247, it is 516-03-311.
In the case of Voucher No. 266, payable to John Ward,
it is 516-13-491. We are now wondering if our failure
to quote the allotment and vote numbers may have caused
some confusion and if our letter was given to Colonel
Jones in error as we believe the vouchers would be sent
to your office for your approval. At Colonel Jones' sug-
gestion, we have made out duplicates of the vouchers and
have attached our file copy of the accounts. Would you
please check this matter for us as the men are very anxious
about their money as both are badly in need of it.

P.S. Since writing this
letter, John Ward came into
the office and states he has now
received his cheque.

S. C. Anapp,
Superintendent.

Rev. Paul Serrand,
Fort Vermilion Indian Res. School,
Fort Vermilion, Alta.,

I have your September Quarterly Return.

On checking this return it is noted that you are showing a number of pupils who have been out of residence for one reason or another, in some cases up to three years. This practice is not satisfactory as the return shows there is a larger number of pupils in residence than actually enrolled.

It is suggested, therefore, that you apply to the Department by Form I.A. 411 for the approval of the discharge of all pupils who, in your estimation are not returning to school at all or those who will probably not return within the next six months.

In the event of any pupils returning after being discharged you will be obliged to secure authority from the Department to re-admit them. You will note that you show the enrolment at the school to be 119 pupils while the average is 76. You can see the discrepancy.

On your September Admission and Discharge Form you have shown that thirteen children have been admitted to the school for institutional care. On checking our files, it is noted that no applications for the admission of these children have been received in this office, consequently their admittance to the school has not been approved. Technically, the Department is not obliged

Re: Quarterly Return - Fort Vermilion
Indian Residential School.

Attached hereto is quarterly return for the quarter ending December 31st, 1950. Also attached are Application for Admission forms.

You will note that a great number of these forms are not signed by the parents. I would like to point out the difficulties encountered in getting the children to school. In the fall of the year the Indians of this Agency are scattered throughout the bush on moose hunts and the problem of getting the children in to school always has been a difficult one. This year I put the onus on the Chiefs and Councillors. They rounded up the children and brought them to school. As the Chiefs and Councillors cannot read or write, it would be very difficult for them to take a set of forms and obtain signatures. Therefore, I would assume that if the Chief or Councillor brought in the children, they came with the parents' consent.

It will be physically impossible to get a lot of these forms signed before the spring. I am therefore sending them in without the signatures of the parents. I feel that if we ask the Chief and Councillors to bring in the children and we then tax their efforts by giving them a lot of forms to sign, which they do not understand, we may run into difficulties. I would therefore ask you to accept them as they are. The Indians of this Agency at Fox Lake do not like to send their children to school as they are out of contact

with them until the children return home from Fort Vermilion during the summer holidays, and I believe our best method of getting these children in school is by leaving it in the hands of the Chiefs and Councillors.

Superintendent of Indian Affairs:

Sir:

This man states that he took the Indian children to the Mission school for the fall term (1950) Fort Vermilion from the Big Slough (Indian name) a distance of one hundred and thirty miles. Number of children thirty-two (32) for this he received the sum of eighty dollars (\$80.) He had to pay for his gas and food for the children out of this sum. He states he done this at a loss. He says he spent about one hundred and fifty dollars (\$150.) on the trip. This trip was by outboard motor and canoe.

He say that the Mission boat and party gets three hundred dollars (\$300.) so he understands at least. If so why should he do it at a loss as he has to pay out of his pocket. This man is one of the Councillors of the Red River Band.

Dear Mr. Knapp:

Re: Rose Cecile Chambaud, Age 5
Treaty No. 222, Slave Band

I wish to acknowledge copy of a letter addressed to the Principal of the Grouard Indian Residential School signed by Mr. Waller, dated September 17th. Mrs. Chambaud does not want Rose to go to the Grouard School, and I would not recommend it. First of all, there are many non-Indians in the School, and a close check-up on her health would not likely be done. I would further like to suggest that if we can keep all Indian children out of this school until they make definite arrangements for proper medical provision, it should be done.

Yours very truly,

Re: Rose Cecile Chambaud, Treaty No. 222,
Slave Band, Fort Vermilion Agency.

The a/m child, aged 5, is now ready to be discharged from the Camsell Hospital. Her mother, Mrs. Sophie Chambaud, is a patient at the Camsell Hospital and will remain under treatment. Her father, Josie Chambaud is a suspected case of T.B. who has resisted the x-ray, and for which reason Dr. Falconer does not want Rose to return home.

The Fort Vermilion Residential School is unable to cope with all the children of school age in that area. We are therefore suggesting that she be sent to the Grouard School where there are already a number of children (non-Indian) of under school age.

May we have your opinion on this suggestion,
please?

Re: Vermilion Indian
Residential School

We received your letter of the 3rd instant, with reference to transportation of children to the above school. In view of the contents of your letter, I do not consider that any further payment is due Jean Courtorielle.

With particular reference to the second last paragraph of your letter, I feel that it would be inadvisable to threaten the Indians with a statement to the effect that if they do not send their children to school, their Family Allowances will be stopped.

I feel very definitely that you should confine your efforts at the present time to insisting on having all children of school age attend school. If your requests in this regard are not carried out when school accommodation is available, you should then be guided by the provisions of the Family Allowance Act.

INDIAN AFFAIRS

Mr. Philip Phelan,
Superintendent of Education,
Indian Affairs Branch,
Ottawa, Ontario.

I am in receipt of your letter of July 23rd in
which you enclosed copy of a letter received from Jean
Courtorielle.

In previous years, one of the Fathers from the
Mission St. Henri brought in the children to school after
'rounding them up' and submitted an account. I do not know
of any time when the Mission was paid \$300.00 for a trip one
way. However, in 1950 we paid a bill amounting to \$328.20 -
our Voucher No. 8 of January 10th, 1950, to the Mission St.
Henri. This included the cost of taking the children to
their homes at the end of the school term in June, 1949,
and of bringing them back to school in the fall of 1949.
On this trip, Father Jean was accompanied by a Sister. The
purpose of this was to explain to the children and parents
the reason for the children to attend school in the hope that
in future years less effort and cost would be expended in
bringing the children to school. On this trip 38 children
were brought in. There was a considerable amount of bad
weather experienced on this trip, which delayed them. Also
included in this amount of \$328.20 was \$40.00 for the tran-
sportation over the portage by Mr. R. A. Barrett. As the
Indians own sufficient teams, they should be prepared to
transport them over the portage free of charge.

Last summer, Father Serrand - the Principal of the
school - said that he was unwilling to take over this work.
It was also felt that the Chiefs and Councillors of this Band
should accept the responsibility of seeing that a sufficient
number of children were sent to the Indian Residential School.

This was thoroughly discussed at a Council Meeting and the Chief deputized Councillor Jean Courtorielle to see the children were brought in. I agreed with Jean Courtorielle that he be given the sum of \$80.00 to defray the cost of gas, etc., for taking the children and that he was to get the full support of the rest of the Band. Jean Courtorielle finally brought in 32 children. He then pointed out to me that the \$80.00 was not sufficient. Because of the effort he had made, I reviewed the situation and offered to pay his bills plus \$25.00 for his labor. I refer you to our Voucher No. 438 of October 24, 1950, in the amount of \$70.00 (made payable to the Hudson's Bay Company, Fort Vermilion), which involved the cost of gas, oil and food. I supplied him with sufficient gas to return to Little Red River. This is accounted for under our Voucher No. 67 - payable to Mrs. M. Batt, Fort Vermilion, Alta. - under date of January 17th, 1951, in the amount of \$10.80. We also paid him an additional sum of \$25.00 which is part of our Voucher No. 89, payable to the Hudson's Bay Company, under date of January 19th, 1951.

A few more children were later brought in by Francis Meneen, another Indian, for the sum of \$15.00. Mr. R. A. Barrett also was paid the sum of \$8.00 for transporting these last children over the portage - our Voucher No. 130 of February 22, 1951. The amount of \$15.00 paid to Francis Meneen is included in our Voucher No. 89 of January 19th, 1951, payable to the Hudson's Bay Company. This makes a total of \$128.80 for bringing in less than 40 children.

An agreement was made with the Councillor, as he well knows, and we went further than this by giving him additional money for his efforts. I do not think we should have to pay a Councillor for work which is part of his duties and for which no other Councillor is paid. These people must be made to realize that the people of the Ambroise Tete Noir Band at Childs Lake have to bring their children a distance of thirty miles to the school and never have received a nickel in payment. The people of the Tallcree Band live a distance of sixty-five miles from Fort Vermilion. They bring their children to school in the fall and take them home at the close of school in the spring and have never been paid anything for doing this.

I think it is only reasonable and fair to expect that in future the people of the Cree Band at Fox Lake be held responsible for bringing their children to the end of the portage at their own expense and that we should assume the expense for

transporting them from the end of the portage to Port Vermilion, which I believe can be done for less than \$80.00.

I cannot say where Jean Courtorielle got his information of the Mission being paid \$300.00. In any case, it was understood that Jean Courtorielle would see that the children were brought to school as his duty as a Councillor and we did not make any arrangements to hire him individually for the sole purpose of bringing in the children.

With your permission I would like to take a stronger stand on this matter this year and notify the people that the children must be at the portage on a certain date and that they should undertake that part of the journey at their own cost. There are sufficient wagons, teams and boats amongst these Indians to enable them to bring all the children to the end of the portage without involving the Department in any expense. If we are getting such good co-operation from the other Bands in the Agency, it is only reasonable to expect the members of the Cree Band to do the same.

*ask

I would therefore suggest that we inform the Chiefs and Councillors that the pupils must be at the end of the portage on a certain date and that all those not there on that particular date will be considered as absentees, their Family Allowance stopped and action taken for absentee pupils.

I am sending you two copies of this letter in case you wish to send one copy to Mr. Jean Courtorielle with your comments.

Mr. Philip Phelan,
Superintendent of Education,
Indian Affairs Branch,
Ottawa, Ontario.

I am in receipt of your letter of July 23rd in which you enclosed copy of a letter received from Jean Courtorielle.

In previous years, one of the Fathers from the Mission St. Henri brought in the children to school after 'rounding them up' and submitted an account. I do not know of any time when the Mission was paid \$300.00 for a trip one way. However, in 1950 we paid a bill amounting to \$328.20 - our Voucher No. 8 of January 10th, 1950, to the Mission St. Henri. This included the cost of taking the children to their homes at the end of the school term in June, 1949, and of bringing them back to school in the fall of 1949. On this trip, Father Jean was accompanied by a Sister. The purpose of this was to explain to the children and parents the reason for the children to attend school in the hope that in future years less effort and cost would be expended in bringing the children to school. On this trip 38 children were brought in. There was a considerable amount of bad weather experienced on this trip, which delayed them. Also included in this amount of \$328.20 was \$40.00 for the transportation over the portage by Mr. R. A. Barrett. As the Indians own sufficient teams, they should be prepared to transport them over the portage free of charge.

Last summer, Father Serrand - the Principal of the school - said that he was unwilling to take over this work. It was also felt that the Chiefs and Councillors of this Band should accept the responsibility of seeing that a sufficient number of children were sent to the Indian Residential School.

This was thoroughly discussed at a Council Meeting and the Chief deputized Councillor Jean Courtorielle to see the children were brought in. I agreed with Jean Courtorielle that he be given the sum of \$80.00 to defray the cost of gas, etc., for taking the children and that he was to get the full support of the rest of the Band. Jean Courtorielle finally brought in 32 children. He then pointed out to me that the \$80.00 was not sufficient. Because of the effort he had made, I reviewed the situation and offered to pay his bills plus \$25.00 for his labor. I refer you to our Voucher No. 438 of October 24, 1950, in the amount of \$70.00 (made payable to the Hudson's Bay Company, Fort Vermilion), which involved the cost of gas, oil and food. I supplied him with sufficient gas to return to Little Red River. This is accounted for under our Voucher No. 67 - payable to Mrs. M. Batt, Fort Vermilion, Alta. - under date of January 17th, 1951, in the amount of \$10.80. We also paid him an additional sum of \$25.00 which is part of our Voucher No. 89, payable to the Hudson's Bay Company, under date of January 19th, 1951.

Re; Fort Vermilion Residential School
Quarterly Returns.

Attached please find the Quarterly Returns for the above mentioned school for the quarter ending 30th, September, 1951.

You will note that only a few of the Application for Admission forms have been completed. Most of those outstanding are the pupils from Little Red River and the Fox Lake Reserve District. Every year we have to make a round up trying to get the children in. With one group we sent the chief to bring them in and he can neither read nor write. Therefore the problem of getting the Admission Forms signed is very difficult.

Father Serranda has assured me that the Rev. Father Vanderstein the Resident priest will do all he can during the next three months to get these forms signed by the parents.

At the present there are over twenty children that should be in school as the Rev. Father Serand assures me there is accommodation for them. I have already written to the Regional office requesting further instructions with regard to taking stronger action to bring these pupils in. Most of them are boys.

Under the above circumstances and owing to the difficulties that we encounter in bringing these children in from isolated and widely scattered camps it would be appreciated if the grant could be passed. Owing to the rising costs of living the school finds it difficult to meet its financial obligations.

With reference to the day school pupils. All the Meneens have poor living conditions and in my opinion that they should be made to attend a residential school pupils and it is possible that

in the near future ~~that~~ we can get the agreement of the parents to put ~~these~~ children in residence without resorting to stronger measures. Accommodation was reserved for them, therefore as these pupils were in residence last year it would be appreciated if you would give consideration to the granting of the per capita summer grant for these pupils. On the present forms the Principal crossed them out. If you are in agreement with the above, the forms could be amended.

With regards to Rose Chambaud Pupil number 0328, this child was discharged from Camsell Hospital and admitted under instructions from Dr Falconer and Mr Gooderham. This child speaks english and will be six in January.

A Mr Utz decided to try and open a day school at Little Red River just as we were trying to get the pupils to the residential school. This has caused us a great deal of extra effort in trying to get the pupils to school. It has further confused the indians. Mr Utz has not declared his religious beliefs and ~~was~~ this band of indians are all catholic with only a couple exceptions it has presented a very difficult problem. This problem should be handled with a great deal of firmness.

Many of our indians still believe that they are doing the church a favour by sending their children to the residential school instead of complying with the law.

Mr Waller of the Regional office was at Little Red River to deal with this problem and is being kept imformed.

Dear Mr Phelan,

Re: Utz, Little Red River, Band. A

I would like to state the following facts concerning Mr Utz. Mr Utz found full cooperation from Mr Knapp, according to Mr Hopper, School Inspector from the Province, was hundred percent in favor of the scheme, supplied him with admission papers and he told him what to do to get the grant.

It is true that Mr Knapp sent a letter to Father Vanderstein, saying that the Indian Department wouldn't have nothing to do with Mr Utz, but in the other hand, he said the contrary to Mr Utz himself. Then, Father Vanderstein seeing Mr Knapp saying something and doing just the contrary, came back to Fort Vermilion.

Since that, some letters have been sent to Little Red River district to tell people to bring their children. Mr Knapp went down to Red River once, on some business but didn't bring one child back.

Re: Day-School. The day-school business was started, last year, by Mr. Knapp, without having consulted me. Also, some people came to see me, last year, asking me what they would do with their children. I told them; bring your children to the convent, as usual. They answered me: "Mr Knapp, told us: " We couldn't do it." Also, this year, he advised some people, to send their children to the public school, where they will be better taught. Such is the man we have to deal with. I told Mr Waller: "I lost confidence in Mr Knapp, and I wouldn't never trust him."

I thought those informations could help you, to size up the situation and to know who is responsible for all the trouble we are having now.

Respectfully yours.

The Little Red River School which Mr. Utz is attempting to establish is not authorized by the Alberta Department of Education. Mr. Utz is regarded as the tutor for the two children of Mr. Judd, a half-breed, who lives at Little Red River. Backed by Memmonite funds he came to this solid Catholic district and caused a lot of trouble for the Indian Superintendent, Mr. Knapp. The white settlers do not want the school which Utz is attempting to set up. They have all sent their children to Fort Vermilion.

Above all, it should be understood that Utz is not a qualified teacher and has had no teaching experience. He intended to use the Correspondence School lessons.

The situation was explained by me to the Department of Education and in view of the disturbing factors, the Department decided not to authorize this school.

Your letter of the 4th instant, file 766-10 (E6) to Mr. Waller has been brought to my attention this week. I had not seen it or the Reverend Father Serrand's letter when you discussed the matter of the school operated by Mr. Utz at Little Red River, while in Edmonton on the 15th.

Will you please refer to Mr. Waller's letter of the 17th, file 147/18-4 where it will be clearly indicated in the copy of the progress report from Supt. Knapp that everything is being done to bring Indian children from the Fox Lake Band, which is near Little Red River, to Fort Vermilion Residential School and that no children are being directed to the Little Red River school. To further support this I am attaching a copy of a report of the R.C.M.P. officer who is acting as truant officer.

Re: Treaty Indian Children - Non-Attendance at School.
Little Red River and Fifth Meridian Areas.

1. Further to the above and to previous reports as submitted in this regard, the writer advises that the plans as made for travel to Little Red River by motor transport had to be abandoned due to heavy snowfalls. However, on the 6-12-51 the writer was contacted by S.C. Knapp, Indian Supt., at this point and advised that an aircraft was being chartered for purpose of bringing in a sick Indian from Fifth Meridian and it would be possible for this member to accompany the patrol and take the action as required relative to this file.
2. Leaving detachment at 10.45 a.m. via Associated Airways craft, the writer patrolled to Fifth Meridian and Little Red River areas at which time "Notices to Parents" under provisions of section 118 of Indian Act were served and the children of school age who were present at the Posts picked up. Remaining at Little Red River overnight due to adverse flying weather, patrol returned to Ft. Vermilion at 11.15 a.m. of 7-12-51.
3. Altogether only six children were brought into school as result of this aforementioned patrol and these were flown from the Posts at Fifth Meridian and Little Red River together with the sick Indian on the one flight. A meeting was held at Little Red River on the evening of the 6.12.51, said meeting being called by J. Nanooch, Councillor at that point. Both the writer and Mr. Knapp attending. It was brought out at this meeting that some discrepancy had been made in regard to the children of Treaty Indian people as provided for in the Indian Act. They having understood at the time that Mr. Waller, Indian Dept., School Inspector was present at Little Red River last fall that they could send their children to any school that they desired. They were informed to the contrary and acquainted with the Sections of the Indian Act regarding school attendance of Treaty Indian children. At conclusion of the meeting the Indian parents present stated, that they all now understood their obligations and would spread the word to other Indian parents and all have their children into Little Red River by the 20-12.51 advising this office accordingly so that transportation could be arranged from that point to the Residential School at this point.

Re: Fort Vermilion Residential School

The attached progress report on the school attendance situation at Fort Vermilion will enable you to follow efforts being made to straighten out the problems at this point.

The pressure is being brought to bear on the parents to counteract the growing tendency of these parents to flout the instructions of the Superintendent and the missionaries concerning school attendance.

I am inclined to believe that the unauthorized school that Mr. Utz has tried to establish at Little Red River was an attempt to confuse the issue and add to the difficulties of the Indian Affairs Branch.

Re: Truancy - Fox Lake Band.

I wish to report the progress made to date in bringing in the truants of the Fox Lake Reserve District.

A plane had to be sent to Fifth Meridian on Thursday December 6th to pick up a very sick Indian boy for hospital. The R.C.M.P. went along on this plane to visit Fifth Meridian and Little Red River to deal with truancy. The weather closed in and we were forced to stay at Little Red River overnight.

The R.C.M.P. served truant notices for twenty-six children. Six children were brought back and admitted to school. Three of these children were attending Mr. Utz's school. Four other children have since been sent into residence, making a total of ten.

The truancy notices were made out to be effective on the twentieth December, owing to many of the men having to return to their trapping camps and bring their children back to Little Red River as the assembly point.

The cost of bringing in these children by caboose or bombardier was carefully worked out. The bombardier was found to be the cheaper of the two. The bombardier will therefore leave on the twentieth to bring the children to the Fort..

The R.C.M.P. will also go along on this trip in case the Moose Lake Indians have failed to carry out the orders on the truant notices. In which case the bombardier will proceed to Moose Lake to pick them up.

Investigations have been made into some of the homes of parents sending their children as day pupils. Where home conditions were found to be below requirements and destitution prevailed the children have been ordered into residence.

We will report further after the twentieth. It must be remembered that these children are scattered in six different camps and are difficult to reach.

You can rest assured that everything possible is being done to get these children into school and we hope to be able to say on our next report that this school is filled.

Dear Mr. Gooderham:

I have the following wire from Mr. Knapp
concerning JANET SEMANPHA:

"Re Janet Semanpha Slave Band 210 Age Five Doctor Kratz
recommends that she remain under his supervision at Fort
I.R.S. Stop School will not take over \$1.50 per day Stop
Will you recommend this action to Mr. Gooderham as we
need authority as Janet under school age"

Janet was admitted to the Fort Vermilion
Hospital in October, 1950 with childhood pulmonary tuber-
culosis. In April, 1951, she developed symptoms of
tuberculous peritonitis and enteritis. She was put on a
special diet and routine with antibiotic treatment and the
symptoms cleared by July. In October, 1951, she appeared
clinically well and the pulmonary lesion appeared stable.
She had no symptoms then of peritonitis.

In view of the crowded bed conditions Dr.
Orford suggested she be discharged to the Residential
School. I believe she is 5 years of age. I would recommend
that arrangements be made for her to be admitted to the
school. She would have better living conditions than at
home and would be under the supervision of Dr. Kratz.

Re: Attendance - Fort Vermilion
Residential School.

A report from the R.C.M.P. has been received stating that the remnants of the available school children in the Little Red River and Fifth Meridian areas have now been collected up and delivered to the a/m school. The number of children brought to the school was 14. Six children were allowed to stay at home for reasons that satisfied Mr. Knapp.

This closes a difficult and somewhat unpleasant incident. We hope that this show of determination will make the task of getting the children to school easier in the future.

You will recall that we have already had some correspondence with respect to Mr. Mitchell R. Utz, who, last fall applied for authority to open a private school at Little Red River. I recall that we decided that Mr. Utz might be regarded as a private tutor to the Judd children and no authority was given to him to conduct a private school.

I am advised by Mr. G. H. Gooderham, Regional Supervisor of Indian Agencies, that he is now endeavouring to recruit students from the nearby Indian Reserve. Please use every means at your disposal to stop Mr. Utz from acting in any other capacity than private tutor to the Judd family.

Mr. S.C. Knapp,

With reference to the December Quarterly Return for the Fort Vermilion Indian Residential School, it is noted that the Principal has broken the Return into three sections:

1. Pupils regularly attending
2. Truancy cases
3. Day pupils

By breaking the Return up into these three groups this leads to errors when checking future accounts as the pupils will be placed in one group on one Return and in another group on future Returns.

Please ask the Principal to show all the pupils in one group for the boys and another group for the girls listing them by consecutive register number. It is not necessary to show the day school pupils on the residential school Return. However, these pupils should be accounted for on Form P.M.R. We are forwarding a number of these for you.

We are forwarding an extra copy of this letter for transmission to the Principal.

Re: Quarterly Grant for Fort Vermilion I.R.S.

The Bursar, the Rev, Father Tessier, O.M.I. of the Fort Vermilion Residential School, has recently visited the office to discuss the cheque he received recently. This cheque represents payment of the Quarterly Grant for the quarter ending December 31st, 1951.

He seems to be confused as to how the figures on his cheque were determined. He further seemed inclined to think that perhaps it should have been more.

As this problem arises from time to time, it would be appreciated if you could let us know the figures used and the method in determining the amount payable to the Fort Vermilion School, as calculated from the December Quarterly Returns.

If two additional copies of this letter could be made, one for the Fort Vermilion School and one for the Hay Lake School, showing us an example to use for future returns, I am sure that this problem would not arise again.

We would deeply appreciate this information, not only for our own guidance but for the guidance of the Fathers concerned.

With reference to the March Quarterly Return, we wish to bring certain information to your attention:

Pupil # 0260 returned to residence on March 1st. The Principal claimed ninety-one days. This was reduced to thirty-one days.

Pupil # 0278 was absent in hospital from February 11 to March 19 consequently the school was allowed eighty-five days grant for her.

Pupil # 0282 has been in hospital since September 1951, consequently the school was not entitled to any grant and the Return has been amended.

Pupil # 0293 has been in hospital since February 5, 1951 and no grant was allowed for her.

Pupil # 0315 has been in hospital since November 15, 1951 and no grant has been allowed.

Pupil # 0330 has been previously listed as day pupil, consequently no grant was allowed for her.

Regarding pupil # 0334 this pupil was taken to hospital on January 5, 1952. The Department allowed a hospital grant of thirty days making a total of thirty-five days which was allowed for this pupil.

Pupil # 03365 was admitted to the hospital on January 28, 1952. Thirty days hospital grant was added to this making a total of fifty-eight days allowed.

Pupil # 0337 was placed in hospital on January 19, 1952 consequently only forty-nine days was allowed.

Pupil # 283 was placed in hospital on September 25, 1951 and discharged on January 7 consequently the school was entitled to eighty-four days.

As pupil # 0294 has been in hospital since September, 1951 no grant has been allowed.

Pupil # 298 has been previously listed as a day pupil consequently no grant was allowed on this quarter.

Pupil # 319 returned from hospital March 3rd, twenty-eight days grant was allowed.

In all of the above-mentioned cases, the Principal has claimed ninety-one days grant. We have reduced the grant to the figures shown above with the result that the total enrolment totalled 7,974 or an average of 87.63.

It would be appreciated if you would bring this matter to Father Serrand's attention advising him that he should claim grant for pupils who are in residence only. In cases where pupils are placed in hospital, the school is entitled to thirty days hospital grant following the date the pupil left for hospital. When discharged from the hospital and the pupil returns to the school grant may be claimed from the date the pupil actually entered the school only.

Pupils who are attending the Fort Vermilion school on day basis should be reported on Form PMR and should not be included on the Quarterly Return as no grant can be claimed for them.

I am attaching a copy of this letter which you can forward to Father Serrand for his information and comments.

Superintendent of Education.

Re: Fort Vermilion I.R.S.
Quarterly Returns.

With reference to your letter of April 29th,
file 766-10-E6, I wish to report that this matter has
been Discussed with the Rev. Father Serrand, O.M.I. with
the following result.

The Application for Admission Forms requested
are attached. Only pupils No.s 0334 and 0335 have been
signed by the parents. The remainder of the pupils were
truants.

These Pupils were ordered to report to Little
"ed River, where we picked them up and brought them into
school. The Rev. Father Vanderstein was later given the
forms to take to the parents. He has stated in a letter
to me that many of the parents have refused to sign. I
think a cooling off period should be allowed before we
again approach the parents to sign these forms. Many
of these Indians are primitive and cannot see the need
of education. Perhaps when the children return and make
a good report of how well they were cared for at school
the situation will greatly change.

Under the circumstances it is recommended that the
forms be accepted with my signature. Should this be
unacceptable we will again take the matter up with the
parents.

Regarding pupils number 0330 and 298, the
homes of these children were visited and found to be sub-
standard. The father had earned less than \$35.00 per month
for the past three months. Both the R.C.M.P and myself
considered them welfare cases and therefore directed them

into residence where they would be fed and clothed properly. Family Allowance was suspended. Under these circumstances it is recommended that the school receive the "arch quarterly grant for these two pupils.

Regarding the first paragraph of page three the quarterly forms have been amended to conform with the changes as listed.

The Crees are scattered during the winter months in many small camps, which are difficult to reach, even for the resident missionary and the problem of getting signatures on the Application for Admission Forms is very difficult.

Dear Mr. Knapp:

In reference to letter dated April 29, 1952 File 766-10
(E6)

I am sorry that I can do nothing about it as I had nothing to do with the picking up of the children at this time. You will recall that the matter of Truancy was dealt with by the Indian Dept. during the month of December 1951. Further to this the R.C.M.P. took action on behalf of the Indian Dept. Regarding the matter of truancy, I do not feel that I am in any position to complete the signatures of these application forms. May I suggest that during Treaty time these forms be completed by your department.

Yours truly,

Mr. S.C. Knapp,
Supt. Indian Agency,
Fort Vermilion, Alta.,

With reference to the June Quarterly Return for the Fort Vermilion Indian Residential School, it is noted that pupils 0262, 241, 243, 246, 283, 285 and 307 were in hospital for a short period of time during the quarter. As all of these children except pupil # 283 were in hospital for less than thirty days full grant of 91 days was allowed for each of them.

As pupil # 283 was admitted to hospital on May 14th the Principal should have claimed 74 days which was allowed as this pupil was in residence for 44 days plus 30 days hospital grant which is allowed. It is noted that pupil # 0342 was admitted to residence after discharge from hospital on May 13, consequently the school is entitled to 48 days grant rather than 44 as indicated by the Principal.

For pupil # 313 the Principal has shown in the Remarks Column that this pupil was admitted to hospital on May 8 and discharged on May 29 while he has only claimed 37 days grant for this pupil. It is evident that this child was also in the Charles Cammell Hospital but the Principal has neglected to indicate the dates in this regard. We are consequently disallowing any grant for this pupil as the data available is not sufficient to pay the Per Capita allowance for this pupil on the June Return. Please advise the Principal that it will be in order for him to claim 37 days grant on the September Return together with the

Mr. S.C. Knapp,
Supt. Indian Agency,
Fort Vermilion, Alta.,

With reference to the September Quarterly Return for the Fort Vermilion Indian Residential School, we do not appear to have the necessary application for admission for pupil 331 Leo Courtereille, consequently we are disallowing any grant for him on the September Return. It would be appreciated if you would arrange to have this application forwarded to this office for approval and when it is approved ask the Principal to include this boy's name on the December Quarterly Return claiming grant for him for the month of September and for the number of days the school is entitled to for the December Quarter.

Pupil # 0334 was not in residence during the month of June as she was in the Charles Camsell Hospital consequently the school is not entitled to per capita grant for the months of July and August. We are, therefore, allowing thirty days grant for this pupil.

The Principal has neglected to indicate the dates the pupils were absent from residence. If you will bring the Principal's attention to our circular he will note that in all instances where pupils are in residence for less than the prescribed number of days for the quarter, an explanation must be given and the dates when the pupil left the residence and when he returned to residence. In the case of the September Return the Principal neglected to indicate the dates for pupils 243 and 294.

Please refer to our letter of July 30, third paragraph regarding pupil # 313 for whom the Principal claimed thirty-seven days grant on the June Return on which the Department disallowed as there was insufficient information to indicate the circumstances why the Principal claimed thirty-seven days grant for him. The Principal has again claimed thirty-seven days grant but failed to show the dates that the pupil left the residence and later returned to residence and the reason for the absences, consequently we are disallowing the thirty-seven days requested.

Please instruct the Principal that he may claim this grant on the December Return but a definite explanation must be provided before the Department will allow the grant.

Superintendent of Education.

It is noted that Mary Ann Moberly

consider it necessary that this girl be placed in
the residential school as a grant-earning pupil and
the Department obliged to pay Per Capita Grant for her.

The Department approves the discharge

Please advise the Principal that we are allowing 74 days grant for pupil # 0330 who was admitted to hospital on November 13th and for whom the Department will allow grant for thirty days after that date. As thirty days grant claimed on the September Return for pupil # 331 was disallowed due to the fact that the application for admission for this pupil had not been received, we have now allowed thirty days grant since the admission of this child to this school has been approved. You should also inform the Principal that we are allowing thirty-one days grant for pupil # 313 Lewis Moberley.

Re: Admission of Pupils,
Fort Vermilion Residential School.

With reference to your letter of January 12th,
file 766-10 (E6), regarding Mary Ann Moberly, who was
previously a day pupil and has now been admitted as a
grant ~~enrolling~~ pupil.

This family lived within a mile of the
school last winter and for a part of this fall. The family
this fall was living in a tent and could not find housing
accommodation for the winter. They therefore moved back
to Tallcree Reserve some sixty five miles away, where there
is no school. The children were therefore placed in
residence so that they could attend school. In any event
the home was definitely sub-Standard and if there had not
been a definite improvement in the conditions of the home
we would have been compelled to send the children into
residence to ensure that they were adequately clothed and
fed.

With reference to the last paragraph of your
letter, this information is being passed onto the "ev.
Father Serrand, O.M.I., the Principal.

The Secretary,
The Department of Indian Affairs,
Ottawa, Ontario.

Dear Sir:-

In a letter dated July 26th, the Principal of our Wabasca School states that during the visit of the Treaty party to that School on July 23rd-25th, he directed the attention of the Indian Agent to the additional space which was being provided for pupils through the erection of a new class-room, and further states that the Indian Agent promised to recommend to your Department an increase in the pupilage. At the present time the official capacity as sanctioned by your Department is 30, and as the Principal points out that there are more than 12 pupils ready to come in, and that there is accommodation for at least 15, our Commission recommends that the official capacity be increased to 45 from the 1st of September next. As he reports that the Indian councillors at a meeting, urged that the increase be granted, our Commission sincerely hope that their recommendation may be accepted, and the increase authorized from the date mentioned.

In my letter of January 18th last, I endeavoured to place before your Department, not only the urgent need of an increased pupilage at this school, but the need of a new building to replace the one which was built by our Church many years ago, I also furnished an estimate of the cost of building and equipping a new log building, fixing the total cost at approximately \$7,000. In your reply on January 25th, 131-8-5, you referred to the possibility of consideration being given to this matter when the supplementary estimates were being prepared.

As I have not heard anything further from you in this connection, I can only conclude that no provision was made in the supplementary estimates for this urgently needed improvement.

Until a new and larger school can be provided, our Commission feel strongly that they are justified in asking for the

increased pupilage, seeing that they have provided the increased accommodation, and it is very earnestly hoped that the increase requested may be sanctioned.

MEMORANDUM:

The Honourable the Superintendent General-

1. Beauval, Sask.

4. St Bernard, Grouard, Alta.
5. Vermillion, Fort Vermillion, Alta.

7. Wabasca C.E., Wabasca, Alta.
8. Wabasca R.C., Desmarais, Alta.
9. Whitefish Lake, Atikameg, Alta.
10. St Bruno, Jousard, Alta.

The above is a partial list of residential schools in connection with which the Department pays a per capita grant. In these cases the Department did not build the schools and does not exercise the rights of ownership. It is noted that the last seven in the above list are in one agency i.e. the Grouard Agency.

In a number of these cases the Department is being asked to assume financial responsibility and to pay grants towards the capital costs of the buildings, besides making additional grants for additions, repairs and maintenance. In at least some instances there are undertakings on the part of the Department to furnish certain financial assistance. Many of the arrangements made in the past in this connection have been verbal in nature and the terms are not of definite record. It would seem clear, however, that in some, if not all cases the Department is obligated to some degree at least, but the lack of written records and agreements makes it very difficult to determine the nature and extent of this responsibility.

The fact that the Department has undertaken the payment of per capita grants implies a certain responsibility for the up-keep of the buildings, if not for the capital costs.

In my opinion it is necessary that the Department adopt a general policy for the purpose of dealing with these difficulties and I would respectfully offer the following suggestions for your consideration:

1. That the Department of Indian Affairs undertake the payment of per capital grants and any financial aid towards the cost of building only when the prior authority of the Department has been granted. This authority should cover such matters as site, size and nature of school buildings.
2. That such authority in all cases be set out in a formal and definitely worded agreement for the guidance of Departmental officials, as a matter of record and for the purpose of avoiding future misunderstandings.
3. That the schools now operating by authority of the Department as recognized by the payment of per capita grants be assisted from time to time as circumstances warrant and financial conditions permit.
4. That the various missionary societies be notified of the above rulings.

All of which is respectfully submitted.

Dear Doctor McGill:

I have the honour to report on an inspection of the Church of England School situated on Wabasca Lake up near what they call the "Narrows," about five miles from the Roman Catholic School.

*Rev K. L. Sanderson
agreed principal
see letter under
K.S.*

On my arrival there I found there was no Principal in charge and the work was being carried on by the Matron. This is a very old building, having been built out of logs a great many years ago, and it is in a very poor state of repair. The floors are worn and as a whole the building is very dilapidated.

There are 32 children in residence. In the classroom there are only 19 seats: The rest are benches. The classroom is heated by two stoves, and they have only a small blackboard. The teacher in charge of the classroom was Miss A. C. Bloomer, who holds a second class certificate. She is a very capable teacher and I feel that good work is being performed. There are 22 pupils in Grade I, 4 in Grade II and 4 in Grade III.

As I have said before the building is all in a very poor state of repair: It is all heated by stoves, and there are no modern conveniences whatever. The staff, however, are handling the situation as well as possible, and I was pleased to note that they were all quite efficient.

The Matron, Miss Edith Goddard, is a Graduate Nurse. The Cook and general helper is Miss Kathleen MacDonald, Farming Instructor, W. Reynolds.

An exceptionally fine garden is raised by the school. With this report I am enclosing a snap-shot of the school.

Madam:

I have your letter of the 5th instant, requesting a certificate covering your services at the St. John's Anglican Indian Residential School, Wabasca, Alta.

In this connection I have to say that the staff at Indian residential schools are appointed and paid by the church authorities under whose auspices the school is conducted. Our records do not state definitely the period of your service at this school. The first quarterly return which was received signed by you as acting principal was for the quarter ending March 31, 1916, and the last, for the quarter ended March 31, 1920. No doubt, you were employed at this school between those dates. I would suggest that you apply to Rev. T. B. R. Westgate, D. D., Field Secretary, M. S. C. C., 39-43 The Bible House, Alexander Avenue, Winnipeg, Man., who, no doubt, will be able to furnish you with the exact information you require as to your period of service.

Dear Sir:-

I beg to inform you that our Commission have appointed the Rev. K. L. Sandercock, L.Th., as Acting Principal of their St. John's Indian Residential School at Wabasca, Alberta, and arrangements are now being made for him to enter on his duties early in September next.

In the opinion of our Commission, Mr. Sandercock is very well qualified to fill this important position, as he has, in addition to other requirements, the advantage of considerable experience in this work which he received while filling a staff position for some years at the Mackay School. His wife has also had the benefit of a like experience which she received while filling a staff position at our Elkhorn School.

Mr. Sandercock is a graduate in Theology of Emmanuel College in Saskatoon, Sask., and is at present filling the position of Incumbent of the Church of England parish of Lucky Lake, in the Diocese of Qu'Appelle in the central part of the Province of Saskatchewan.

Our Commission commend his appointment to the favourable consideration and approval of your Department.

I have your letter of the 5th instant, relative to a report which your Commission received from the Acting Principal of the Wabasca C. of E. Indian Residential School, regarding his visit to the Long Lake district and stating the number of children of school age who could be recruited to the school.

Regarding your request that the Department provide a per capita grant for 10 extra pupils, in order that the school can recruit this number from the Long Lake district, I regret that, as our Appropriation for the current fiscal year has been so greatly reduced, we will be unable to provide funds for the purpose. The grant allowed for the Wabasca C. E. School for the current fiscal year is for 30 pupils, and no grant can be provided for an increase in this number.

Dear Sir:-

Our Commission have received from the Rev. J. M. Roe, B.A., Acting-Principal of our Wabasca School, a report on his visit during the month of February, to the Long Lake district, which is approximately 87 miles from Wabasca. On this visit he was accompanied by the Manager of the local Hudson's Bay Company's Post, and also by Nurse Bawden, who was able to administer treatment to some sixty Indians requiring medical attention.

In addition to visiting Indian families on the way to and from Long Lake, Mr. Roe was enabled while at Long Lake to visit the Indian settlements at Good Fish Lake, Goose Grass Lake, and Round Lake, and to secure much valuable information about the Indians, both Treaty and Non-Treaty, in Treaty District No. 8.

With regard to the number of people in Treaty District No. 8. Mr. Roe writes as follows:-

" In this Treaty district (No. 8) there are supposed to be 650 souls receiving Treaty. There are quite 100 souls not receiving Treaty, but who are entitled to it. There are perhaps 50 souls in Indian families, who took out scrip. The non-treaty people in the same area would probably number 400 souls. (Wabasca voters list gives 100 names; and the Desmarais list about 100 names). The total population of the area would therefore be approximately 1200 souls."

As his report deals chiefly with the Indians in the Long Lake and adjacent settlements, I beg to inform you that he states there are some 25 Treaty children of school age in that

area, and that none of these have ever "been entered in either of the schools, E.C. or R.C." In the family of an Indian named "Thunder Spirit", for instance, he states there are 7 children, all of whom, except the two youngest, have been baptized by our missionaries, and as the family "are always in a state of semi-starvation" the father and mother allowed him to take two of the children back to our Wabasca School with him.

Mr. Roe's report enumerates other families as well having children of school age, but he makes special reference to the following eight children which have "a special claim for our consideration", and which should be admitted to our school this Fall:-

" Caroline Auger, age 7, daughter of Alexis and Agnes. Both parents were pupils in our School. Alexis "went over" to the R.C. Mission after leaving School. They were married by the R.C. priest. But the old association and allegiance returned, and their boy, Alphonse, now aged 9 was put into our School. They were "promised" that Caroline should come in this Fall.

Lillian Orr, age 7, daughter of George Orr. His boy, Bobby, age 12 is in School, and there are two children younger than Lillian.

Joseph Auger, age, 7, son of Usta Grasshead and Gertie (Alook). Gertie was at this School, Usta was at the R.C. School. They wish their boy to be brought up here.

John Nanimahoo, son of (age 7) Maxley, an Old Boy of this School. Maxley is generally in need of help; he has five children. This boy should come in to School in the Fall.

Basil Nanimahoo, age 7, son of Pierre. One of a large family, (we have Katherine, Michael, Harvey and Mary Ann all of this family, in the School now) and the parents are generally in need of help.

Elizabeth Beaver, age 9, daughter of Councillor Martin Beaver, (we have Daniel and Florence in school now) and the Agent gave injunction to Martin that the child must come to School this year.

Violet Cat, age 7, daughter of Johnny Cat, of the Reserve here. (we had Benwa, age 16, and Caroline, 19, in the School a few years ago). There are two or three younger children.

Mary Lenore Oar, age 7, daughter of Max Oar, on the Reserve here. There are two younger children, and Max cannot keep his family in necessities. "

PUBLIC ARCHIVES

ARCHIVES PUBLIQUES

CANADA

As the school has a sanctioned capacity of 30 pupils only, and has a capacity enrolment at present, our Commission strongly recommend that the official capacity be increased to 40. With regard to the accommodation Mr. Roe writes, in part, as follows:-

" But I am confident that we can provide accommodation here, with adjustments of space, etc., for 40 children, and so admit the 8 children I have listed, (in the Fall) plus the "Beaver" child whose mother at God's Lake is begging for her to be brought here. It only requires that I should have your sanction to make plans and get the adjustments of space made in time for the Fall School, and to be able to present my plans to the Indian Department's Inspector and the Indian Agent, when they come on Treaty and Inspection in June. For the sum of \$100 we can make all the necessary alterations, etc., and by vigorous work through the Spring and Summer, we can be ready in the Fall."

In view of the urgency of the situation, and the limited appropriation which your Department has been given for this fiscal year, our Commission will provide the sum of \$100. which it is estimated will be required to provide the necessary accommodation, and they sincerely trust that the increased capacity requested may be granted.

Your favourable consideration of this urgent and important matter, affecting as it does the life-long welfare of a number of your Department's wards, will be greatly appreciated.

Dear Sir:-

I beg to inform you that the Rev. A. R. Marshall has submitted to our Commission his resignation from the Acting Principalship of our Wabasca School, and that the Rev. J. M. Roe, B.A., A.K.C. (Associate of King's College, London, England) has been appointed to take his place. Arrangements were made by our Commission with the Canadian Airways Limited to take Mr. Roe from Edmonton to Wabasca by aeroplane in the early days of the current month of October, and although information of his arrival at Wabasca has not yet come to hand, this information is expected in the near future.

For your further information I may state that Mr. Roe is one of the most promising of the younger clergy in the Church of England. For some time he was on the staff of St. John's Cathedral in Winnipeg, and afterwards held a similar appointment on the staff of the pro-cathedral in Calgary. Our Commission are pleased to have the benefit of Mr. Roe's services in the important and responsible task assigned to them, and they trust that his appointment may be approved by your Department. It is not possible to state at present whether Mr. Roe will remain permanently in this appointment, but he has undertaken to fill the position of Acting Principal for the winter months, and our Commission sincerely hope that he may remain for a much longer period.

Rev. Sir:

I have your letter of the 4th instant, informing the Department of the arrangements that have been made for the closing of the Lesser Slave Lake C. of E. Indian Residential School as from June 30th, last, and requesting that a pupilage of 30 be provided at each of the Wabasca and Whitefish Lake C. of E. Indian Residential Schools.

Regarding the request for the increased pupilage, I beg to confirm our night lettergram of today's date:

See

Regarding the supplying of the lumber required to provide accommodation at the Wabasca C. E. Indian Residential School, I have to inform you that the local Indian Agent forwarded a requisition stating in detail the lumber, etc., required, and he has been authorized to arrange for the purchase and forwarding of same to the school, to an amount not exceeding \$250, which is also to include the freighting.

It is noted that the bedding, dishes and other equipment now at the Lesser Slave Lake School will be distributed between the Whitefish Lake and Wabasca Schools for the use of the additional pupilage. This Department would pay the cost of the transportation charges involved in moving this equipment upon receipt of accounts, in triplicate, properly certified, with receipts attached for any transportation costs paid by your Society. If you prefer that the cost of transportation be paid direct to the parties who do the work, you should forward certified accounts in their favour, in triplicate, when a cheque would be sent direct.

The pupils now at the Lesser Slave Lake School can be distributed as considered advisable between the Wabasca and Whitefish Lake C. of E. Schools.

In reply I have to say that the qualifications which the Rev. Mr. Marshall possesses have been noted, and the Department will approve of his appointment as Acting Principal. Sir:-

I have the honour to advise your Department of the retirement of the Rev. S. Richardson as Principal of St. John's Indian Residential School at Wabasca, Alta.

The Commission have appointed the Rev. A. R. Marshall, presently of Birch Hills, Saskatchewan, to succeed Mr. Richardson as Principal. Mr. Marshall comes highly recommended by the Lord Bishop of Saskatchewan and also by the Rev. J. W. House, Principal of the Blackfoot Indian Residential School. He is a married man of 32 years of age with a young family and during the period 1916 to 1919 served with the British Navy, retiring with the rank of Lieutenant R.N.V.R.

As Mr. Marshall is expecting an addition to his family sometime in March, it has been arranged that he shall spend some time at the Blackfoot School with a view to becoming familiar with the work and will probably not take up his post until about the middle of April. Pending his arrival the administration of the School is in the hands of Mr. George Arnold, who has been there for many years and successfully carried out the duties for some months between the departure of Mr. Longmore and the arrival of Mr. Richardson.

The appointment of Mr. Marshall, is, of course, that of Acting Principal at present and the Commission will be glad to receive the approval of your Department to the

Dear Sir:-

Re: Wabasca School, C. of E.

Your letter of the 7th instant, No. 131-8-1 has just been delivered here, and in reply I beg to state that the Rev. F. Longmore retired from the Acting Principalship of the Wabasca School at the beginning of September when his contract with our Society expired, and that Mr. George Arnold who has filled the position of Farm Instructor at this School for some years past, was asked by our Commission to discharge the duties of Acting Principal until a permanent appointment could be made. I regret that chiefly on account of my absence from Winnipeg, you were not officially notified of this action at an earlier date, and trust that the temporary appointment of Mr. Arnold may meet with your approval. Every effort will, of course, be made by our Society to secure an Ordained man for the Principalship of this School at the earliest date possible, but, in the meantime, I feel that I can assure you the supervision of the work there will be carefully conducted by the present staff.

Believe me, Sir,

The Department is in receipt of a letter from His Grace the Archbishop of Rupert's Land nominating Rev. F. Longmore as teacher in an Indian day school. It is also noted that the September quarter return of the Wabasca C.E. Residential School is signed by George Arnold, acting principal. It appears from the above that a change has been made in the principalship of the Wabasca School but, as yet, no official intimation has been received from your office and the Department would appreciate hearing from you in the matter.

The attention of the Department has been directed to the case of Daniel Beaver, a pupil of the Wabasca C.E. Indian Residential School, and we have been informed that this boy requires medical treatment which can only be received at Edmonton.

The return shows that this boy is apparently about eight years of age and that he entered the Wabasca School in September, 1925. Please advise me, as soon as possible, if he is an Indian and, if so, state the band to which he belongs. You should also advise if you consider that he requires medical attention and state, if possible, the approximate expenditure that would be incurred by sending him to Edmonton. Please let me hear from you in this matter at the earliest possible date.

Dear Mr. Farrier;

During my recent visit to Ottawa I regret that I omitted to consult you with regard to a minor operation on one of the pupil's, recommended by the Medical Officer, Dr. Jenkins of Edmonton, when he visited the School at Wabasca. The name of the pupil is Veronique Bellam, one of the smaller girl's in the Institution. It would appear from letters received from the Acting Principal, Rev. F. Longmore, and the Teacher, Miss Muriel Dawe, that this pupil requires special treatment for her eyes, in addition to an operation on her throat.

There appears to have been some question in the past about the pupil's eligibility as a grant earning pupil. But Mr. Longmore states in his letter that he understands Archdeacon White took her case up with your Department, and that you agreed to pay the grant as her Mother was living with a treaty Indian, her father being dead. I am unable to verify this information, but if you find it correct I shall be glad if you will let me know if this pupil may proceed to Edmonton at the beginning of July next under the escort of Miss Muriel Dawe, the Teacher, who is coming out at that time to consult an oculist. If you will authorize this, the authorization to carry with it, the travelling expenses of the pupil and her escort, as well as the expenses for the operation on the pupil, I shall be very grateful indeed.

Dear Sir:-

I beg to inform you that the Ven. Archdeacon A. S. White, who has been Principal of our Society's School at Wabasca for many years is resigning his position in order that he may devote his services after a short furlough in England, entirely to itinerating and evangelistic work amongst the Indian Communities in that part of the Province. As the Archdeacon will be leaving the School about the end of this month a recommendation has been sent to our General Secretary in Toronto that the Rev. F. Longmore at present Rector of the Parish at Gladstone Manitoba, be nominated to your Department for appointment as Archdeacon White's successor. As our General Secretary will be absent from Toronto for some time, and may in consequence be unable to communicate with you until after his return, I have thought it well to furnish you with this preliminary notice in this connection without further delay.

Right Rev. Sir -

I have the honour to acknowledge the receipt of your Lordship's statement of November 15th, last, in regard to the maintenance of Indian Boarding Schools within your Diocese. While appreciating the fact that there has been a decided increase in the cost of the maintenance of these institutions, I regret that I am unable at the present time to make any definite promise that there will be an increase in the per capita grant allowed by the Department, as no additional funds have been placed at our disposal to meet such increase.

STATEMENT CONCERNING MAINTENANCE OF INDIAN SCHOOLS.

We anticipate a total Treaty Indian Children of not less than 40 in attendance at the three schools, (Wabasca, St. Peter's, St. Andrew's)

This number would undoubtedly increase if the Missionary staff could be strengthened.

Fishing is now an active business conducted by commercial companies of whitemen. Before they were established whitefish could be procured in abundance and at small cost. It formed the staple article of diet with variation of Moose meat, bacon or beef.

All meat is now excessively high in cost and fish not less so. Abnormal prices prevail for flour and other necessary commodities without which the children cannot be maintained in health.

The cost of provisions in each Mission has risen proportionately. Salaries have been increased in some cases.

The payment of all labour connected with the Missions has extended. A grant for each child of twice the amount made in 1910, (\$125 per annum) would not much more than equalize the conditions prevailing then and now.

A generous increase is absolutely needed.

Referring to that portion of Your Lordship's letter of the 26th ultimo in which you ask for increased pupilage at Wabiskaw Lake and Whitefish Lake (C.E.) Boarding schools, and also for a grant to the Peace River school, I beg to say that the question of increasing the pupilage at the two first mentioned schools will receive consideration when the supplementary estimates for the next fiscal year are being dealt with.

In reference to the grant to the school at Peace River the Department desires to know whether this is the school which is known as the Christ Church Mission School, Upper Peace River. In 1904-05 the Department provided a grant of \$300.00 for the Christ Church Mission School, but no returns were received from December, 1907, till December, 1909. The return for the December quarter of last year came to hand a few days ago and a cheque for \$75.00 was sent to you.

Be good enough to advise the Department by return mail whether the Christ Church Mission School is the one referred to in Your Lordship's letter.

Your obedient servant,

Secretary.

Ottawa, February 15th, 1910.

The Deputy Superintendent General,-

Bishop Holmes, of Athabasca, has renewed the request for an increased grant to the Church of England Boarding Schools at Wabiskaw Lake and Whitefish Lake, Treaty 8, and for a day school grant at Peace River.

We have lately made them a day school grant at Lesser Slave Lake and in 1904-05 a grant of \$300.00 for the Peace River school was voted. No returns were received from December, 1907, till December, 1909. The latter was received a few days ago and payment has been made.

While I would not recommend making an exception in favour of these two boarding schools in the matter of per capita grant I am of opinion that the question of an increase in the pupilage is worthy of consideration.

The returns from the Wabiskaw school show that in the June quarter, last, there were enrolled 37 pupils and in the December quarter 19. His Lordship claims that this reduction was made because they could not afford to keep any in excess of the number for which the Department will pay the grant; not because of any lack of pupils. There has also been a reduction in the number maintained at Whitefish Lake.

There are several arguments that might be advanced in favour of an increased pupilage at these points.

In the first place the same staff is required to conduct a school for 15, the number now allowed, as for 25, pupils, the number asked for.

The cost of supplies in these outlying posts is very high, caused principally by the excessive freight rates.

Day schools are and for sometime will be impracticable in this district, as the Indians will depend upon the hunt for their living for years yet.

They have accommodation for the increased number asked for.

The earnings of 15 pupils are evidently not sufficient to finance a school. The Bishop states that last year he expended \$4000.00, collected by him in England, in paying deficits that had accrued. The deficit at Wabiskaw for the year ended June 30th, last, was said to be \$1000.00. I may here add that the Roman Catholic school at Wabiskaw Lake receives a grant for 25 pupils.

Mr. Inspector Conroy has reported very favourably on the work being done by these two schools and I would recommend that provision be made in the supplementary estimates for a grant of \$72.00 to 10 additional pupils each at Wabiskaw and Whitefish Lake.

Dear SIR,-

While at Wapuskow I carefully went into the financial condition of the Indian Boarding Schools and with the exercise of the strictest economy I find that it will be absolutely impossible to continue under present circumstances. As I have before represented the same staff of workers is required for fifteen scholars as would serve for twenty five, and the cost of upkeep and equipment almost the same we have reduced the number of scholars from thirty four to 25 and still the grant of \$72.00 for fifteen will, not cover more than half of the expenditure, this also applies to White Fish Lake.

We are obliged to refuse the Children of Scrip Indians when they are beginning to learn the mistake they have made and wanted what it means to be a white man.

The workers are anxious to know what is to be the future of the school before June next, as they must look out for new situations if the school is to be closed.

I once again plead with the Department to make us a grant for \$25 in each of the three schools viz-Wapuskown, and White Lake & make a lump sum grant

for Peace River School, where there are six treaty children in residence, as you have so kindly done for Lesser Slave Lake, thus we would be able to continue the work instead of having to close the schools

Within the last year, I have paid over \$4000. of school arrears out of funds, I collected in England for the purpose, these funds are now exhausted so it would be no longer possible.

I have estimated that each pupil cost \$100. for support, where is possible to have Day schools, I should close all the Boarding Schools at once but as the Agents are aware, a day school would not reach 1-10 of the children.

Trusting that the Department will once more favourably consider the urgent appeal.

Hon. Sir,-

The Bishop of Athabasca desires respectfully to lay before you the position of affairs in the Indian Schools.

He assumed office in the Diocese last April, and has since personally visited, and on the spot gone most carefully into the conduct and upkeep of the following schools,-

re Wapuskow School

35 scholars were supported, educated and clothed in this school during the year ending June 30th. last.

The staff maintained was sufficient for this number.

He found a sum of \$1000.00 deficit on the working expenses of the school for the year ending June 30th. last. This is accounted for mainly by the fact that the per capita grant was for 15 children only.

This manifestly is inadequate, and he begs the Department to increase the grant to the number of 25.

With such a grant he conceives the possibility of maintaining the school in a state of efficiency.

OTTAWA, 31st December, 1902

Right Rev. Sir,

Referring to returns received from the St John's Mission boarding school at Wapuskaw I beg to call Your Lordship's attention to the fact that the same are not made out in accordance with the requirements of the Department.

Regarding the numbering of pupils on the roll it is required that boys shall be numbered from 1 up, consecutively in the order of their admission, and girls from 01 in the same manner. If a pupil leaves the school, his number is not to be given to any other pupil, but each child is to be given a number of his own by which he is always known. I should be glad if you would advise the Principal accordingly and ask him to see that all the columns of the quarterly returns are filled up and the totals entered at the foot of the page.

It is also observed that six of the pupils on the September quarter return are under the age limit of seven years and are therefore only entitled to half the grant.

I should be glad if Your Lordship would be good enough to acknowledge the receipt of this letter.

I have the honor to

Memorandum:

Mr. Sifton,

The Rev. W. A. Ruman has made application, on behalf of the Bishop of Athabasca, for a grant for a boarding school under the auspices of the Church of England at Wabiscow. The number of pupils on the return is 15 and Mr. Ruman would like to have a grant this year if it can be given. I do not know whether any funds are available for this year and I think it is too early yet to know whether we will have sufficient money to consider this application, and consequently it would be inadvisable to undertake to make any grants for the present fiscal year.

I may say that Mr. Conroy, who has been in charge of the payment of Treaty in this district, recommends that this school be given the same grant as is made to other schools in a similar position. He considers the average attendance at 15 is placing it too high but he

I do not, however, think it would be advisable to offer Mr. Burman a grant on a less number of pupils than 15, at \$72.00 per capita, if we are going to give a grant at all, as in any case the Department will only pay for the pupils in actual attendance during the year.

Dear Sir

As Commissioner for the Bishop of Athabasca I beg to bring to your notice again the case of the Boarding School of the Church of England at Wapuskow Athabasca. The Bishop has before set the facts of the case and the great need of the school before you but for some reason the grant applied for was not allowed.

May I beg you kindly to reconsider this matter which is one of extreme importance to us. The enclosed memorandum from the Bishop dated May 13th last will give you a short history of the school, and its strength at that date - The school return sent herewith for 2nd ending Dec 31/00 - will show what was then being done. We feel that under the circumstances we are quite justified in asking a grant on the usual conditions. If you could in your next estimate provide for say fifteen (15) pupils, - or better still if you could give an emergency grant before next fiscal year, you will place us under obligations.

Memorandum re Wapuscaw School by the
Bishop of Athabasca. Dated May 13th 1907

No Mission of any Church existed at Wapuscaw when we commenced our Mission in 1894. From its first inception one of its main objects was Indian Boarding School work. For three months of that year we boarded six Indian children.

No sooner was the permanent Mission House planned in the fall of 1894^{than} it was arranged to afford accommodation for Indian children. Logs were got out in Jan'y. 1895. The building was temporarily finished that year & from seven to eight Indians were boarded, & from that time the attendance of children from Wapuscaw & Trout Lake has been growing. The highest number boarded has been twenty two to twenty three last winter. The average attendance about fourteen or fifteen.

Besides the Rev^d C. Weaver's constant ~~superintendence~~ Superintendence, we have had the excellent service of Mrs. Weaver as Matron, a School master & now a School Mistress, Miss E. A. Scott of Toronto.

1. Fill up all the columns in this Return.

3. The total number of days absent and days present not to be omitted, as these two columns added together should give the total number of school days.
4. Number and dates of holidays to be inserted in the column for remarks.
5. By the total number of school days in the quarter is meant the number of days in the quarter exclusive of Saturdays and Sundays. All authorized holidays will be paid for, but all day schools must be kept open at least 216 days in the year, the aggregate number of holidays must not therefore exceed 149, including Saturdays and Sundays.
6. The class standard of each pupil must be signified by inserting opposite his or her name the figure 1 in the column designating the particular standard. The standard course for each class will be found on the back of the Daily Register and is to be followed.
7. No names other than those of Indian children are to be included in this Return.

10. The average daily attendance during the quarter may be ascertained by dividing the total number of days' attendance of all the pupils by the number of days school was open in the quarter.
11. No teacher's salary will be paid until this Return has been received by the Department.
12. Should the school be closed at any time during the quarter, the reason must be given in the column for remarks for such day or days.
13. The school must be opened and closed punctually at the hours approved of by the Department.

His Lordship, the Bishop of Athabasca writes from London, England, under date of the 30th ulto, asking for a per capita grant of \$75 for 30 children for the school in connection with the Church of England Mission at Wapuskaw.

A boarding school has been carried on at this place for some years, but the Department has contributed nothing towards its maintenance, although applied to for assistance on several occasions, the last time being in October '98, when His Lordship was informed that when the time arrived, the question of the education of the Indians in the neighborhood of Wapuskaw would be considered. This locality is now within the limits of the new Treaty, and I beg to submit His Lordship's letter for consideration..

Dear Sir 192435

you have doubtless received a Report from the Treaty Commissioners of the Indian School in connection with the Church of England Mission at Wapuskaw in the N.W. Territories.

Since 1895, when the present Building was erected, we have endeavored to supply instruction & wholesome training to the Indian children. We have received them as boarders & clothed & fed them. We have had to do this in

on account of the cost of trans-
-port.

I trust however as Treaty
has now been offered & accep-
-ted by many of the Indians
in that district that the
government will recognise
our work & grant us help.

We ought to have an
adequate grant for thirty
children say a per capita

I trust the government
will make provision for
this for the coming year

I have the honour to acknowledge the receipt of Your Lordship's letter of the 28th ultimo, renewing an application of the 28th January last that the Department assist in supporting the Indian boarding school conducted by the Anglican missionary at Wapuskaw.

In reply to Your Lordship's remark that Wapuskaw is one of the points indicated for payment under the new treaty next year, I am directed to say that when that time arrives the question of the education of the Indians in the vicinity of Wapuskaw will no doubt be considered.

With reference to the letter of the 28th ultimo from the Anglican Bishop of Athabasca, again urging the Department to do something towards supporting a small Indian boarding school conducted by the Church of England missionary at Wapuskaw, between the Athabaska and Peace Rivers,—as I have nothing new to report in this matter, I beg to refer you to the Deputy Minister's remark on my memo. of the 21st January last.

The only new reason advanced by the Bishop for urging his request is stated in the last paragraph of his letter, where he says that Wapuskaw is one of the points indicated for ~~the~~ payment under the new treaty next year.

Dear Sir

Referring to the subject of my letter of Decr.
18 1897, I regret to say that as the Department
have not seen their way to render any assistance
to the work of Indian education at Wapuskaw
I have been compelled with much regret to
close our Boarding School there.

At the close of last winter there were twenty
six boarders being taught fed & clothed; but
we cannot longer bear the expense unassisted.
With all our efforts we are thirteen hundred
dollars \$1300 overdrawn.

I may say, as entry of the Department's
consideration, that we were encouraged to go
onward in this work by the following letter
from the Department

No 138788 Ottawa 7th May 1896. My Lord, in
reply to your Lordship's letter of the 17th ult. I beg
to say that the Department will do what it can to
assist you in your school work at Wapuskaw, but
present there are no funds available for the purpose.
An item, will however, be inserted in the Dep.

Had the Department only followed up the promise then given & allowed us a per capita grant of \$60.⁰⁰ say \$50 for board & \$10 for tuition, we should not have got into difficulties & the school would still be open.

I again urge on the Department to support our work there & enable us to re-open the school. / This seems the more desirable in prospect of the Government's Treaty arrangement with the Indians of the North for next year. Wapuskaw is one of the points indicated for the payment of Treaty next year.

Herewith is a letter from the Bishop of Athabasca regarding an application for assistance to a school conducted by a missionary of the Church of England at Napuokan or Nabasea, between the Athabasca and Peace Rivers.

The Department knows very little about this school, as it does not receive returns from it. From letters on file from the Bishop and the missionary in charge it appears that the school has been conducted for two years, that there is an attendance of about thirteen children, that there is no other school within a radius of a hundred miles, and that the only contribution that the Government has made to it was a supply of school material and seed for a vegetable garden.

To the Deputy Superintendent

Dear Mr. Hayter Reed

Referring to your letter No 138788 of May 7th 1896. In reliance of the Department's promise in said letter: we have spared no expense to make our Indian School at Wapuskaw effective. The teacher is Mr. A. S. Bruce a former student of St. John's Coll. School Winnipeg. The Rev. C. Weaver who is the Principal has spared no pains in making the children (all Indians) comfortable. The healthy well fed appearance of the children on each of my visits is evidence of the care & kindness shown them. After my visit there in May & February of 1897 I wrote the Department at Ottawa March 10 stating the condition of the School, building & attendance.

In reply to this I only received a letter No 138788 of April 15 1897 which barely acknowledges my letter of March 19 again referring to this matter.

In a correspondence I have had with Mr. A. Bourget, Indian Commissioner, he promised to send Forms of Returns on his

These children are all clothed & fed at the School & most of them ^{are} there the whole year round. I think the Department will recognize that this Boarding School is well worthy of Government support. Everything is done to secure the wholesome & moral training of the children.

"I was very pleased to get the seeds, & especially
in such good time. The people too are
highly pleased. This last week or so I have
been very busy, as besides ^{EXAMINING} my own gar-

They have had plenty of rain so that there

seeds in again at so late a date.

In reply to your

letter (no 138788) of March 24
I regret that for the current
year there is no prospect
of securing a grant for the
Indian school we have
established at Wapuskaw.

I trust the Department
will kindly place a sum
on the Estimates for the
ensuing year so as to en-
able them to make a
grant in aid to this school.

We have two of the murder-
ed man's children at the
school being both fed &

clothed by us.

Thank you very much
for the seeds. They have
arrived here in five pack-
ages in good order.

There will be just one
opportunity of getting
them in to Wapuskaw
before the ice breaks up
& will forward them to
the Revd C. Weaver with
instructions to use them
not only on the mission
land but by distribution
among any of the Indians
who are cultivating plots
of ground.

I remain,

Dear Sir
Yours sincerely

I was promoted to the honor of the sole bedstead, while my companions slept on the floor. What was more to the point, I had an attentive audience of men and women to whom I set forth the way of salvation through Christ Jesus. One old Indian woman seized and kissed my hand when leaving, telling me she understood what I had said and that she loved the words. I could but lift up my heart in prayer that the words might by the Holy Spirit be so grafted inwardly both in her, and their hearts, that they might bring forth fruit to God's glory. The following day we passed through a heavily timbered country but mostly burnt. At many points we passed springs that overflowed the ice and snow and supplied us with refreshing drinks. Travelling on the run in winter is very thirsty work. The evening set in cold and windy, but our guide 'Strong paddle' selected a good camp among thick pine. He had us up two hours before daylight, for the toughest part of our journey. We had to cross 'the mountain' as the Indians call it. This necessitates crossing some very steep ravines, and sometimes sleighs, men and dogs would land at the bottom in a heap, the men only too glad if they escaped collision, in their rapid descent, with stems or stumps. 'Sandy Lake' was reached that night, and we again slept in an Indian house. After supper several came in from adjoining houses and squatted on the floor, offering a deeply interesting congregation. The following evening we arrived at the mission. It stands on a height of land, facing the narrow channel and swamp that connects the two Wapuskaw lakes. The Mission house built of pine logs, has thirty feet area, including within it's four walls, dwelling rooms, Indian hall and school room. This serves to economise much labour and fuel.

Mr Weaver has about three acres fenced around the house and capable of cultivation. He has had to contend with great difficulties and has certainly done much more towards the completion of the building than seemed possible.

Wapuskaw is a unique little settlement in the very heart of the country, far removed from the ordinary routes of travel, accessible only by dog trains in winter and bark canoes in summer, on account of the swamps, muskegs and long portages that have to be traversed. Fish are plentiful in the numerous lakes.

It is a good fur country and deer are fairly plentiful. The first Sunday I was there, Feb 9th, we had a congregation of about forty people in the morn-

ATHABASCA LANDING

A VISIT TO WAPUSKAW

Dear Friends

I have just returned from an interesting and encouraging visit to Wapuskaw, our youngest Mission in the diocese.

It lies some 150 miles north and east of here. The journey had to be made with dogs. Our rate of travel averaged 30 miles a day.

Accompanied by Mr A. S. White and an Indian guide, I left here Feb 3rd. We proceeded down the Athabasca river about twelve miles.

From this point we ascended to the height of land. Our road was a narrow track or trail cut through the woods calling for care and expert handling of the long narrow sleigh made of two ~~logs~~ flat strips of birch bound together with shaganappi, to prevent their colliding with the stems of trees and fallen trees.

About six miles from the river we camped for the first night. Pine brush was laid where the snow had been cleared away and a bright fire rendered the situation much more comfortable than the cold, and falling snow seemed to render possible. The following morning we started about an hour before day-light.

Our road lay over Muskeg making the travelling very rough. My sleigh was arranged so that I could ride when I liked. As I infinitely prefer depending on my own legs and was armed with a good pair of Loucheux snow-shoes, I burdened the dogs as little as possible. At times, however I was thankful to ride as the pace of a good train of dogs keeps a man on the run the whole time. The Muskeg country terminated in what is called Muskeg Lake.

Beyond this point the country is, or rather was densely wooded. With the exception of a few patches of unburnt timber the whole country is burnt out along the route we travelled. How wide an area of timber has been thus destroyed last summer, it would be hard to say. About sunset we came out on 'Calling-lake'. This is a fine sheet of water some eight miles in breadth and from ten to fifteen miles length. White fish of a good quality are caught by the Indians in this lake. There are about four families here occupying small log shanties on the northern bank. We camped at one of these houses. As far as personal comfort is concerned I much prefer to lay my blankets on the pine brush by the camp fire. On the other hand we received a kind welcome.

ing and nearly the same number in the afternoon. At the latter service I baptised four adults and three children. The following Tuesday I started with Mr Weaver to visit a sick Indian across the further lake. The cold was severe on the open lake and the trip took us the best part of a day. We were well repaid however by the eagerness with which he drank in the message of a Saviour's love. He was evidently far gone in consumption and could only speak in a whisper. He asked for me to sit close by his side while one of his friends propped him up. When unable to sit up longer he would be laid down on his pillow, only to ask to be lifted up again to hear more. As the husband of more than one wife I postponed baptizing him until the Rev G. Holmes's arrival who being a fluent Cree speaker could fully explain to him the Christian rule. Unfortunately Mr Holmes's arrival was delayed and the day we had arranged to revisit him we heard of his death.

Mr Holmes arrived on the following Friday and the tale he had to tell is a sad commentary on these poor Indians unenlightened by the Gospel.

We had heard last November at the Landing of a Soto Indian who was practising medicine with the usual accompaniments of drumming and pretended intercourse with Spirits at one of these lakes called Moose Lake. He foretold that a Wetigoo should arise that would destroy every one who did not join his religion and come and place themselves under his protection. Many families appear to have done so. It created a general terror and uneasiness through the country. The hunters dare not go out to their hunting grounds with their families. The Indians have a great terror of these so called Wetigoos or Cannibals, they believe that after eating human flesh their heart becomes a lump of ice and no one's life is safe from them. Absurd as all this seems to us, it is a real terror to the untutored Indian. Dim shadowy terrors, nursed amid the silence and solitudes of the woods, beset them on every side.

A Wapuskaw Indian started with his wife and children for Trout Lake in January. The account of what happened Mr Holmes had from the wife. At their last camp before reaching Trout Lake, her husband who appeared quite well and ate his supper, suddenly said to his wife 'See look at that!' 'it is coming to me'. He crouched under his blanket and from that moment was a lunatic.

He told his wife that one of the children looked to him like a young moose and he wanted to kill and eat it. The woman sat up all night not daring to lie down, lest he should kill the children or her. Fancy the poor woman alone in the solitude of those dreary woods through all that terrible night!

Next day she proposed that he should go ahead while she drove the dogs.

He consented for awhile and then suddenly stopped, saying that something stopped him and would not let him go on. She had then to go ahead.

Finally they reached Trout lake. The people in their terror left their homes and crowded into two buildings in one of which the supposed Wetigoo was placed. They all thought that he was the cannibal the Soto Indian had been prophesying should arise. They appear to have been in a state of abject terror.

He was with them nineteen days. They bound him with cords but these he snapt in his frenzy. Finally his own father advocated his being put to death.

They prevailed on an Indian who had the reputation of being a Medecine man to do the deed. According to their statement he was very unwilling and at first refused. At length on their repeated solicitations and the expression of their conviction that otherwise, as the predicted cannibal, he would destroy them, he struck him on the head with his axe. But it required a third stroke before the poor madman lay a corpse at their feet.

Mr Holmes stated on his arrival there he found them still in terror. They had piled huge logs over his grave and dare not leave the two houses into which with their families they were crowded. The poor woman with her two children wished to return to Wapuskaw under Mr Holmes's care. She drove her own dogs; Mr H. lending her one of his robes to keep the children from freezing. On reaching camp that night they found that both her legs were badly frozen above the knees and they had to leave her and her children at an Indian's house which they reached the following evening. Before leaving Wapuskaw the father had expressed his intention of putting his two ^{younger} children to school with us. When the mother returns we shall, I trust, have the poor children. If some friends of the cause would only support the ~~children~~, I feel sure that the blessing of him who is 'the Father of the fatherless and the husband of the widow' will be theirs. We have now seven Indian children at the school fed and clothed. We have no Government

grant whatever, nor help from any source for their support other than the kind gifts that come to this Mission in the bales. The mischief I am sorry to say may not stop at the killing of this man; a brother of his has been brooding over the sad occurrence. He has been telling his fellow Indians that his brother comes to him in his sleep. They in their turn are frightened lest he too should go out of his mind. Some however of his friends have come under Christian instruction and he himself has been wishful for some time past for baptism.

His immediate relations including his own wife had driven him from their camp, but old John and Peter two leading Indians at Wapuskaw and Christian men, befriended him and the second Sunday I was there, he came forward and I had the pleasure of baptizing him. This and the kind Christian counsel, Mr Holmes was so well able to give him in his own language, will, I trust, under God dispel the gloom. You will see from above that Wapuskaw is a stronghold of heathen darkness and superstition and that in planting a Mission there we have chosen a spot that sorely needs the converting, enlightening and humanizing power of the Gospel of Jesus Christ. It is an interesting fact that on the headland on which our Mission now stands, in clearing the bush, Mr Weaver found one of their heathen 'munetokans' or idols; a stump of poplar carved into the rough semblance of a head and shoulders, painted with red earth, and with three black horizontal stripes on the breast. I brought the interesting relic back with me to the landing.

The week before I started we had our little Printing press going almost night and day, as I wanted to take out some little books printed in the Cree Syllabic. In undertaking this work my wish is; firstly - to put into the hands of the Indians small books they can easily carry about with them. Secondly by printing in large type (Pica) syllabics, to enable them to read by the flickering light of their camp fires. Thirdly by omitting the breathings, punctuations, marks of emphasis &c, in general use very helpful to the English learner, but of no use at all to the Indian, to simplify the characters just as they use them in writing their letters. This our first trial, consisted of selected passages of Scripture, Prayers and Hymns. It was a great pleasure to me to hear many of them read the books thus printed without difficulty or hesitation. All were asking for a

copy, but we only gave to those who could read. The syllabarium is attached so that they can teach one another.

On Sunday Feb 16, in the presence of the Indians, I admitted the Rev C. Weaver to Priest's orders assisted by the Rev G. Holmes.

As Mr Weaver becomes more acquainted with their language, I feel sure that he will exercise a strong influence over the Indians and I trust, that the light which is just beginning to gleam in the surrounding darkness, will shine more and more unto the perfect day.

I remain

Through oversight, an advance of \$250 was made on the Earnings of the Lesser Slave Lake C. E. Residential School for the Quarter ended September 30th, 1932.

As this school was closed on June 30th, 1932, the above advance should be deducted from the June Quarter Earnings of the WABASCA C. E. RESIDENTIAL SCHOOL.

Mr. R.A. Williams, Accountant, M.S.C.C., was advised on May 29th, 1933, that this advance would be deducted from the next payment being made to the M.S.C.C., (See File 131-2-3).

Dear Sir:

I am in receipt of your cheque No. I-040828 --
for \$1,417.65 -- on your Voucher you say this is "Allow-
ances Residential Schools for Quarter ended March 31,
1945."

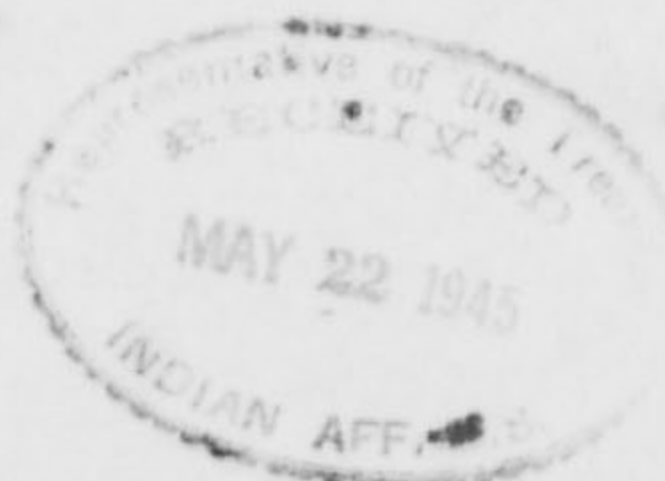

Please let me have the details of this.

Also, on May 14, we received a cheque for
\$3,012.50 (No. 31976) - March Quarter earnings for the
Elkhorn School. I shall be glad to know how much of
this cheque is for the regular grant and how much for
the special grant, so that I can make the correct entries
on my books.

Yours very truly,
